The military commission, composed of Army, Many and Marine Gorpe officers, in the foregoing case, was convened 21 Pobrusry 1947 by the Gommander Mariams Area pursuant to his inherent authority as a military commander and the specific authorization of the Commander in Orief, U. S. Praific Floot (GinCPec conf. serial 0550, of 8 March 1946) and Pacific Ocean Areas, and Military Governor of the Pacific Ocean Areas and the Judge Advocate Command of the Navy (JAG despatch 311730 July 1946). The constaction was authorized and specifically directed to take up this case. The order for trial (charges and specifically directed to take up this case. The order for trial (charges and specifications) was issued 24 Pobrusry 1947, and served on the accused on 24 Pobrusry 1947. The trial was hold under enthantity of Navel Courts and Neuros, except that the commission was authorized by the procept to relax the rules for Navel courts to meet the mesocation of the trial and to use the rules of orthogon and procedure promalgated by the Supreme Oceanset for the Allied Powers in his Regulations Governing the Trials of Accessed War Griminals, and medifications thereof, dated 5 December 1945, as mesocourty to obtain justice.

displo. In 1945, on deter set out in the specifications, prior to the servador of Japan, thirteen actives of the Burshell Islands were killed on Juluit stell by the second FUREL, Hidesain, Sursely a major, Ist, and the highest ranking any officer on Juluit at the time. The accused contented that the killings of the natives were justified and legal became the natives were parameter subject to parisdiction of the Squames military sutherities on Juluit, and their queentions had been ordered by the Hiltory Community of Juluit after des investigations of charges preferred against them. The evidence shows that the or called investigations of the natives which formed the basis for the order of their assentions did not comply with the requirements for a trial as universally recognized by sixilized states.

In the above circumstances it is considered that the main question precented in, done a United States military consists have jurisdiction to try the accused, a Japanese mational, for an offence (Marder) consisted in the Marshell Inlands, then under Japanese mandate and prior to compution by United States Forces? It is believed that this question was assured in the affirmative in the despatch of the Judge Advente General of the Navy (311730 July 1946), received prior to the date the Communder Marianas was directed to being the commend to trial (301300 Aug. 1946) and atted in the preceded to being the commend this core may cotablish a precedent the attention of the Navy Department in invited to the above question for each further consideration as may be decard appropriate relative to logal or policy features.

record fails to disclose affirmative positive evidence that the matives ments in specifications 1, 2, 3 and 4 were punished as opins. The specifications respectively alleged violations of article 30, assess to the Convention, Loss and Customs of Var on Land, Nague Convention No. IV of 18 Outside 1907. The allegations that the matives ment were punished as agine are material allegations alleging the previous of the offences, The previous of an offence ment to proved to material a conviction, (Custom 5, 1933, 6, 7) 2, 1925, 11). The measured's guilt ment to established by substantial evidence in this case to show that the natives ment in specifications 1, 2, 3 and 4 were punished as opten, Circumstantial evidence in this case to show that the natives ment in specifications 1, 2, 3 and 4 were punished as opten, Circumstantial evidence in Evaquently better than direct oridence, but when it alone is relience to dispussions must be

entisfactorily proved as facts and those facts must clearly and unequivocally imply the guilt of the accused to the extent that it can not reasonably be reconciled with any hypotheses of his innocuse. (Sec. 144 N. C. & B. 1997; Sec. 865 and Sec. 922 et seq. Wharton's Griminal Svidence, lith Ed.). In this case the positive evidence bearing on the nature of the offences for which the matives referred to were punished indicates that they committed offences other than spying, namely, attempted murder, describen from Jaluit, disobediance of orders, assault of military guards and destruction of military property. Accordingly it is the opinion of the Convening authority that there is an insufficiency of evidence to support the conviction of the accused on specifications 1, 2, 3 and 4 under Charge II.

Subject to the above remarks the proceedings, findings on Charge I and the specifications thereunder, and on Charge II and specification 5 thereunder and the contense in the foregoing case of FURUKI, Ridealm, formerly sajer, IJA are approved. The findings on specifications 1, 2, 3 and 4 under Charge II are disapproved for the reason that the Convening authority considers there is insufficient evidence to establish the fact that the natives of the Marchall Islands named in these specifications were punished as spice.

FUNUKI, Hidesolm, formerly major, LFA will be transferred to the custody of the Commanding General of the Sth U. S. Army, via the first available United States ship, to serve his sentence of confinement in Sugamo Prison, Tokyo, Japan.

ARGUMENT IN OBJECTION TO THE APPLICATION OF THE LAW DELIVERED BY MR. THICHIDE

Original argument in Japanese prefixed to the original record, Certified translation prefixed herewith marked "Co"

ARGUMENT IN OBJECTION

TO THE

APPLICATION OF LAW

Delivered by

Mr. Yuichiro AKIMOTO.

The accused objects to the application of the law as is introduced in specifications 1, 2, 3, 4, and 5 of Charge I in which the defendant is alleged to have violated Article 199 of the Criminal Code of Japan.

Such application seems to be based upon the fact that the act of the accused had taken place in Jaluit Atoll, Marshall Islands which was then a Japanese mandated territory and that the Criminal Code of Japan was enforced there according to the provision of the Imperial Ordinance No. 26 promulgated in 1923.

I think that the prosecution has applied the Criminal Code of Japan, because it followed the principle of applying the law of the territory in which the action had taken place.

Such application is legal only when this case is tried in a Japanese court. But as this court is an American court ruled by American laws, Japanese laws are foreign laws.

It is the general principle in criminal procedure that foreign laws can never be applied in the trial. ("Theory of the Criminal Code of Japan" by E. MAKINO, Doctor of laws, Professor of the Imperial University). Of course, there may be instances in civil cases when foreign laws are applicable. From the stand point of the theory of legislation, it is still a topic of argument among the scholars of criminal laws in various countries to whether or not foreign laws are applicable in criminal courts. But thus far, in no country or state can I find a written regulation which permits the application.

I believe that there is no such provision in American laws which permits application of foreign laws in criminal courts.

Therefore, the secused believes that application of the Criminal Code of Japan in the Charge of this case is illegal, and thereby objects to the first charge.

ARGUMENT IN ORDECTION TO THE CHARGES AND SPECIFICATIONS DELIVERED BY MR. SUZUKI,

Original objection in Japanese ppefised to the original record, Cortified translation prefixed herewith marked "E."

The accused objects to the charges and specifications. First, the accused is charged in each specification of Charge I, with violeting article 199 of the Japanese Criminal Code, the text of which has been translated and cited as follows:

"Every person who has killed another person shall be condemned etc". Eut observing the Japanese Criminal Code as a whole, this translation "every person" is unappropriate and easily misunderstood. We believe it would be more symmetriate if it were translated as follows:

"A parson who has killed ...etc.."

We request that this correction be made.

Secondly, in each of the specifications of Charge I, only Article 199 of the Japanese Criminal Code is applied to the offense of the accused. I believe, if the accused should be charged by applying the Japanese Criminal Code, then the charge and specifications also should be written in accordance with the Japanese Criminal Code and Japanese Criminal Frocedure Low. However, Charge I and each of its specifications is written in complete hermony with "murder" in the American Criminal Law. We must not allow ourselves to forget the following point. That is, in America hordicide is divided into "murder" and "manslaughter". Their elements are different and the way of writing the charges and specifications varies accordingly. But in the present Japanese Criminal Code homicide is not divided into these two

I believe, if the accused should be charged by applying the Japanese Criminal Code, then the charge and specifications also should be written in accordance with the Japanese Criminal Code and Japanese Criminal Procedure Law. However, Charge I and each of its specifications is written in complete harmony with "murder" in the American Criminal Law. We must not allow ourselves to forget the following point. That is, in America horicide is divided into "murder" and "manslaughter". Their elements are different and the way of writing the charges and specifications varies accordingly. But in the present Japanese Criminal Code homicide is not divided into these two classes and as a name of a crime, there is only one called "homicide". There does not exist a name of a crime nor type of crime which corresponds with that of "murder" in the Criminal Law of U.S.A. Therefore, while in the charger and specifications it is alleged "in violation of Article 199 of Jamese Criminal Code", it is contradictory to write charges and specifications under the name of a crime "murder" as no such stipul ation exists in the Japenese Criminal Code and which in American Lew conveys a specific meaning and element. From this point of view, the charges and specifications in this case hold no significance and should be rejected.

Objection to the charges and specifications in the case of Major FURUKI. Hidesaku, Imperial Japanese Army, delivered by Commander Martin E. Carlson , U.S.N.R. Defense Counsel on March 1, 1947, before the Military Commission convened by the Commander Marianas Area at Guam, Marianas Islands. The accused, Major FURUKI, Hidesaku, Imperial Japanese Army objects to the charges and specifications on the following grounds: All the specifications allege "FURUKI, Hidesaku, then a major, Imperial Japanese Army," . Under the first charge there are five specifications. All five specifications allege the offense charged is "in violation of effective lat especially Article 199 of the Criminal Code of Japan." Major FURUKI, Hidesaku, Imperial Japanese Army is still an officer of the Army because he has been kept a prisoner by American authorities since the termination of hostilities -August 1945, accused as a war criminal. Article D-13, page 490, Naval Courts and Boards, 1945 states "in the cases of the more serious offenses triable by superior provost court and military commission, there should be a detailed specification as in court martial practice, and such specification should show on its face the circumstances conferring jurisdiction, as for example, that the offender was an inhabitant of a district under military governments. Quite to the contrary all specifications show on the fact a clear lack of jurisdiction. Especially is this true of the five specifications under Charge I because these specifications allege the offense as "in violation of effective law especially Article 199 of the Criminal Code of Japan". We will enter a plea to the jurisdiction of this commission to try the accused, Major FURUKI at the proper time. But since Naval Courts and Boards, lection D-13 requires that all specifications show on the face "the circumstanc conferring jurisdiction the accused objects to them all and especially to the tive specifications under Charge I.

Section D-14 Appendix D, Naval Courts and Boards requires that the record of this court be "transhitted to the Judge Advocate General of the Navy to be revised and recordeds. It is therefore necessary that the requirements of Section D13 of Naval Courts and Boards be complied with in this present case and the specifications be anended to show jurisdiction.

The accused further objects to specification one of Charge I because four separate offenses are charged in one specification. We ask that this specification therefore be amended and four specifications be drawn up one for each offense. Under Section 199 Criminal Code of Japan translated by William J. Sebald this ruling is set forth: "Even when murder is committed as a result of one single resolution, as many cases of murder ere formed as there are victims " 35 S.C. 3587.

So in specification two of Charge I there are three . separate offenses charge in the one specification.

In specification three of Charge I there is alleged two separate offenses.

Two separate offenses are alleged in specification four of Charge I.

upu- 1 -

And specification five of Charge I also alleges two separate offenses. Te hold that there should be thirteen specifications inasmuch as thirteen offenses are alleged. The accused object on the same grounds to specifications one, two, three, four and five, of Charge II. We hold that there should be thirteen specifications under Charge II. The accused further object to all the specifications of Charge II on the ground that the offenses alleged are said to be that the accused Major FURUKI did, punish as spies,.... killing .....native inhabitants of the Marshall Island ....., this in violation of the laws and customs of war. We hold that these specifications are not in good form in that the specific laws and customs of for are not set forth verbatim. Under the first charge the section of the iminal Code was set forth verbatim, but now in this second charge no such law or custom is set forth. It is not enough to simply allege that the offense is colation of the laws and customs of war. This is too vague and uncertain to illy asquaint the accused with the offense with which he is charged. Section , Naval Courts and Boards requires: "whenever the offense comes directly under any other enectment (foreign laws, municipal ordinance, or local ship or station order) the same shall be set forth verbatin in the specification and Dio ved like any other fact." Since the record of this commission must be transmitted to the Judge Advocate General of the Navy to be revised it is necessary that it be correct in all detai Section D-14, Appendix D - Navel Courts and Boards, and we ask that all specifisarions of Charge II be amended and the specific laws and customs of war be set out verbetim. REPLY TO THE OBJECTIONS MADE TO THE CHARGES AND SPECIFICATIONS BY THE ACCUS DELIVERED BY DAVID BOLTON, Lieutenant, USN. Able counsel for the defendant have offered certain objections to tho charges and specifications. I will seek to answer the objections in the order that they have been made to the commission. Able counsel Mr. Akimoto has objected to Charge I and the specifictions thereunder on the theory that the charge seeks to apply foreign laws to an offense charged before the commission and that in general, foreign laws can not be applied in criminal trials. Counsel for defense himself stated that there is still an argument in various countries as to whether or not formign laws are applicable in criminal courts but he states that in no country or state and I quote "can I find a written regulation which permits the application." For the information of the defense counsel I would like o refer him to the basic charter of the International Military Tribunal which sat in the Nuremberg trials. Under Article 6(c) the tribunal established y agreement for the trial and punishment of national war crimes of European xis countries certain crimes were considered as coming within the jurisdiction of the tribunal and Section 6 refers to crimes against humanity and reads as : ollows: "Namely, murder, extermination, enslavement, deportation, and other inumane acts committed against any civilian population before or during the var or persecutions on political, racial, or religious grounds in execution of or in connection with any crimes within the jurisdiction of the Tribunal, whether or not in violation of the domestic law of the country where per-"etrated." This provision goes beyond the scope of the defendants arguments in that it ot only permits trials of crimes against the local law of the foreign place but in fact permits trials of crimes regardless of the existence of any such accal law. Further, I would like to refer counsel for the defendant to the common practice in naval courts to apply in criminal trials not only naval minimal laws but also applicable civil criminal laws of the jurisdiction within which the court is sitting and also criminal laws of foreign jurisdiction which refer to the specific offenses charged. However, Charge I, is rested by the judge advocate squarely upon the issue that in the application of this law we are sitting not as a foreign military commission but rather in the position of an exceptional superior local court. That concept is a basic one which is reflected throughout the application of military governments, and the historical background of military commissions sitting in occupied territory. They are empowered to sit in the place and in the position of a local court. "G" -1-ERTIFIED TO BE A TRUE CO . P. Kenny It Wh 004

With reference to the argument by able counsel for the defendant, Mr. Susuki, who objected to the phrase "every person" as used in specifications under Charge I and requests that the words "a person" be substituted for the words "every person", the judge advocate believes that in its substantive use in this specification the differentiation between "a person who has killed another" and "every person who has killed another" is immaterial if not completely indistinguishable and we believe no correction is warranted. At best such a correction would be clerical and highly technical as there is no conceivable prejudice to the defendant in this difference in interpretation.

In addition, Mr. Suzuki objected that the specifications in applying Japanese law are framed largely in terms of the background of the common law rather than the background of Japanese pleading. It should first be noted by the commission that we are not bound by Japanese laws of pleading and procedure and that the function of pleading is to assure a fair and just prosecution of the case against the accused and a fair opportunity for his defens Actually it should be noted that in the application of common law phraseology to the specifications we have gone further in that we added safeguards of the common law concepts of the crime of murder. We have not in any way prejudiced the defendant. On the contrary in pleading we have applied safeguards which a implicitly applied by the Japanese courts themselves in the interpretation of such broad and vague terminology as that in which the instant crime is written. Japanese counsel will certainly agree that their own courts have sought to app. additional concepts and safeguards to delimit and restrict the broad application of the language of this provision which reads "every person who has killed enother ...."

In providing such safeguards we have gone much beyond the Japanese safeguards by specifically requiring proof that the acts were done wilfully,
reloniously, with premeditation and malice aforethought, etc, in order to
establish the crime as charged. This perhaps more than anything else that we
could say at this point, establishes our inherent desire to assure justice to
the accused. For this purpose and in accordance with this desire we have
established these additional safeguards requiring specific elements in addition
to the basic formal pronuncio of the Japanese law which per se merely requires
that "every person who has killed another person shall be condemned to death
or punished etc". The fact that we have not alleged the gradations of offens
beneath that of murder as applied in the common law and in various statutes
running the gamut, in certain jurisdictions, from murder in the first degree
to the lowest crime of manslaughter in the second degree does not in any
way prejudice the defendant because we have, in fact, already assured him of
safeguards beyond that to which he is under his own law entitled.

Mr. Carlson in his able objections to the charges and specifications has stated that he objects to the specifications on the ground that they do not show jurisdiction. As the argument on jurisdiction is one which defense counsel have stated they would defer until a later time, it is merely necessary at this point to answer that objection in line with the jurisdiction of the commission as set forth in the precept which creates and establishes its jurisdiction over certain crimes and persons. We anticipate further argument by the defense counsel as to jurisdiction and are limiting ourselves in this point to such argument as is essential to show the specifications technically correct. The precept in establishing the juris-

diction of the commission, as set forth in part in paragraph 3, provides that "The military commission shall be competent to try all offenses within the jurisdiction of exceptional military courts. It shall have jurisdiction over offenses and Japanese military personnel now in the custody of Commander Marianas, referred to in" . . . the referenced despatch. There is no basis on which the defense can contend that in accordance with the precept the specifications have not adequately established specific jurisdiction. The requirement of jurisdiction over the person is satisfied in the specification by the allegations that FURUKI, Hidesaku, a major, Imperial Japanese Army, is being tried before this commission. The fact that he is in the custody of Commander Marianas is self evident. That he is one of the Japanese referred to in the referenced despatch will be established in the argument as to basic jurisdiction.

With regard to jurisdiction over the offense the specification alleges offens committed against certain Marshallese. The specifications in Charge I allege the crime of murder against Marshallese and the specifications under Charge II allege other crimes under the laws and customs of war committed against the Marshallese. Thus, the specifications do allege that the offenses were committed against Marshallese. They conform with the basic jurisdiction of the commission as set forth in the procept which specifically provides jurisdiction over offenses referred to in the despatch of the Judge Advocate General of the Navy. This 'despatch, which is not before the commission at this point and which will be discussed further in connection with jurisdiction, specifically refers to offenses against Marshallese natives. It is, therefore, apparent that have established by the specifications both jurisdiction over the person of the have established by the specifications both jurisdiction of the offense, the offense of killing Marshallese.

Mr. Carlson in his able argument has contended that in lieu of the five actifications of each charge there should have been thirteen and that for each person killed there should have been a separate specification. It is apparent that in accordance with the broad latitude of the SCAP rules which can be applied by the commission no warranted objection can be made to the arclusion in one specification of the deaths or murders that were committed at one time and at one place by the accused.

However, it is unnecessary to rely upon the SCAP rules in this connection the end formal and substantive essentials required of a proper specification have been complied with. To cite, Naval Courts and Boards, Section 12, "a specification sets forth in simple and concise language facts sufficient to constitute the particular offense charged and in such manner as to enable a person of common understanding to know what is intended".

Naval Courts and Boards, Section 27, with regard to specification states, "a specification should contain allegations of all the essential elements of the offense in simple, accurate, and concise language." That in substance is the essential requirement of proper pleading. This requirement has not beer violated in the specifications and the charges against the accused. Clearly

each of the specifications are written in simple and conduct language setting forth in each specification, with regard to each incident, the facts sufficient to constitute the offense in sufficient manner as to enable a person of common understanding to know what is intended. Particularity as to time, as to place, as to person, and as to offense, is set forth properly and no prejudicial matter can be derived from the wording and content of the specifications. The defendant has not been prejudiced on these specifications. On the contrary by their clarity and simplicity, the just deliberations of this commission will be enhanced by the fact that the commission is faced with five specification under each charge instead of thirteen. Similarily the defendant for his defense is accorded the same advantages of simple and direct pleading.

THE CUCUSED MADE THE FOLLOWING REPLIE

What the judge advocate said is not applicable since this is not an International Tribunal but a Military Commission. It is prejudicial to the rights of the accused if any member assumes he is sitting as a member of an International Tribunal.

If there are any cases in point showing that the charge as drawn under Charge I is customary in Japanese courts then the judge advocate should cite them and not just state that it is the prosecutions desire to safeguard the accused by trial under a navy convened Military Commission.

Since the prosecution did not answer our objection regarding the necessity of the specification to show jurisdiction we believe that the commission should recommend to the convening authority that the specifications be amended in accordance with requirements of Section D-13, Appendix D, Naval Courts and Boards, 1945.

MARTIN E. CARLSON, Commander, U.S.N.R. Defense Counsel.

"H" -1-

James P. Kenny & OSK

THE JUDGE ADVOCATE MADE THE FOLLOWING REPLY. With regard to the statement by defense counsel that this Tribunal is not sitting as an International Military Tribunal, that particular question and particular problem is one which will merhaps more suitably be argued and determined at the time when argument as to jurisdiction is made. I do not believe that any statement by the judge advocate has prejudiced the defendant in this regard because to morely cited sections from the Charter Of The International Military Tribunal for the Nuremberg Tribunal in answer to the statement by defense counsel that they had never seen any law or regulations which would permit trial under foreign laws for a crime charged before a Tribunal, Commission, or Court. Counsel for the defendant objected that under Charge II the laws and custom of war violated should be specifically set forth verbatim. Section 27, Naval Courts and Boards, states it is not essential to state in a specification that an offense was committed in breach of any Federal Statute, article of the arti for the government of the Navy, law of the State in which the court is sitting. or general regulations, as the court takes judicial notice of such statute, article, State law, or regulation under which the charge is laid. As this court is competent to take judicial notice of international law and specificall the laws and customs of war, it is therefore, unnecessary that Charge II should set forth the laws and customs of war verbatim. #### REQUEST OF THE ACCUSED FOR POSTPONEMENT IN TRIAL DELIVERED BY MR. AKTHOTO

Original request in Japanese prefixed to the original record. Certified translation prefixed herewith marked "K."

If it please the commission:

The defense is not yet ready for trial and requests an adjournment. We have no inclination or desire to delay the proceedings, but because of the following reasons we request that the trial be put off until Wednesday, March 5th at 9:00 a.m.

It was in the afternoon of 24 February, 1947, that the charges and specifications of this case were served to the accused FURUKI. The first opportunity we had to meet him was on the next day, Tuesday, February 25, 1947. Since the we have been absorbed everyday in preparing the case, but inspite of this, we have been unable to hear from the accused, the general outline of the facts, Moreover, those witnesses now in Guam who know the case well and who can testify in bohalf of the accused have all been designated as witnesses for the prosecution. So the defense cannot use them at this time, but we learn there in Japan an important witness for the accused in this case. We are going to take steps to summon this witness and we shall need considerable time in this investigation.

Another fact to which we would like to draw your attention is, that we, Japanese lawyers in submitting a document or statement to the Commission, must have them both in English and Japanese. The other day, I wrote this request f or delay in Japanese, then had to have it translated into English and to submit it I had to rewrite it into a clean copy. Therefore, we have to spend three times as long than the American lawyers. We request your special attention as regards this point.

Since the preceding TOMITA case came to a close on the 14th of December of last year, and until the charges and specifications for the present case were served on 24 February, seventy days have elapsed. During this period, we the Japanese lawyers, returned to Japan on 25 December and came back to Guam on 18 January.

If the charges and specifications of the present case, had been served immediately after the preceding case or we had been allowed to even talk to the accused we could have had sufficient time in preparing and we would have nade thorough investigations of witnesses and other natters. Hence, we believe we would not be requesting this adjournment.

As the situation stands, there are many matters, both in the facts of the case and legal issues, which are still left to be investigated. We cannot possibly finish our preparations in a short time.

This case, the accused being charged with murder is too important a case for the defense to go to trial and be properly prepared in only four days. Remember the prosecution had since August 1945 to property this case!

We shall at "this time only ask a delay until Wednesday morning at 9:00 a.m.

We hope, that the Commission will give special consideration to those circ unstances, and grant our request.

# YUICHIRO AKIMOTO

I certify the above to be a true and complete translation of the original request in Japanese to the best of my ability.

The accused objected to that part of the answer wherein it was stated, "I think they had been shot in the head," on the grounds it called for the conclusion of the witness, and moved that that portion of the answer be stricken from the record.

The judge advocate replied,

The consignion announced that the objection of the accused was sustained and directed that the words "I think they had been shot in the head" be stricken from the record.

The commission stated that the Japanese word "enou" used and interpreted as "I think" should be explained to all parties to the trial.

The interpreter stated that when the words "I think" are used in the interpretation of a Japanese word, it is usually the word "onou," That word is subject to many varied definitions but mainly under that of "to recall to the best of one's own knowledge" or that of "to have the opinion that." The word has different meanings for different people according to the circumstances in which it is used and the translation must depend upon the context in which it is used and the meaning of the witness. "Shinowru" or "I balisve" is usually to be interpreted as "I am sure" or "I am convinced of the fact that." "To recall or recollect" is usually a direct translation from similar words in Japanese.

26. Q. Do you recall on what particular part of the heads of those natives you can the blood.

A. I do not remember.

This question was objected to by the judge advocate on the ground that it was irrelevant and immaterial.

The accused withdrew the question.

36. Q. You were ordered to guard the metives with rifles, why were you ordered to do so?
A. I think it was because they had revolted against the Jaluit garrison.

The question and answer were objected to by the judge advocate on the ground that it was hearsty and requested that the question and answer be stricken from the record.

The accused made no reply.

The consission amounted that the objection of the judge advocate was not surtained and that the consission would give the proper weight to the answer of the witness.

37. Q. You testified that you were called by Hajor Puruki and went with him and our the dead bodies. At that time what was the attitude of Hajor Puruki?

A. He seemed to be very pale and was always looking toward the natives.

38. Q. After this did Hejor Furnki say engthing to you or Sugahere? A. He said to bury those mutives respectfully.

39. Q. You whated that after the burial pretty stones had been placed on his grave as his tembetone and also flowers and a preper had been given that his sould should rest in peace. Who was the originator of this idea?

The question was repeated.

A. I do not understand. I would like to have it repeated once more.

The judge advecate withdrew the questiane

10. Q. You have testified that you were assigned certain duties in commection with native pricences on Jaluit. Will you tell us what the nature of that assignment was?

A. I was ordered by the company commender to go to battalion headquarters armed and take instructions from the battalion commender.

11. Q. At what time in the year did you receive this order?

12. Q. Who was the company commander who gave you this order? A. He was Captain Sakara.

13. Q. Who was the officer to whom he ordered you to report.
A. I do not understand the question.

The question was withdrawn by the judge advocate.

14. Q. What was the name of the officer to whom you were teld to report?

15. Q. At the time you received this order from your company commander, did you receive any instructions on what your dress or attire should be on reporting to Major Puruki?

A. As I said before, I was told to go armed.

16. Q. Will you tell the commission just what you did as a result of this order and what you saw.

A. Then I went to the hettalion commander's room he maid to wait anhile. So I waited. Then a truck came. I was erdered to get on the truck. So I get on it. The truck stopped at the Second Assumition Dump and then the battalion commander brought two matives to the truck. The hettalion commander brought the two matives to the truck and each "That that these two natives do not escape." He asked, "Is your gun loaded?", so I loaded the gun. I was handed the rope and the truck moved off toward Aineman. It went for a considerable distance and the truck stopped and the hattalion commander ordered the natives taken off the truck and then I received an order from the battalion commander to watch this road and to stop all traffie. Thus the battalion commander taking the two natives went toward the legeon. A stort time later, from about ten to thirty minutes, I heard shots which sounded like pistel shots. And about ten to teenty minutes later the battalion commander called to me from a concent grove. As I was called I ment toward where the voice came from. When I went there I found the dead natives. And then the battalion commander said, "There are two shovels on the truck." So I want to get them, When I brought them the

9. Q. During 1945, and before the occupation of Jaluit by the United States forces, were you given an assignment in connection with the Marshalless native prisoners?

A. I was.

10. C. Will you tell us what that easignment was and what you did as a result of that assignment. A. As I remember it, it was around the tenth of August of 1945, I think it was in the afternoon about 3:00 p.m. that I was in the office of the Sefence section when an orderly from the battalion commander came to call me. At this time the battelion commander was head of the defence section and I was a member of the defense section. When I went to the battalion commander's quarters he said, "De armed as a guard inmediately", and when I went back to make preparations and come back to the front of the defense section there was a truck there and also Hajor Furuki. Hajor Furuki told me to get on the truck end the truck started to move. The truck stored in front of the Second Assumition Dump, the bettelion ecomender got off the truck, a short time later brought a metive woman. He ordered me to place the mative on the truck and for me to watch that she did not escape and then the truck started off toward Ainemen. The truck again stopped, in front of Aineman Transmitter Stations. the battelion emmender getting off the truck; a short time later brought another native, who was a male. The native was placed on the truck and the truck started off toward Maiborus The battalion commender ordered the truck to stop when it come to about the middle of Aineman Island and he said to take the two notives off of the truck and they were taken off. The battalion ecemender told me to unteh here and taking the two natives with him went into the jungle which was toward the legoon. The truck had bested off there about fifty meters and while I was waiting by the road I heard several shots and, as I was wendering what had happened, the battalion commander came cut and called me, so I went there. When I had gone into the jungle, with was toward the lagron, the two natives were lying on the ground. Then the battalien enumender ordered me to bury these natives, respectfully. When I said there were no impelements with which to dig, he said, "there should be some on the truck," so I went to get them and I dug a hole in which to bury the natives. And when I reported that the hale had been dug, symalf and Hajor Furuki buried the natives and after the dirt had been miled on the grave and I had placed stones so that no one would walk on the grave, Hajor Furuki was looking for flowers in the neighborhood. After everything had been taken core of, the battalion commander said, "we shall pray for them and go back", so the battalion commander and myself prayed that they might rest in passe and returned. We returned to the main island,

When he called you did he may anything to you? As I remember he said nothing other than to bury the natives. 19. Q. Will you describe the native's bodies as they appeared to you after you renched the site where they were lying on the ground? A. The natives had been shot in the head end there was blood scoring from the heed. The ecoused moved to strike out this amover on the ground that it was ominion evidence. The judge advocate replied. The consists directed that the words "The natives had been shot in the head" contained in the ensuer should be stricken from the record, 20. Q. A. On the night of the 19th of May, Chamoteo brought five natives to headquarters and reverted an incident to Major Puruki which had happened on
Insodj Island.

96. Q. What did Chamete report?

This question was objected to by the judge advecate on the grounds that it went beyond the scope of direct commination and called for hearesy.

The accused replied,

The commission ennounced that the objection was not sustained.

As In the evening of that day when Petty Officer Chamate was going down by the north and of Jaluit Island, by Nem Island, Imredj and Nedynd, and as he came by a channel there, Rabibaru, who was in the same cames with him tried to strengle him with a cord from behind. Petty Officer Chamate unconsciously noved his head and Rabibaru did not succeed. Recovering, Chamate three Rebibaru into the same, At this time Arden and Lessbr, who were in the same cames both came at him with care, but, because he had oversome Rebibaru so quickly, they became subdued in the cames. In another cames, the one which Chamate was pulling, the natives in the other best were about to assembly a gamedra, maned Haracha, but, as Chamate had oversome the other so quickly, they did not do anything. Guarding them, he brought them in and reported on his arrival.

97. Q. Bid you also immedigate - interrogate Haracka who was to be used by the other metives as a witness?

A. Haracka had to remain on Eurodj Island to do duties and Chemoto reported Haracka a testimore.

98, Q. You tertified that you also had interrogated native witnesses. Do you remember their named?
As Other than the natives that Chameto brought in on the evening of the 19th, I remember Tingrik and Kohyl.

99. Q. Rid you over call natives other than the native criminals?
A. Pive natives, about five natives, from haredj Island and the Grief of the Village on Ban Island. Hearr and four others were called as witnesses.

As From April 1945, the American policy of hidropping notives from the island which was very pronounced, became now intense and the antives of hardj Island became unsettled and tried to leave the island. Rehibert, who was in one of the fighing details, became the hardens and tried to overgone the Japanese genrie, take their waspens may and survender to the American forces. They planned this on the lifth of May. They planned to overpower Potty Officer Chambe on the way back from Ren Island, by the pass, and go to an island named Riben on the inner side of the pass. Hebricand the others had established, on haredj Island, that they, on the same might, should oversome the genrie, kill the genrie on Israelj and also proceed to Riben Island. Tingrik, who was on Hedyal Island, was also to do the same and acceptle at Riben. The root of the people of Jalant were to go to the islands in the morthwest of Rgain Island (Desrek Island). From they they planned to put out to sen to where the American furnes were weiting.

125, Q. You testified that Furnki was head of the defense section. What was the relationship between the Jakuit Garrison and the defense section?

A. The defense section was directly under the command of the commanding officer of Jakuit.

126, Q. What was the nature of the duties of the defense section? A. They were responsible for the counter measures taken against the American native-kidneping testion,

127. Q. What other sections, such as the defense unit, did the Jaluit Garrison have?

A. All I can recall electly was, there were such tourissions for measures in self-support in food, consission for propaganda, consission for what could be called guerrilla tection, on Jaluit,

136, Q. You were asked by the judge advector whether there was a trial. In answering this, what was your understanding of the word "trial?"

A. I was thinking of the arguments they had on the natives by the commanding officer, Najor Puruki, Shintens and Inous, and also I was thinking of the opinion shoot of Najor Puruki on the natives,

The consistion announced that the answer of the witness was not responsive to the question, and directed that the witness enswer the question if he could.

A, (continued.) What I understand of trial is that there is a presiding judge, other judges, the judge advector, and the trial was based upon investigation and it was the result of the specifications of the orine. What makes up a trial I do not know, as I am not familiar with the presedure.

139, Q. Then in enemoring the questions of the judge advecate and the council about trials, you did not know emotly what a trial was, and especially what a trial was in Japan, or by last?

Testerday, in connection with your description of the decision form on which Admiral Masuda's sentence appeared, you testified with regard to the erimes and the alleged violation of certain kinds of laws and you specifically mentioned violation of the Japanese Criminal Gods. Were the erimes alleged to have been violated crimes under effective law on Jaluit?

This question was objected to by the accused on the ground that it was beyond the scope of the cross-examination.

The judge advocate replied.

The commission announced that the objection was not sustained,

The question was repeated.

A. I do not know what laws were effective on Jaluit, but when the defense section was organized, Admiral Masuda said that the Naval Criminal Law, the Japanese Criminal Code, and Military Secrets Code shall be applied to all natives, military, and gunsokus who tried to desert.

233. Q. Do you know? A. I do not know.

234. C. On cross-examination, you testified that Admiral Masuda ordered Major Furuki to investigate these snatives. Did you ever see this order? A. No. I believe all these orders were relayed orally.

235. Q. Did you ever hear an oral order from Admiral Mesula to Major Furuki ordering him to investigate these natives? A. I do not remember.

236. Q. This morning you testified about a document on which, in addition to other things, Major Furuki gave his opinion as to the facts investigated and Admiral Masuda gave his decision. This afternoon you testified about a document and called it a judgment paper. Do you mean the same document?

237. Q. In cross-examination you testified regarding certain documents that were prepared when natives were released. Were there documents similar to the ones where the sentence was execution?

This question was objected to by the accused on the ground that it was irrelevent,

The judge advocate replied,

The commission announced that the objection was not sustained,

A. On the same form Major Puruki expressed his epinion of the crimes, punishment and the handling of those on which Admiral Masuda gave his decision.

236. Q. With regard to those documents on natives who were released, did Major Furnki give his opinion of the facts and say that he believed these untives should be released?

A. His opinion was expressed.

239. Q. Was his opinion that these natives should be released? A. Yes.

240. Q. In cross-examination you testified regarding the documents concerning all of the matives who were executed. With regard to these documents, did Major Furuki, in each case that you mentioned, give his opinion that the natives should be punished?

A. In some the opinion was expressed that they should be punished. In some that they should be released.

241. Q. Where did you investigate all the natives? A. At the Second Assumition Pump.

242. Q. Did you ever interregate any natives, or other witnesses, at any place other than the second assumition dump?

A. There were two to three special cases when I took a native to houses nearby and I interregated him there.

243. Q. Did you ever go to any other island to investigate these cases?
A. Because of my duties, my position was that I could not leave the main island of Imredj.

244. Q. What were these other duties that you had, besides investigating? A. The work as a member of the headquarters of the 62nd Haval Guard Unit.

245. Q. Did these duties consume a great deal of your time?

246. Q. Did you continue these duties during the period of time when you investigated the natives?

A. During these periods there was time when I had another officer teke over.

247. Q. During the period when you investigated Leschr, Kohri, Komina, and the other native, were you also investigating the case of Arden, Hakui and Tiagrik?

A. Yes.

248. Q. During this period, when you investigated both groups of natives, had you given up your other duties?

A. As there were ten petty efficers attached to headquarters under no - work that could be done by them I had them do - others, I had another officer take ever. Some that had to be done by myself I did during this period.

249. Q. You did some of this work yourself during that time?

250. Q. During the period of two to three days, to ten days, that you testified it took you to investigate Lesshr, were you also making and completing your investigations of the other natives, Kohri, Komina, the unknown, Tiagrik, Arden, and Makui?
A. Yes.

251. Q. You testified using an interpreter, when the natives did not understand Japanese, Was this interpreter Japanese?
A. Yes.

252. Q. Was he a member of the Japanese armed forces?

25% Q. When you questioned these witnesses did you use any particular formalities?

A. I do not know the meaning of "particular formalities".

The judge advecate withdrew the question.

254. Q. Did you swear any of the witnesses, when you were making your investigations?

A. I do not recellest such a thing.

255. Q. Did you threaten them with punishment, if they did not enswer your questions? A. No.

256. Q. Did you threaten them with any pumishment, if they did not answer your questions truthfully?
A. No.

257. Q. Wes all the information that you derived, concerning the commission of those alleged crimes by the natives, derived from this type of interregation of witnesses?

A. I would like to know what you mean by these methods.

258. Q. You have testified as to certain witnesses, who gave you information. You have indicated that they were not compelled to swear, they were not told there would be a penalty for telling an untruth and that all the information that you got concerning the alleged crimes was derived from the questions of these natives. Is that not so?

A. Yes.

259. Q. In cross-examination you testified regarding the documents that Admiral Masuda signed and you testified that they have the sentence of death. Do you know who executed this sentence?

A. When Major Furnici said that the matives had been executed, he said that

260. Q. Who was the bettalion commander of the Second South Seas Rettalion?

261. Q. Was he the highest ranking away officer on Jeluit?

262. Q. Was the Second Battalion, under Hajor Furnki, in charge of the defence section which was taking the countermeasures against the natives? A. The defence section had no relation with the second battalion, it was just a section of the Jaluit Carristin.

A. I forget how it wes to be.

265. Q. Who was the senior nevel officer below Admiral Mesude? A. Lieutement Commendor Shintons.

266. Q. Do you know if Major Furuki outrenked Lieutement Commander Shintome?

267. Q. You testified, in eross-examination, as to certain objectives of the group of Leechr, Kohri, and Kosina, and one unknown, and of the group of Arden, Nakui and Tiagrik. Will you tell us what these objectives or purposes were, as you determined them to be from your investigation?

A. I do not understand. I would like the question repeated.

266. Q. You testified that the natives intended to kill certain members of the Japanese forces and to take beats with cers and escape. Were there any other things that they planned to do, according to the result of your investigation?

A. I do not remember any of the facts concerning this.

269. Q. In your investigation, did you ascertain whether the natives were trying to secure information conserming the Japanese forces?

A. I do not remember such details. I do not remember finding any such facts.

270, Q. On the form aigned by Admiral Hasula, did the memod charges indicate that these matives had secured information consuming the Japanese armed forces for the purpose, or with the intention, of delivering that information to the American ships that they haped to enseunter when they escaped? A. I do not remember if there were things like that or not.

272. Q. Bid you ever hear, in the course of your investigations, of such charges?
As Admiral Hasuda relayed through Hajor Furnki that any persons that described Jaluit Island, whether they intended to or not, the result would be that they would relay intelligence.

272. Q. Then, with regard to these natives, since you investigated and found that they intended to escape from the island, you were forced by Admiral Hasuda's orders to conclude that they intended to carry information to the energy. In that correct?

This question was objected to by the secured on the ground that it was leedings

The judge advocate replied.

The consission announced that the objection was not sustained.

A. Not that we were forced, but, we were told that it would come to such a result and the punishment for doing so was up to Admirel Masuca to decide and had no relation to syself,

273. Q. When you determined that these natives intended to escape, did you them determine that they intended to pass information to the enemy

This question was objected to by the accused on the ground that it called for the opinion of the witness.

The judge advocate withdrew the question.

274. Q. In your investigations, when you determined that these matives intended to escape, did you then determine that they intended to pass information to the energy A. To determine this was not our duties. By duties were to investigate the cases,

Jame P. Kanny tr. USN

This question was objected to by the accused on the ground that it was leading.

The judge edveente replied.

The commission amounced that the objection was not sustained,

A. Are you asking for the notive of this incident?

The question was reported,

A. I did not heer the names from Chuta, but all the natives of Hural Village being in this plot, I interrogated some of them, but not all.

21. Q. Be you say that all of the matives of this village were concerned in this plot?

22. Q. And they were the people from whom you got the facts you reported against Chute?

A. There was also Chuta's confession, there was the testimony of the principal, Chammahle, and also the testimony of Enter Ain also was the

23. Q. Pollowing your final report on Chuta and Chomphle to Admiral Hasuda, A. I saw the judgment document of Admiral Hasuda.

A. I do not know if it was a native or the crime, but there was a name, the law applied, what article, there was the specifications, such as murder and so forth, the opinion of Enjer Furuki and the desigion of Admiral Hassia.

Outside of the form there was also two or three light of words, but I do not remember what they were. It was signed by the Commanding Officer of the Jaluit Defence Section, Admiral Hassia.

25. Q. Do you recall what this document had to say under the heading of specifications, with reference to Chuta?

A. Do you mean under specification or some other place?

26. Q. Under specifications, just as the question was worded.

A. Do you meen under specifications, or under the column handed specifications?

27. Q. Under the column headed specifications.
A. I think there was describen, surder, attacking a guard in a body, and the destruption of military property, but I do not remember essettly.

26, Q. Were those the things you had reported to Admirel Hesule on Chute?

29. Q. In the document on Chammble, under specifications, did it also have a listing of things you had determined as a result of your investigation? A, I do not know what you mean by "as a result of my investigation,"

P. Kenny Le US N

73. Q. Who were those untilves?

74. Q. At the conclusion of your investigation of the cases of these different natives, tell us her you prepared the report that you submitted to Admirel Manual?

A. I wrote the following things, the personnel history, how it came to be investigated, the ceilline of the incident, acts of each as concerned, and the things which I had testified before as having been teld to investigate and evidence.

James P. Konny & USN

75. Q. Did you have this report on the basis of what you remembered of your investigations?
A. It is not from nemony, as it was right after I investigated them, it was just as I investigated them.

76. Q. Then was your final report made, with reference to Chuta and Chommeble? A. I do not remember the day, but I think it was the middle of June. The day, or a day after, I finished the investigation.

77. Q. How long had you imvestigated the case? A. About ten days.

76. Q. So that after a ten day investigation you sat down and made a report, incorporating what you remembered, concerning the investigation that had been going on for ten days; is that not right?

This question was objected to by the accused on the ground that it was leading.

The judge advente replied.

The commission ennounced that the objection was not sustained.

A. I had made a record of what I had investigated.

79. Q. What kind of a record did you make?
A. The records were not statements, but notes, which I took down and which I gathered together at the end.

60. Q. Did you administer an oath to any of these natives before you interrogated them?

A. I told them to tell the truth, but I did not make them take a formel oath.

93. Q. In testifying to the quertions of the judge edvecate, concerning that a end thousable in what you were instructed to investigate by Nejer Puruki, you said you were instructed to investigate the following: what the crime was, whether nurder was committed, attacking the guards in a body, destroying military material, stying, and others, and in the judgment document of Admiral Nesuda you said nurder was listed. What facts concerning a nurder did you find out in your investigation?

As At that time all boots were assembled in one place and a guard placed over them. There was a plan to bill the guard and to takelle boots.

94. Q. In testifying about Gruta and Chammable you testified that all the natives of Burel Village were related in this case. What was the number of natives?

A. I think it was about thirty.

95. Q. What was the position of Chuta and Charmoble in that village?
A. Charmoble was the leader of that village and Chuta was a sen of influence in that village.

96. Q. What did you find out about the character of those two non, as a result of your investigation?

A. I do not know whether this was so in the case of Charactle, but Chuta's nature was bad and he was disliked by all the matives.

97. Q. What were their ages? A. Chesmoble was about forty.

98.  $q_{*}$  Including Chute and Chonnehle, what was the number of natives that you investigated out of the thirty?

As Six at the unin island and five to six influential people at the other islands.

99. 9. And in this case, the others, except Chemoble and Chute, were released. Now many of the others were released as not guilty?

A. All of the persons that were in Hural Village were released as not guilty, but out of the six who were brought to the main island, two of which were Chemoble and Chute, the other four I believe received sentences of hard labor.

200. Q. You testified that you made reports of your investigation to Admiral Hesuda and at the same time to Hajor Furniti. Did you make this report of the investigation to Admiral Hesuda a day to day.

103. Q. You testified that you handed in a report and that there was a judgment document. Do you know what steps were taken - what was done in this period?

A. Admiral Hasuda, Hajor Furuki, Lieutenant Commander Shintone, and Captain Inous were reviewing it.

104. Q. Them as a result of this review, the judgment was made? A. Yes.

105 Q. Was the Japanese character "Hankstau" written in it?
A. There was a column with the character "Hankstau" and in this column were
the characters "Hankstau".

Interpreter's notes

Hanketsu means verdict, judgment or decision.

106. Q. There has been some difficulty between the meaning of "Hanketsu" and "Ketted". I am asking you, what is the meaning of "Hanketsu", or in what instances is it weed?

The judge advocate objected to the portion of the question which read, win what instances is it used, on the ground it was irrelevant and issusterial.

The accused replied.

The commission announced that the objection was not sustained.

A. "Ketted", as I understand it, is when you determine upon something whether it is bad or whether it is good. If you have reached a decision whether it be even by one person is what I mean - is what I take as the meaning of "Ketted". In "Hamketsu" it would be a decision reached after consideration from all sutherities on all phases and all the things that came to light bring this together and upon judgment determined.

107. Q. Then, in Japan, in what instances is the word "Hanketou" used?

This question was objected to by the judge advocate on the ground that it was irrelevent and immaterial and repititious.

The accused replied.

The commission announced that the objection was sustained.

The witness was duly warned.

206, Q. I shall ask you, compouning whi you found on immediate of Bundala and Importa. What most of persons were Sandala and Importa as to observator and their position in the villages?

A. Handala was a loader of a group of twenty natives the moved from Chitegen village, which is a village compand of all the small inlands in the northern part of Jaluit, which moved to Jerushi village, which was at the southernmost part of Jaluit, and there were no had points about him, Imports was a person who lived in Jerushi village and he was of had nature and was charmed by the matters.

109. Q. What were the ages of Mandala and Laparia? As Mandala was about thirty-five.

Some P. Kenny 21.09% 1.04

110. Q. How did the Mendals and Laparia cases come to be investigated?

A. At this time a "gumpoku" nesed Haunoka went to Hinadyeng Island, where he not this woman, memod Hionimuchi, which was an acquaintence of his. This woman had moved there from Chitogen village and she told him that all of the natives were planning to occape. That was how this case came to be investigated.

A, As this become known, the efficer in charge of that district made an investigation. As a result of the investigation by the district commanding officer, Mandala had been influenced by an incident about twenty days before, when fifteen to sixteen natives escaped from the island on a barge which they had taken and influenced by this, he planned to escape with the twenty natives he had brought from Chitogen. Laparia was not a number of this group, but having heard about this decided to join. He told Mandala what he intended to do. He helped Mandala as a nain accomplice. He adjo was a compensar, so he made cars and pales at that time. The natives were not allowed to have cars or poles in their possession at that time. There was also a plan to attack the guards, take the boats, and Laparia had the duties of leader of this group. The plan was made and the escape was to be the next dark night. This was discovered by the commanding officer and Mandala and Laparia were sent to headquarters. Upon investigation, the above facts were verified.

The judge advocate moved to strike out this ensuer on the ground that it was not responsive.

The commission ennounced that the notion to strike out was not sustained.

112. Q. You testified that in a group they planned to attack the guards and take the beats. Upon investigation what fasts same to light about this?

A. Ten of the strongest natives were selected and Mendala acting as leader was supposed to attack the guards watching the camoos, kill them, and take the necessary canoes to the middle of the island. At that time the camoos were ascembled at one place and a guard placed, and the various positions of that group had already been planned.

113. Q. You testified that, in preparing for the eccape, cars and poles were being made. Did you take custody of those cars and poles as evidence?
A. Yes.

114. Q. Did you use this as evidence, when you investigated?

A. The commanding officer of the district took both of the natives to the actual spot and showed them the cars and poles. The two natives acknowledged this.

115. Q. In investigating this incident, how many natives and Japanese personnel did you investigated A. I investigated six natives and about six Japanese, including the commanding officer of the district and in addition to this Nameoka, a "gunschu".

116. Q. After your report of the investigation was handed in to Admiral Hasuda and the decision rade, were steps taken the same as in the case of Guta and Chemohle?

121. Q. When did you first enter the Assy?

122. Q. Will you describe the war conditions on Jaluit at the time Chuta and Chamable committed the crimes you investigated?

A, I can hardly describe the war condition which prevailed at this time, when I am cool and quiet, but I shall give you an outline of the conditions. The conditions on Jaluit were very miscrable. Every day was designature. The conditions on Jaluit were very miscrable. Every day was designature. Every day was designated, and the the very of danger. It was an island that had been isolated for a long time in enemy territory. It had been a long time without easy help. Under those conditions, there was continues benhing by planes and benhardment by ships. At Jaluit all things were very short. Heart, was the destruction of the means of continuing warfare. The personnel was very short and the greater part of the armoment was destroyed. Provisions, elothing, shelter, was scarce, especially the condition and amount of feed was miscrable. What food had been stored was destroyed. We had to revert to food which was mative to the island, but this was not sufficient to food the four thousand people of Jaluits. The ration for one day was one copus and one she of cocomat toddy. This was our main food, in connection with self support, all animals, such as dogs, cate, lisards and so forthy were entem. Leaves, gress, anything that was edible was esten up. As there was no food value in this, we got tired. In walking one hundred motors, much rest was needed. Great affert was needed to walk a few stops. Because of this shortage of personnel, duties were very hard. One person may have had four or five duties to perform. Also the backing and bankerdment continued, then began the kidnapping of mittees and Japanese military personnel by the American forces.

323. Q. These alleged orinos, counttted by Chute and Chessehle, they were committed in the face of the enemy?

184. Q. Were the conditions on Jaluit, at the time when Nandala and Laperia were said to have consisted the crime, the same as the description when Chuta and Chemoble were alleged to have consisted the crimes?

126. Q. Handala and Laperia, Malain and Hajkams, did they consit the alleged orimon, that you investigated, in the face of the enemy?

This question was objected to by the judge advocate on the ground that it called for the opinion of the witness.

The accused replied,

The commission was elected.

The commission was open, All parties to the trial entered,

The commission amounced that the objection was not sustained.

The question was repeated.

A. Before the face of the enemy.

127. Q. Describe, in more detail, how the enemy tried to kidmap the metives

and the Japanese military personnel?

A. There were three main methods in which they tried to kidnep metive personnel. One was to drop leaflets by plane. One was to broadcast from LGI's, Another was to kidnep the matives under fire by LGI's, and snother one was to have natives sneak into Jaluit. In the kidnepping tactics by leaflets, some said for the commanding officer to surrender Jaluit. Another kind was to bring about bad feeling in the military personnel. Another was to call attention to the defeats of Japan. Another told about democracy, to ereste bad feeling against military personnel. Some said to kill the consending officer and desert, and to the natives it was told, in their native language, that Jaluit would soon be occupied by American forces and it would become an island of flame, Some said that natives were living well on compled American places and to come. To the Koreans the same, as to what was told the military personnel, was relayed to them by planes with leaflets, and to the natives also, they said if there are tem Jepenese on your island, twenty of you attack them and kill them and escape. If there are twenty Japanese on your island, forty of you attack them and kill them and escape. And them speaker broadcasts from the LGI's and American destroyers. There was an American lieutenant who broadcast, Some Japanese prisoners of war were used. They relayed how they were living a better life and told them to come suny. On the natives, the same tactics were used. Another means was to have natives of other islands, or natives of Jeluit who had escaped, smook book into the island and tay to get them to escape. On the third of May, six hundred natives escaped from Jeluit. This was done by a mative named Tauru, who was a native of Auru Zeland, who smeaked back to Pikijim Island and got the natives to escape. This also spread to Medyai Island, There were other cases in which natives had encoked into the island, but was was also a case in which her hajijura, two of when smeaked into Jorushi Villago and told then to ecope. Whether they succeeded or not, I do not remember, but I think they were discovered before and the two eccaped. There were cases when one or two natives smeaked into Chitegen and Enredj Inland. One case I know of was in April of 1945 when eight natives who had eccaped from Millo Inland were picked up by an American destroyer and in two parties case in to Jaluit as spice.

 $130_{\circ}$  Q. The judgment shoots you described, were they always published by Admirel Hesuda after the completion of a trial?

This question was objected to by the judge edvocate on the ground that the accused was characterizing the testimony of the witness and there was no evidence that a trial was over held.

The accused replied.

The commission amounced that the objection was sustained.

129. Q. When did Admiral Hasuda publish judgment shorts?  $\Lambda_o$  I believe there was a period of five to ten days after the investigators had investigated the insident.

130. Q. What happened to the accused during this interval of time?

131. Q. Did the necessed stend trial during this time?

This question was objected to by the judge edvocate on the ground that it was repetitious,

The accused made no reply.

The commission announced that the objection was not sustained,

A. I do not know,

132,  $Q_{\bullet}$  Wes Admiral Hesuda authorized to carry out a death sentence when the penalty was death?

This question was objected to by the judge advocate on the ground that it called for the opinion of the witness,

The secured replied.

The considering amounted that the objection was sustained,

133. Q. Be you know whether Admiral Hasmin was authorized to earny out a death sentence in the case when the possity was death? A. He did.

134. Q. You stated that the Japanese Criminal Code and the Japanese Haval Panal Code were applied to those ensem, Was there a proglamation made by Admirel Hasuda to the antives that these laws were applicable to the

notives?

A. Admiral Broads put out the following policy: (1) concerning criminals, I would like to could then back to where there are courts, but there is no means of doing so due to the transportation, (2) natives are under the judicial laws of Jopan and under my command, this island is isolated and is under bostspinent and borbing by planes and ships, I have all the sutherity over the following (9) natives, military personnel, and guardant who desert

This policy was shown to us by Najer Puruki in April when the defunce costion was organized and he said it had been put out by Admirel Hassin,

135. Q. How was it possible for American destroyers and 167's to come in so slose to Jaluit?

This question was objected to by the judge advocate on the ground that it called for the opinion of the witness.

The secused withdrew the question.

136. Q. Did you have land betteries and emmunition to repel the American destroyers and LCI's that some in so eless?

A. As I stated before, the main armament was destroyed. If arms were left at outlying islands or were taken to outlying islands, the main island sould not be defended.

197. Q. What arms did you use to word off the American LGI's and destroyers that same in so close to Jaluit?

A. There were two or three times when we tried to repai the LGI's and destroyers, we used rifles and light meshine gums.

Requestred by the Judge advocates

196. Q. When you node your daily reports on your investigations, to when did you unke then?

As It was usual that I was to report to Admiral Hassia and Najor Puruki was to be there to hear the report, but at times when Admiral Hassia was budy, the report was made to Najor Furuki, who reported this to Admiral Hassia.

139. Q. You did not make daily reports to anyone else, did you?

140. Q. To whom did you make your final report on these investigations?

As Admired Houses

142. Q. Other than the document report, did you make any other final report?

143. Q. To whom did you make this final documentary report? A. To Admirel Repulse

144. Q. Then it is true that you mover reported to envene other than Rajor Purcht and Admiral Hearing

James P. Kerry L. N. 1.09

This question was objected to by the secured on the groundthat it was leading.

The judge advecate withdrow the question.

145. Q. In reply to the defence counsel's question, you spake about a document prepared by Admirel Maguda containing certain information which was shown to you by Major Furnki when you become attached to the defence unit in April 1945. Here you ever seen that document again?  $A_a$  I have heard many times afterward about it, but I have mover seen it again.

 $146_0$   $Q_0$  The only time you onw it was the time Najor Furnki showed it to your is that correct?

As In it the dedument?

147. Q. It is the dogument.
A. I may have seen it, but I do not remember.

146. Q. On gross-commin-tion you stated that these natives committed these crimes in the face of the enemy. Here you referring to the crimes as listed under the specifications in the official documents that have been referred to in which Admiral Maguin's decision appeared?

A. Yes.

149. Q. Now, in the case of Chuta, with reference to the official document, is it not true that you have stated on direct commination and cross-commination that under "specifications" the crime listed against Chuta was mission?

This question was objected to by the assused on the ground that it was leading.

The judge advocate replied.

The commission ennoused that the objection was not sustained.

A. Yos.

Najor Furnki called from his call to come to talk to us. Identenant Field asked Najor Furnki two or three preliminary questions and then he asked him if he was willing to make a statement about the insidente that occurred on Jaluit Island. Hajor Furnki freely agreed to make this statement and we supplied him with the necessary paper and pencils and we left the stockade, to an adjoining interview room, while he proceeded to write his statement, when he was alone. He had in his possession at the time, a piece of paper which he had this table on from which he apparently copies this table, in this present statement. Lieutement Field and I interregated some other witnesses to this incident in the adjoining building and during that time we had our eyes on Hajor Furnki to see that he was writing the statement alone. We then returned to the witness but where he had just about completed his statement. He signed it and then we asked him if he would add a portion, or a sentence to the effect that he had written it of his our free will and he readily agreed to do it. Lieutement Field told him that he wasted the true facts in the case and to give the portinent points, such as dates, names. That's about all I can remember.

7. Q. The Hajor Furnki promised any reward of special treatment or special consideration if he prepared or signed this statement?

A. He definitely was note.

8. Q. Was Major Furnki warned or threatened that if he did not write this statement or that if he did not sign, that he would suffer any consequences?

This question was objected to by the accused on the ground that it was leading.

The judge advocate replied.

The counterion announced that the objection was not sustained.

A. Absolutely nothing of the kind was told to him.

The original statement, in Japanese, of the accused, Major Furuki, Hidecaku, Imperial Japanese Army, and an English translation thereof, were submitted to the accused and to the commission, and by the judge advocate offered in evidence.

The accused objected to the admission of this document and read a written objection, appended marked "I."

The judge advocate replied,

Gross-essenteed by the accused:

9. Q. When was this document written by Hajor Puruki? As It was in the early part of Bosenbor of last year,

14. Q. Be you know how long he had been in confinement at the Wer Criminal Stockade?

As He was in solitary from some time in the previous month, Before that, he had been loose inside the fence surrounding the stockede.

25. Q. Do you know whether he had been given the right to have counsel to represent him during the time he was in confinement?

This question was objected to by the judge advocate on the ground that it was irrelevent and impaterial.

The secused replied,

The commission announced that the objection was sustained,

16. Q. How long did it take Hajor Furnki to write this dogument?
As About half on hour to an hour. He rewrete it into a clean copy after he had written a rough draft.

17. Q. After he had written it, did he sign it?

18. Q. Bid you see him sign it? A. Yes, we saked him if he had signed it.

Emmined by the secured:

3. Q. I show you a document. Can you identify it?

4. Q. What is it? A. It is a document made up by the Head of the Second Demobilization Department in Japan.

5. Q. Is the document duly authenticated by the Chief of the Second Demobilisation Department?
A. Yes.

6. Q. Has this document been translated?

7. Q. Be you desire to introduce this document as evidence?

The original document from the Chief of the Second Demobilisation Department in Japan in Japanese was submitted to the judge advocate and to the commission and the English translation thereof was submitted to the judge advocate and to the commission and by the accused offered in evidence.

The judge advecate objected to the commission receiving this document in evidence as follows:

The judge edvocate strongly objects to the receipt of this document in evidence. The document is a copy of an unsigned memorandum prepared by an investigation department of the demobilization section of the Japanese Mavy. It is a document obviously prepared for the purposes of the defense after Furuki was a war criminal. It was allogadly prepared in April 1946 and cortified as a "true description" in November of 1946.

The subject of the document is "reply" concerning the duty and so forth of Admiral Masuda. The dates of the document indicate it was prepared subsequent to his death.

The first paragraph of this document reads in part, "Since the documents concerned were burnt and the efficers of the 4th Floot Headquarters have not been repatriated." It is apparent from this that the pertinent documents were not available to the alloged investigators. Similarly, the only witnesses who would presumably know the duties and authority of Rear Admiral Heamhs as an officer under the 4th Floot were, by admission of the firstigator, unavailable. There is no statement in the record as to whother witnesses were over commined or any official documents of any kind were over used in the properation of this se-called "due investigation." There is not even any indication of who the actual investigator was. Surely a document of such nature has absolutely no evidential value and no conceivable basis of reliability or credibility.

"Organisation of the trial for civilians in Jaluit stell and the laws applied in the trial." This portion is additionally objectionable in that it is not only speculative opinion by an unknown, perhaps legally unqualified, investigator, but that it also seeks to invade the province of the commission by implying that there was a trial of the natives and alleging what laws and trial precedure were applicable.

Dense A. Kenny to USh

The latter portion of the document purports to give the content of various regulations for various naval units, vis, Special Sea Boat Buit, elearly such alleged regulations extracted from their full content, and taken from sources not available to the commission should not be permitted into evidence as part of such a document.

The judge advocate stremmously objects to the admission of this entire document or any part thereof. It has no basis of reliability, no eredibility, and no conceivable evidential value.

The accused made no reply.

The commission was cleared.

The commission was opened. All parties to the trial entered.

The commission amounced as follows:

Before making a ruling we desire to be further enlightened as to the method of obtaining the document offered into evidence, who originated it, how it was obtained, together with a brief description of the official functions of the Previsional Head of the Second Demobilisation Sections

## Emmined by the consistions

8. Q. Tell us what you know about this document. A. I shall explain first how I come to be in possession of this document. In November of last year when I was to be despatched to Guam as a counsel in the war crimes trial I went to the Provisional Investigation Department of the Second Demobilization Bureau and talked with the officials there, I asked if there was anything I could use as reference in the trials and I was given the above document. This document is a reply to an inquiry made of the Second Demobilisation Bureau by the First Demobilisation Bureau. This inquiry was made due to an emplanation asked by Najor Furuki about a year before he was brought to trial, asking the opinion of the Japanese government. As Furuki was with the Army his inquiry went to the First Demobilization Bureau. The First Demobilization Bureau inquired about this of the Second Demobilization Bureau and this document is a reply to that inquiry. The one I was shown was in a file and this document is a copy of that and I had it signed by the Head of the Second Demobilization Bureau to show that it was an authentic copy. As to the duties of the investigation section I do not know what its duties are, but a part of its duties is concerned with war crimes trials of various areas and one official said that it was also helping the various legal departments. Other than this I do not know what their duties are. This is not a copy of a document that is on file in to Second Demobilization Bureau, but a copy of a reply that was sent to the First Demobilization Department and which was on file. copy I had signed and authenticated as being true.

The counterion asked if there were any further comments to be made regarding the entering of this document into evidence.

The judge advocate made the following statements

Jones P. Kerry Er. 18h

I wish to point out that if the original document were offered here, the objection to receiving it into evidence would be substantially the same. The fact that this document may be a true copy of an inadmissible document does not in any way render it admissible as an exception under the hearesy rule. Under the novel theory of the defense in offering this document, it would be permissible for the judge advocate to offer and the commission to receive in evidence any filed unsigned memorandum or unauthenticated paper by any war crimes investigator, with regard to pure speculative matter as to which he has had no documentary or other authentic source of information. Such material has no evidential value whatsoever and should clearly be inadmissible. The testimony of Mr. Akimoto does not in any way alter the fact that this document is not admissible.

The commission amnounced that the objection of the judge advocate was not sustained and the document in question was received in evidence.

The copy of the document by the Head of the Second Demobilization Bureau in Japanese, and the English translation thereof were so received and are appended marked "Eschibit 3" and "Exhibit 4" respectively.

What is your source of information that the investigator used documents that he himself declares were burned? A. This original Japanese sentence can be interpreted and I interpret it as, "There were some documents that were burned, some people were not repatriated, but there were others," and according to this basis this report was made.

The judge advocate requested the permission of the consistion to have the interpreter give an authentic reinterpretation of this portion of the Japanese report.

A. The Jepenese system was one in which all persons were considered military, but there was no such thing as all civilians being military personnel. Persons, according to their skills or abilities, were taken in as military personnel, and I do not think that all civilians could over be placed in the military service.

61. Q. The document states, section 2, "Organisation of the trial for civilians in Jaluit Atell and the laws applied in the trial." Do you know what basis the investigators had in declaring that there had been a trial for the natives?

A. This document just tells us about trial procedure in Jaluit. This is all regulated by law. The Japanese Government Office should naturally know about it and this was just written down.

62. Q. Then this does not refer to any alloged trial of the natives on Jaluit. Is that correct?

A. What is written down is the procedure in settled times or under normal conditions.

63. Q. The document refers in the first paragraph, paragraph 1(a), to an alleged operation order of the Fourth Floot pursuant to which Admiral Masuda commended and defended the Jaluit Defence Area. Do you know if this alleged operation order was burned?

71. C. The judge advocate asked you a question concerning a phrase in the document to the affect that in April, 1944, all civilians were industed into the military service, and you answered this. You also answered that you had read this document and in reading that document you read the part before and after this phrase and what you would discorn of this. Was it about the vivilians in Jaluit or was it about Japan in general?

A. I read this document, but unless I can see it again I could not say exactly. When I answered the question of the judge advocate previously, I was under the impression that it was about the government of Japan in general.

But since all personnel of South Seas Civilian Government and all other Japanese civilians were taken into military service in April, 1944, it may be considered that he became to have substantial duty and authority concerning civilian administration, because these personnel and civilians had two characteristic functions on account of the special diremstances of the Atell which had become a battlefield."

This is naturally concerned with the Jaluit area.

74. Q. You were asked by the judge advocate if you know the floot orders had been burned or not and you answered that you did not know. In Japan, is it considered that orders or regulations are considered not legal if they are burned or are they considered not legal after they had been proclaimed as such. What is your understanding of this?

A. I answered that I did not know whether the documents had been burned or not. A law is not something that would become ineffective if the documents were burned. There would have to be a law or other regulation retreating or taking anny its effectiveness. It is not something that would lesse its effectiveness if the document was burned; and if I answered as such, I answered under the impression that the question was whether the document was burned or not.

Japanese Floot Regulations, particularly Articles 16 and 18.

The judge advocate objected to judicial notice being taken of certain matter requested by the accused as follows:

In view of the fact that the judge advocate has not been given any previous notice concerning the laws and regulations which the accused is now seeking to have accepted by judicial notice, the judge advocate requests permission to reserve further objection to the provisions and translation thereof, until he has had an opportunity to verify and authenticate such provisions and translations. In view of the desire to expedite these proceedings, the judge advocate will at this time enter the following objections to the requested judicial notice.

The judge advocate makes no substantive objection to the taking of judicial notice of the provisions of the Japanese Criminal Code. The Commission has already taken judicial notice of this code, as applicable in the Warshell Islands.

The judge advocate objects to the request that judicial motice be taken of the Japanese Naval Criminal Law and the Japanese Naval Court Mertial Law. So far as any authentic official infortation reveals, these laws were not the effective local law of Jaluit, Marshall Islands. These may have been the effective law for the Japanese navy, but this commission is not required to take judicial notice of the laws of the Japanese navy. The commission is not sitting as a court of the Japanese navy, it is sitting as a court of the Marshall Islands. It is empowered to take judicial notice of local law; but the law of the navy has not been shown to be the local law of Jaluit, Marshall Islands. With regard, to the Japanese Criminal Code, it should be noted that there is a well-know law of general application, Ordinance 26, of 1923, which made certain besic laws of Japan applicable to the mandated islands. Approximately fifty general laws, including the Japanese Criminal Code and the Japanese Lew for Criminal Procedure were included amongst those laws. The Naval Crim nal Law and the Japanese 9-1 Naval Court Martial Law were not included.

Before this commission can properly be asked to take judicial notice of the Navel Criminal law and the Japanese Naval Court Nartial Law, it must be affirmatively proved that these laws were in effect in the Marshall Islands with regard to the native population, and were the effective local law applied by the Marshall Island courts, and applicable to non-military personnel.

With regard to DAJOKAN (The Prime Minister's) Proclamation of 5 August 1892, as smended by Japanese Ordinance No. 74, 1882, the judge advocate streamously objects to the taking of judicial notice of this alleged proclamation or ordinance. The accused has neither cited nor proved any law making such alleged proclamation applicable to the Marshall Islands. Nor has the accused cited anything to establish that this alleged proclamation or ordinance was still effective in Japan. The alleged proclamation etc. is dated 1882, more than thirty years prior to the time Japan entered the Marshall Islands, and more than sixty years prior to the date of the alleged crimes. Surely the law was not originally applicable to the Marshall Islands. Similarly, in view of the fact that it is not

De P. Kerry 4. US 28

included in those basic Japanese Laws made applicable to the mandated islands by Ordinance 26 of 1923, revised in 1933, it appears clear that it was not made applicable to the Marshall Islands at that time....axpressio unius est exclusio altering. The judge advocate is not familiar with this alleged Japanese Proclamation, nor does he know whether it purports to be a general proclamation with regard to all future declarations of martial law, or whether it was a specific proclamation with reference to existing conditions in 1862. No copy of this document in its entirety was made available to the judge advocate, and he has no means of determining whether it was still in effect in Japan more than sixty years after its proclamation.

The judge advocate respectfully suggests that the accused must first be made to prove that Martial Law was proclaimed and made effective in the Marshall Islands, secondly that this specific Dajoken Proclamation or ordinance of 1882 was still effective law, thirdly that it was effective law in the Marshall Islands, and then the co-mission should require the secused to prove from an authentic reliable source, the content of this proclamation.

Clearly judicial notice should not be taken of the Japanese Fleet regulations. The secused has not established whether these purport to be general fleet regulations applicable to all naval units or fleets, or whether these are general naval regulations similar to our Navy Regulations, or whether these are regulations issued by one of the six Japanese Maval fleets. Regardless of the nature of these regulations, they are installesible under judicial notice. These are not the regulations of the United States Newy or United States Army, with which the commission might be deemed familiar by virtue of their knowledge of neval and army law and regulations. These are not matters of common knowledge or public information, nor are they matters which are readily ascertainable or verifiable. These alleged floot regulations are not part of the local law of the Marshall Islands. It is respectfully suggested that the accused must be required to prove the existence of the regulations, their full content so that it can be ascertained what other provisions of these regulations modify, qualify, or control the application of the provisions which the accused desires to establish, and finally it must be proved how these regulations were made applicable to the treatment of natives of the Marshall Islands.

The commission them, at 4:25 p.m., adjourned until 9 m.m., tomorrow, Thursday, March 20, 1947

9. C. What were your duties while you were on Jaluit? A. At first I was the head of the tank unit and in January 1944 I was attached to Headquarters. In July 1944 I became head of a high angle machine gun battery.

10. Q. Tull us about the air battles from the period of April to August 1945.

This question was objected to by the judge advocate on the ground that it was irrelevent and immeterial.

The accused replied.

The commission announced that the objection of the judge advocate was not sustained.

As At that time as I was commanding a high angle machine gum battery which consisted of two 25 ms, machine gums and several smaller arms, I am one of the persons who has experienced the tragedy of a battlefield. At that time the battery position was one of the most temperary once. It was

CERTIFIED TO BE A TRUE COPY James P. Kenny St. USA

almost a living hall. In November of 1943 I had fifty-three non under my command out of which forty were wounded. By the end of the war there were several replacements but including the wounded there were only twenty-six. All of the remaining twenty-six had been wounded at one time or another. They had to fight every day continuously. I do not know all of the conditions on Jaluit but concerning the bombing I know this very well. On Jaluit it was an endless continuation of hardships. From Sevember 1943 continuous bombing and bombardment by American force destroyed all on Jaluit. In February 1944, with the fall of Emajalein, the supply route being out off, the ammunition, feed and clothing situation became very bed. This was true especially in food. One copra and coopmut toddy could not satisfy all. Dogs, cate, limards, and all grasse that were edible were exten. The fighting was continued. All installations on the island had been wrecked. There were no shelters. Admiral Massala lived in a small shelter one and one-half ken to two ken square. (Interpreter's notes A ken is six feet.) The fighting strength of the Jaluit Carrison had become very negligible. All it was able to do was to barely keep a person alive and to keep the military service in tact. At that time the American forces attack on Jaluit was very fierce. Morning and night at regular times, two to three small eraft were stacking Jaluit. In addition to this, large and medium bombers would bomb at all times. On the eighteenth of June 1945 in Emidj, there was a battleship and two destroyers, three hundred small aircraft bombed and bombarded the Emidj Island. Right bombing was continued throughout April of the same year over a period of several hours every might. We could not sleep and therefore could not recover from the fatigue of the day. Emidj was in ruins. There was no place to bomb so the headquarters area, the gardens, and the boats were stanfed and bombed. Leaflots were dropped telling us to surrender, In February 1944, Jaluit had six nounts of 13.7 machine guns which equal twelve guns. All twelve of them were destroyed. In May of 1945, all that remained were two 25 mm, machine gums. That was all that made any registance, but even these 25 mm, machine gums were bad. There had been two mounts of six machine gume. Three direct hits had hit them, Out of the two nounts only three gums remained. Out of this three two and reserved mear hits, and one of the gume which had been splattered with flesh and bonce of the crew had been repaired and was being used. Again, the assumition was low and there was no resupply. He matter how many planes came only two hundred rounds could be shot. All firing was restricted and the sky above Jaluit was at the mercy of American planes. In Hovember 1943, there were two redere on Jaluit. All were destroyed and the entiaircraft lookout was by eye. Because of this, due to the worther and other elrometeness, surprise attacks were frequent and everybody was always on the alert while the sun was out. As for speelf, there was only about once or twice that I ventured over a distance of fifty yards from my position in a nonth. As I have stated, the damage on Jaluit was great. This affected greatly the war effort and the food. There was no installation that had no received a bomb, a direct hit. The only things that were not destroyed were the Second Assumition Dump, the Receiving Station and the Medical Shelter, which were hit but not completely destroyed. All positions had been destroyed. All the 13.7 cm. guns had been destroyed. The gardens and the poste received great damage and many times the regular ration was not coming. I have stated a few conditions on Jaluit, but the actual living was very much greater; the hardships there was very much greater.

11. Q. At that time were the American warships in the water around Jaluit?
A. I was on the main island and every once in a while, destroyers and submarine chasers would come near it. I have heard that out in the out-lying islands, American warships came every day.

12. Q. Were you able to have communications with other islands?

A. The only means of communications we had with other islands was by wireless. That also, I have heard, was not too good because of the power.

13. Q. At that time on Jaluit were there civilian personnel other than the military?
A. There were.

14. Q. What sort of work were they doing?
A. I cannot state exactly but I know that mainly they worked at self-support measures.

15. Q. What do you mean by solf-support measures? A. That is to be able to out.

16. . What sort of work were the natives doing?
A. I do not know exactly what the natives were doing, but I have heard that they were engaged in taking eccount toddy.

17. Q. You stated that the natives had been taking today. Do you know if they natives were taking this today on their own behalf or on the orders of the military?

A. It was taken for all the personnel on Jaluit and on the orders of the military.

18. Q. What do you mean by eccount toddy?

A. Before a eccount bears fruit there is a flower of which the point is cut off and the drippings from this caught in bottles and used as a food.

19. Q. Do you know if cocommt toddy was used as a staple food on Jaluit at that time?

A. Together with copra, it was a staple on Jaluite

20. Q. How long have you been in Guam?
A. I have been on Guam since Harch of last year, and it's almost a year.

21. Q. Are you in the stockeds, or where are you?

Cross-exemined by the judge advocates

22. Q. Here you on Jaluit during the month of May, 1945?

23. Q. Buring that period did you receive any orders from Hajor Furuki to send a working party to him?

This question was objected to by the accused on the ground that it was beyond the scope of the direct examination.

James 1. Kenny 4. USA

The judge advocate made no reply.

The counterion announced that the objection was sustained.

24. Q. During the month of May, 1945, did you have any duties in commercion with working parties.

A. There were no established working pasties, but at times working parties over put out by orderes

25. Q. During the North of May, 1945, did you put out any such working parties?
A. I have.

Sox

26. Q. Will you tell us concerning those working parties, the circumstances of their being ordered out.

A. I would like to have the question repeated.

27. O. Buring the month of May you have testified that you have sent out working parties. Will you tell us about the orders you received and any other circumstances concerning those working parties?

A. There were all sorts of working parties and I do not remember them all; but all the orders came from the junior officer of the day.

28. Q. Do you recall sending Kimura and Ikesse out on a working party in the nonth of Ney?

This question was objected to by the accused on the ground that it was beyond the scope of the direct examination and repetitious.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. I do.

29. Q. Do you recall during the same month sending Sugabare and Hiyasaki out on different working parties?
A. I do.

30. Q. Do you know what work those working parties did? As I know at this time after the end of the war. At that time I did not know.

31. Q. What was the work that these working parties did?
A. In what I heard after the war, was that they had acted as guards on natives.

32. 9. Did you also hear that they had buried the natives?

This question was objected to by the accused on the ground that it was hearsey.

The judge advecate withdrew the question.

Jones P. Kenny H. Wh

39. Q. Be you know whether those working parties also buried the natives. A. I do not know,

Neither the accused nor the judge advocate desired further to examine this witness.

The commission did not desire to emmine this witness.

5. Q. What was the name of the unit that you were stacked to? A. The Second Battalion, First South Seas Detechment.

6. Q. What sort of a unit was the Second Battalion of the First South Seas

A. The Second Rattalion of the First South Seas Detachment was one of two bettalions which made up the First South Seas Detachment. The second bettalion was made up of bettalion bendquarters, three rifle companies, one machine gun company and one battle artillary company. First me came over from the Chinese front to the island, and other units went to the other islands. The second bettalion, which was at Jaluit, was commanded by Hajor Furnki and he also commended the other units which were on the other islands, making up the regular strength of the First South Seas Betachment.

James 1. Karry 4. USA

7. Q. When did your unit, the Second Battalion of the First South Sees Detechment, arrivel on Jaluit?
A. I recall the date that the Second Battalion arrived on Jaluit. The 19th of January, 1944e

8. Q. At this time, did Najor Furuki as the commanding officer also arrive? A. Yes.

8-16

9. Q. Were there other units on Jaluit at that time?
A. At that time on Jaluit was the Sixty-second Naval Guard Unit, which was navy, and also a detachment from the First South Seas Detachment, which was army, and also navy units of the 952nd Air Squadron, the First Detachment of the Sixth Communications Corps, and the 111th Construction Battalion. There were several other small units.

10. C. Who was the commanding officer of the Sixty-second Newel Guard Unit that you mentioned?
A. It was Rear Admiral Masuda.

11. Q. What was the relation between the Sixty-second Naval Guard Unit and the Second Battalion of the First South Seas Detachment that Major Puruki commanded?

A. Upon its arrival on Jaluit, the Second Battalion of the First South Seas

Detechment was commanded by Major Furnici. It was attached to the Sixtysecond Newal Guard Unit, commanded by Admiral Masuda, and therefore, under the command of Admiral Masuda,

12. Q. What daties have you had since you arrived on Jaluit?
A. I was originally the officer in charge of communications of the Second Battalion, First South Seas Detachment under Major Furuki and on the first of September, 1944, when the American started the mative kidnaping tactics on the Marshalls, I was appointed Intelligence Officer of the Jaluit Garrison and came under direct command of Adwiral Masuda. In the middle of April, 1945, I was further given the duties as a number of the Jaluit Defence Section and in this section I was in charge of personnel, records, communications, and samitation.

13. Q. Do you know the physical aspects of Jaluit Atell? A. I do.

14. Q. Emplain this to the commission briefly.

A. Jaluit is an atell sixty kilometers in length from morth to south and thirty-five kilometers in width from east to west. It consists of ever one hundred small islands. It is all flat and it is all sand. The height above see level is about 150 cm. In digging air raid shelters, if you would dig down 80 cm. you would strike unter. Emidj, where the air base and headquarters were located, was on the eastern tip of the stell. The island's length was about fourteen hundred noters with a width of about six hundred meters. It was a very small island. You could see from one side of the island to the other. The only other two islands which were stationed at the time the American kidneping tactics began was Jahor, which was about twelve kilometers southwest of Emidj, and the island emeetly opposite to Jahor, Emiber.

(Notes Jabor is a village on the northeast and of Jaluit Island.)

Jane A. Kerny D. USA

15. Q. What was the area of all the islands put tegether? As Publing all the one hundred small islands tegether the area was about eighty square miles.

(秋

26. Q. Be you know what means of transportation there was between the main island and the outlying islands until the end of the war? A. Up to October, 1944, when all daihatsus (Interpreter's note: Daihatsu is a Japanose twin-power passenger small craft, similar to our LOVP. Baihaten means "large engine.") comed by the Mavel Guard Unit and the Air Squadren were lost, the only means of transportation between the headquarters and the outlying islands was by cance. Leter, when they needed to bring food for self support from the other islands, a small boat 3% meters by 4% meters was made of lumber from the houses that had been destroyed. The bombed ongines from the trucks which had been destroyed and nails which had been burned by inefidiary boubs were used to make this boat.

17. Q. What were your communication facilities? A. The only communication with the outlying islands and the beadquarters of the defence gerrison was by lookout from the Jaluit Island and also army wireless was used. To the other islands it was by campe or by motor boot, of which there was a regular schedule once every three days. Emergency signals were prepared in case of American landings where the unit would signal by building a fire to show that American forces were attacking.

16. Q. You stated that you were appointed the Intelligence Officer of the Jaluit Defence Carrison. Tell us briefly, if you know, what the Jaluit Defense Garrison was.

A. The Jaluit Defense Garrison was made up of Army and Havy and civilian personnel on Jaluit and this command was called the Jaluit Defense Corrison. This garrison had at the end of the war eighteen sperating units. The cooperation between the units was very well. As an example, many personnel worked under army personnel, army wireless personnel would be used in a naval battery. Army n. c. o. s would work as clarks in civilian offices. Gunno a shipbuilders would have army personnel as his helpers. The men of Jaluit took pride in their comperation and they were convinced that it was a result of the fine character and ability of Masuria and Furnitie

19. Q. Do you know for what reasons and when this Jaluit Defence Garrison was organised?

A. The Jaluit Defense Garrison was organized in Nerch of 1944, due to an order from the commander in chief of the Fourth Floot. The order came by dispetch as follows "The senior commander of the island should take charge of all units and government offices on the island." At the sem time, there was a dispatch from the South Seas Governor to the Civil Officer in Charge of the Jaluit Bronch of the South Sons Government sayings "I have amendary, and I pass come may in Chief of the Pacific Float. All government officials, therefore, shall come under the command of the commanding officer of that place." Admiral Masura as the senior officer called all the unit commanding officers and the officers in the Jaluit Civil Government Branch and showed them those dispatches and following this he gave the following order: "Symulf as the commanding officer of the Jaluit Defense Garrison, I have absolute authority over all people and unterials on this stell. By this order the Jaluit Befonse Garrison was organized and the civilians and the officers of the South Seas Government who were on Jaluit Island moved to Engles where they were given military duty.

The judge advecate moved to strike out the last part of this enewer on the ground that it was hearsey.

The accused replied.

The commission announced that the motion was not sustained.

20. Q. You stated before that a dispatch arrived in Narch of 1944 from the Commander in Chief of the Fourth Fleet, and you stated what it was, and also you stated at the same time a dispatch came from the South Seas Government to the officer in charge of the South Seas Government Branch at Jaluit, as you stated it. How do you know about these dispatches?

A. The reason I know about this is at that time I was also in charge of Intelligence of the second bettalion, First South Seas Detechment, and myself and Najor Furnici were the two army officers who wer permitted to see the dispatches seat, received, and intercepted by Admiral Masuda.

21. Q. What was the form of the dispatch?
A. It was in code and it was sent as an urgent operation order.

22. Q. You testified that Admiral Masuda convened all the unit commanders and civilian efficers and stated such and such. How do you know about this? A. As I was also the communication officer of the Second Battalion, First South Seas Detachment, which was directly under Major Furuki, myself, and the commanding officer of the Second Battalion were called together by Major Furuki and was relayed the information concerning the organization, the order that Admiral Masuda stated, and about the dispatches.

The witness was duly warned.

(Emmination continued,)

23. Q. Hill you state briefly the conditions in the Marghalls and Jaluit at the time the defence garrison was organized?

A. At the time the Jaluit Defence Carrison was organized in March 1944, the American furces had occupied Majuro, Rusjalain and Raiwatek. By Petrusty of 1944 Jaluit and the other bases in the Marshalls were isolated by continuous air and sea patrols and by the besking which started in Hovember of 1943. Over half of the installations on Jaluit were useless and the men of the island amaited attack, determined to fight to the ont.

24. Q. Do you know whother the natives were inducted into the Jaluit Befonge Garrison?
A. I do. They were included in the Jaluit Defense Garrison.

25. Q. Do you know for what duties they were industed in the Jakuit Defence Corrigon? A. I do.

James P. Kenny Zo. U.N.

26. Q. Replain this briefly.

As At first when the Jaluit defense was organized no special duties were allotted them, but in July 1944 when Jaluit had to provide its own food they were given the duties of a working party to supply this food.

27. Q. Do you know if a declaration was made that all natives would be included in the Jaluit Defense Section?

28. Q. How was this made known to the natives? A. At the time the Jaluit Defense Carrison was organized, the matives were under the Jaluit branch of the South Seas Severament. I do not know how the South Seas Government relayed this to them, but in July 1944 when the Jaluit Defense Garrison started its self-supporting measures, the chief of the natives, the secretary and heads of the villages were assembled on Inredj and Major Furnki, as the representative of Admiral Masuda, went there and ordered the following: "Hereafter the matives shall perform the duties as a working party for self-support of Jaluit Defense Section." As I recall this declaration was made by document. Again in the middle of December 1944 when the details at the outlying islands were established, an order was put out by the commanding officer of the Jaluit Defense Carrison that all military, gunsoku's and natives shall come under the jurisdiction of the district commander. Chiefe of the natives shall come directly under the district commander and by these two orders I know that the natives were included in the Jaluit Defense Gerrison and that they were given duties in a working party in self-support measures.

29. Q. How do you know these fasts?

A. When this order was given the natives at Imredj, at that time I was the intelligence officer and also a nember of the self-supporting measures countities and I had attended all important conferences. At this conference I heard Admiral Masuda plan to give this order and that it was executed, and concerning about the natives coming under the jurisdiction of district commanders, I know this well, because as I was intelligence officer I was ordered directly by Admiral Masuda to make up this report and making up the report received the signature and relayed it to the district commanders.

30. Q. Do you know basicly what work the natives were performing? A. I do.

A. Their nest important job was to gather eccensts for eccenst today. Out of two thousand natives of Jaluit six hundred worked at this, other to this they worked at fishing, gathering wild fruit, communications and transportation, by acting as evens of canoes and as all clothing had been lost, to weave note to be used in place of blankets and weaving mote for reofing to surplement what had been lost and also acting as pilots in night navigation.

32. Q. You testified that in April 1945 you become a member of the Jaluit Defense Section. Do you know what this section is? A. I do.

33. Q. Saplain briefly.

Jone 1. Lang # USP

A. The defense section. As the American kidnsping of natives was intense and on the other Marchall Japenese bases all the natives had been kidnsped, the only island remaining on which natives remained was Jaluit and in March, 1945, American forces had natives of the stell smeak into Jaluit and as Jaluit faced this new threat and as the presently established intelligence officer could not cope with this the defense section was organised as a branch of the defense garrison. At the head of the section was Major Fusuki and the numbers consisted of Army and Mavy officers, non-commissioned officers and petty officers. The duties were to guther intelligence concerning the Emidj base and outlying islands and through this build a defense against these tactics.

34. Q. You stated that Major Furuki was the head of the defence section. Do you know what position Major Furuki had in the Jaluit Defence Garrison? A. I do.

35. Q. Tell us his position in relation to Admiral Mesuda.

A. Major Fusuki was one of the commending efficers under the commending officer of the Sixty-second Maval Guard Unit and it was the same position as that of the gummary efficer, the supply efficer and the medical efficer of the Sixty-second Maval Guard Unit. As he was the senior ranking efficer among them, he was a main helper of Admiral Masuda. He was the head of the defense section; he was adviser to the transportation section, self-supporting committee and many other branches of the headquarters and he had many duties. He was the Commending efficer of a unit under Admiral Masuda and head of the defense section directly under Admiral Masuda.

36. Q. Gould Major Fuguki commend the second battalion of the First South Seas Detachment of which he was commender independently?

A. Major Fuguki in some parts could commend independently parts of his units, but in the most part he could not commend his men on his own wishes.

What do you mean by this?

A. The meaning of kidnaping natives has a broad meaning. Native kidnaping we called the American tactics of kidnaping Marchallese mitives from July, 1944. It was helf by force and half by plotting. It was judged that by these tactics the American forces were trying to obtain information, completely break up the self-supporting means and also to sequire labor that was needed by American forces. After the natives had been kidnaped insite the Koreans to rebel, next the Japanese military personnel or directly kidnap them and bring about the internal breakup of the Japanese forces and occupy the island bloodlessly. On the other Marchall Islands in July, 1944, an American destroyer, towing a native in a cance from Auru Island had him smesk into Notje and handing a letter to the chief of Notje stated that in the near future after having.....

The judge advocate moved to strike out that portion of the enswer commencing with the words "On the other Marshall Islands " on the ground that it was hearsay and that it was not responsive to the question.

The secused made no reply.

The commission directed that the words be stricken out.

Jame P. Kenny & . VSZ

 $38_{\circ}$   $q_{\circ}$  De you know by what means the kidneping testics on Jaluit were performed? A. I  $dn_{\circ}$ 

39. Q. Will you explain this concretely?

A. Methods used were to have a native sneak into the island and really propagands and then the American forces would come to get them. Another method was by LCI's which came close to the islands using louispeakers, contacting the natives, would spread propagands. Another method was by dropping leeflets. Another method was by dropping "K" rations, baseballs, sods water, by plane or brought in by natives into Jaluit where things were so searce. There was also the intimidation methods in which outlying islands were bombarded by destroyers, bombed by planes and then it was brought out that there was no food on Jaluit and then there was the method by which the natives were taken by force by semplanes, small planes, LCI's and destroyers which attacked the islands. The only defence against this was rifle fire against their superior armament.

The countssion them, at 10:27 a. m., took a recess until 10:48 a. m., at which time it reconvened.

40. Q. At that time in Jaluit did the officers try to prevent the natives from deserting or did they just let them desert as they wished?

This question was objected to by the judge advocate on the ground that there had been no testimony that the natives had deserted.

The accused withdrew the question.

41. Q. The witness testified and explained the reason for organizing the defence section that it was for making a countermeasure against the kidnaping of natives. What were the reasons for the officers endeavoring to prevent the natives from being kidnaped?

This question was objected to by the judge advocate on the ground that it called for the opinion of the witness and that it was repetitious.

42. 4. The witness testified and explained the reason for organizing the defense section that it was for saking a countermeasure against the kidnepping of untives. Be you know what the reasons were for the officers endesvering to prevent the natives from being kidnepped?

This question was objected to by the judge advocate on the grounds that it called for the opinion of the witness and that it was repetitious.

The necrosed made no reply.

The commission amnounced that the objection was sustained.

43. Q. On Jeluit at that time, do you know what were the relations between the fighting rowers of the military forces there and the natives?

This question was objected to by the judge advocate on the ground that it was repetitious.

The secured node no reply.

The commission ennounced that the objection was not sustained.

A. I know.

A. At that time the defence garrison at Jaluit survived only by the power of the natives. They were the base of this fighting power due to the food provided by the natives, they were also calle to fight due to the food brought by the natives. They were all the fighting power, if we had lost them our fighting power would have been more. If we were to lose these natives our isolation and our starvetions would become more and more severa. And if they had compad from these islands it would be a hint to the military porsonnal who had already lost all hope over the starvetion, borking and borbardeling by the Americans. It would be a hint to them also to desert the islands and go to the Americans and also if we were to lose these natives the Americans would easily attack us and within a few hours it would be avertaken by them. As I have explained, due to the three reasons they were important food profusers for us. From the standpoint of morele of the soldiers it we measure for us. From the standpoint of morele of the soldiers it was measured to have the matives and from battle action if we were to lose those natives we would be attacked cently by the Americans. Therefore the matives were our entire fighting power and constituted our base for continuing our battle.

45. Q. Do you know of the feed situation at that time?

This question was objected to by the judge advocate on the ground that it was repetitions.

The necured withdrew the question.

46. Q. You testified that without the matives it was not possible to maintain the food. For what reasons do you say that?

This question was objected to by the judge advecate on the ground that it called for an august that would be repotitions,

The commission announced that the objection was sustained.

47. Q. In April 1945 you reid that the defence section was organized in the defence garrison. After this was organized do you know whether there occurred any insident concerning the kidnepping of natives?

A. Yes, I know.

48. Q. Tell the commission of the situation.
A. In the dawn of May 6, 1945, I was on my way to Oom to advise about the defence on that island. Just at that time two or three American destroyers, four or five ICI's and about thirty small type planes and two see boats had commanded their kidnapping tration on the whole Jaluit Atell. I took command of the detechment unit at Oom Island and fought with them. The result was that eighty natives of Oom were kidnapped them. During May sixth and seventh, on both days, the Japanese forces fought against the ICI's all through the Atell and during these two days fifteen non were wounded and six hundred natives were kidnapped.

49. Q. Do you know whether they had made countermeasures in order of meet the occurrence of this incident?

50. Q. Describe what counterme surce were taken.

A. Because these incidents occurred from the small forces we had on Baidj,
we sent four hundred men to each of the outlying islands and the commanding
officer of the defence garrison gave out the following order to the commanding
officer of the outlying islands: the natives are subjects of the Japanese
Repire, therefore they must follow the duties of the military forces, if they
do so their lives and property shall be secure, if they do not and hinder the
duty of the military forces they shall be severely punished. At the sene
time such was addressed to the Japanese military to the effect as follows:
Namy natives are being kidnapped from our unit, Refore us lies many hardships in self supporting measures and in operations, Even though all help
of the natives are lost, work hard and dispense your duties.

The witness was duly marmed,

 $\mathfrak{SL}_n$  Q. This morning you testified to an order to the district commander. Be you know to when this order was directed? As I do.

52. Q. In this norming's testimony you testified that the commending officer gave an order to the district commending officer and stated the contents of that order. In this case, was this order pertaining to the district commending officer or was it addressed to the natives as in the contents, who are the citizens of Japan, etc. Which was it that you understood it to be?

A. This order was addressed to the natives and was directed to the district commanding officers to relay to the natives.

The judge advecate moved to strike out this answer on the ground that it was not responsive to the question.

The accused made no reply.

The commission announced that the motion to strike out the answer was not sustained.

53. Q. Be you know if this order which was directed through the district commanding officer addressed to the natives was promulgated or not?

A. On each island, the district commanding officers assembled the natives, read the order and had a Japanese or native who was also versed in that language interpret and relay it to the natives. I know the order was also tecked up in front of the headquarters of the district commanding officer and made public. This was done by order of Admiral Masuda to do it this way.

55. Q. How do you know of these facts?

A. I know because at that time I was in charge of drawing up documents in the defense section and the order and the way of doing this, of making it public. I sent it out to the district commanding officers.

56. Q. Do you know if there were enguntives who violated this proclamation?

A. In the middle of May, an incident in which a native of Isrodj, where Rehibers tried to strangle a newy petty officer and escape with the beat. There was a case in which six hundred natives at Pikijin Island stole a came and escaped. In the middle of May there was an incident on Chalmeron in which fifteen natives escaped to merican LCI's. In the end of May, there was on Ren Island an incident when Ramur and others tried to escape. Also there was the case of Odore in which a native named Chon, in transporting copra, threw two Gunselus into the sea and escaped. As a result two Gunselus were missing. In the beginning of June two unknown natives attacked a guard on Chalmeron Island and the two natives took a rifle and a rope amy from the guard. There was also the case in the beginning of June of Ai Island in which two hundred natives of that island escaped to a LCI. In the beginning of June, the twenty natives of Jaluit Island, stele a Japanese burge and escaped. There was the case of Hajtana who become missing from Pingelap Island. There was also the case of Handala and Laperia who killed a guard and tried to escape. From this time to the end of the war, fourteen to fifteen cases occurred.

 $58_{\circ}$   $Q_{\circ}$  Do you know whether investigations were ordered when eness of this kind contrad? As I do.

99. Q. Bid you have any relations to these investigations?
A. I was ordered to be the investigating officer in the case of Helein and Hajkane of Pingelap, when it occurred in the beginning of July 1945.

60. Q. By whom were you ordered to do this? A. By Reer Admiral Massada.

61. Q. Flense tell us whether you were ordered to do so directly by Admiral Hesuda.

A. I was ordered directly by Admiral Hesuda.

62. 4. When you were erdered to investigate by Admiral Masuda, were you given any instructions?

A. I received instructions from Admiral Masuda as follows: I, meaning Admiral Masuda, shall give, on the basis of your investigation, a trial, the best which can be given under the circumstances on Jaluit, as a regular trial cannot be held. A great deal depends on your investigation, so work hard at grasping the facts of this incident.

The judge advocate moved to strike out this answer on the ground that it was hearsey.

The accused made no reply.

The commission ennounced that the motion was not sustained.

63. Q. Did you receive any further instructions?
A. Other to this during the investigation when I went to report, there were many minor instructions, su sh as who had the most intent; did they really have intent to kill a number of the military; lock these things up at the spot where the crime was committed. These orders I received from Haguda and also from Furuki.

64. Q. By what methods did you pursue your investigation?
A. The investigators were First Lieutenant Radote, Iski and speaks. I took over twenty days to complete the investigation. During this period, five people were called in reference to this. Buring the investigation, First Lieutenants Iski and Radota went two or three times to the agtual spot of the crime to investigate. They worked from days to nightfall, all other work was left and they concentrated on this investigation.

As a result of the investigation, it was found that a native named Melein planmed to escape to an American ship and as it could not be done on his con island, as whenever a LCI came, all natives were placed in air raid shelters and a guard placed upon them. He wanted to take and have the other natives go with him and also before he left he wanted to find out how many non there were on each island. Using a native working girl, Mejhame, as a courier, he had her carry a letter and also look out for the number of forces on each island, and after connections were made, hill the guard on the air raid shelter and escape to an LCI, or hill the guards on the boats and rafts and escape to Takeya Aruseppu in the northern part of Jakuit, and hill the guards on the boats and rafts and escape.

A. I do. Admiral Masuda went where the natives were confined.

112. Q. How do you know this?

A. At a time when I went to Admiral Masuka's on another errand he was not in his room and I asked the messenger at headquarters where he had gone. I was told he had gone to the second assumition dump or the base transmitting station. This occurred two or three times. Hatives were held at those places at that time. He had no other duties other than this and I understood it as he having gone to see the natives.

The judge advocate moved to strike the answers of the last two questions on the ground that they were hearsny.

The accused made no reply.

The commission announced that the objection was sustained and directed that the answers to the two previous questions be stricken out.

113. Q. On what islands were the trials of these natives held? A. On Hmidj Island.

The judge advocate moved to strike out this question and answer on the ground that it was leading since there had been no testimony that trials were held for the natives.

The counterion announced that the objection was sustained and directed that the question and answer be stricken.

114. Q. Do you know who had the authority to try the criminal cases which cocurred on Jaluit in normal times?

A. I do. Cases other to violation of the military criminal code was by court mertial, others were handled by courts of the South Seas Government which was directly under the South Seas Governor.

115. Q. Were there courts on Jaluit at that time, any South Sees Government courts on Jaluit?
A. There were mone on Jaluit.

216. Q. Was transportation possible from May to August 1945 between Jaluit and the other islands?
A. It was not possible at this time.

127. Q. How was it concerning the wireless communications?

A. The 62nd Haval Guard Unit had one receiving and transmitting statism.

Due to the long isolation great difficulty was encountered in power and in the use of code books because the code could be broken.

Jone & Kenny LO. USh

118. Q. Be you know if Admiral Hasula had the authority to tay eminical cases at the time these mative incidents occurred?

A. I understood that he did.

119. Q. Do you know if Admiral Masuda made a declaration of martial law on Jaluit?

A. I do not know of martial law being declared, but the system under which the military and civilians were was like that of martial law. We were under the understanding that there was no need to declare martial law.

130. Q. Is Admiral Masula now living? A. Admiral Masula died on, I think it was the fifth of October 1945.

121. Q. Has Admiral Maguda over talked to you about the native incidents which occurred from May to August 1945?

This question was objected to by the judge advocate on the ground that it called for heareny.

The secused made no reply.

The commission announced that the objection was not sustained.

A. Admiral Masula after the end of the war had a conference with the commanding officer of a destroyer, Lieutenant Commander McMinson, "the execution of the natives on Jaluit was done by my authority and by my responsibility under the best possible means and it is nothing to be askeded of". I heard him relate this to Lieutenant Commander McKinson.

122. Q. Do you know if Lieutenant Commander McKinson over made inspections of Hmidj or other islands?

A. I have seen Lieutenant Commander Makinson inspecting on Hmidj. I have heard that he went to other islands, but I did not see him.

123. Q. Do you know if Lieutenant Commander HeKinson after he inspected Emidj expressed his opinion?

This question was objected to by the judge advecate on the ground that it called for heareny, and that the heareny in turn would be opinion evidence.

The accused replied.

The commission amounced that the objection was sustained.

124. Q. State what you know of Hajor Furuki's attitude toward the natives on Jaluit.

This question was objected to by the judge advocate on the grounds that it called for the opinion of the witness, also that it called for hearony and that it was irrelevant and immaterials

125. Q. State that you know of the attitude of Major Furnki toward the natives,

Jones P. Kenny Cr. USK

This question was objected to by the judge advecate on the ground that it was irrelevant and immaterial and that it called for the opinion of the witness.

The accused withdrew the question.

126. Q. State what you know about how Major Furuki handled the natives. A. In March, 1945, at a conference of the district commanding officers at the Jaluit Defense Garrison, Major Furuki addressed all the commanders sayings "Have compassion and love for the natives. Do not try to subjugate them through fear and force. You district commending officers who directly command them, treat them with parental love." This meaning I have been told by Major Furuki many times since I was appointed intelligence officer in September, 1944. Once when I went with Major Furuki on an inspection of an outlying island he heard of a gunzoku who had tried to use force and firghten the natives. He immediately had him transferred to another island. Another incident was on Odore Island at which place Major Furuki and myself were to eat at the same place. Food was placed before him. When he found that the food was in excess of the one coconut and some ecconut toddy, the food of the men and natives, he would not eat it. He said that he could not eat it and had it taken away and I heard him tell the person in charge of the food to take it away. If he heard that there were any native patients he would go visit them. At times when a doctor was dispatched to other islands, it it was a native patient he would order the doctor to stop by and see the patient. The policy concorning welfers and the well being of the natives was mostly established through the advice of Major Furuki which came from his love and compassion of the natives to Admiral Masuda.

127. Q. Proviously you testified that in the case of Melein and Mejkane you heard that Major Furuki had executed them. From whom did yo hear this?

A. I heard this from Major Furuki.

128. 0. What did Major Furuki say on this occasion?

A. "I executed the natives, but this was done by the supreme judgment of Admiral Masula and the decision made and by the order of Masula I have no reason to be ashamed of what I have done."

129. Q. Major Furuki is charged with maliciously, wilfully and with premeditation murdering the natives. In relation to this, you who were in close contact with him should know. Please state what was established as to Major Puruki's character by everybody's opinion at that time.

This question was objected to by the judge advocate on the ground that it called for the opinion of the witness as to the issues involved in this trial and invaded the province of the countssion.

The accused withdrew the questions

The commission them, at 10:30 a. m., took a recess until 10:50 a. m., at which time it reconvened.

All the members, the judge advocates, the three official native observers from the Marshall Islands, the reporter, the eccused, his counsel and the interpreters.

No witnesses not otherwise connected with the trial were present.

Morikawa, Shigeru, the witness under examination when the recess was taken, entered. He was warned that the oath previously taken by him was still binding, and continued his testimony.

(Examination continued.)

130. Q. You who were in close contect with Major Furuki, concerning "melice", state what you know concerning his general reputation about this.

A. Major Furuki's character was one of conscientiousness, right-courses and compassion. Ever since July 1944 when the Jaluit Defense Garrison had to support itself Major Furuki strove greatly in helping Admiral Masuda who was sick. All of the two thousand men of Jaluit all know of his great afforts. Again he visited all of his men who were sick. To see him standing before a grave of one of his men and offering propers was comparable with a picture of a saint on Jaluit. His men who had been wounded in battle and who were to be returned home, he gave them parts of his clothing out of the little that he had to see that they had clothing presentable enough to return home. In expressing his feeling at the times the natives were executed was a feeling of that of an executioner by profession who was about to execute a prisoner with a sentence of death. On all matters on Jaluit he was righteous with compassion and he was generally conscientious.

The judge advecate moved to strike out this enswer on the ground that it was not responsive to the question.

The secured replied.

The com ission was cleared.

The commission was opened. All parties to the trial entered.

The commission announced that the objection of the judge advocate was sustained and directed that the answer be stricken.

Lieutenant David Bolton, U. S. Navy, and Lieutenant James P. Kenny, U. S. Navy, judge advocates. Buorn Heine, official native observer from the Marshall Islands, Mark Juda, official native observer from the Marshall Islands, Lajore, official native observer from the Marshall Islands, Joseph Kase, junior, yeoman second class, U. S. Navy, reporter. The accused, his counsel, and the interpreters.

The record of proceedings of the thirteenth day of the trial was read and approved.

No witnesses not otherwise connected with the trial were present,

Morikawa, Shigeru, the witness under examination when the adjournment was taken, entered. He was warned that the oath previously taken was still binding, and continued his testimony.

(Examination continued.)

131. Q. There are some points in the witness's testimony concerning trial in the Melein and Mejkane incident and I shall ask you about these. There are some unclear points in the case of Melein and Mejkane. Was there a trial in the case of Melein and Mejkane? I would like you to answer this clearly.

This question was objected to by the judge advocate on the ground that it was repetitious.

The accused replied.

The court was cleared. The court was opened. All parties to the trial entered, and the commission amnounced that the objection was not sustained.

Jemes P. Kenny Gr. Wh

- 00

The question was repeated.

A. There was a trial.

132. Q. Was there the same trial in the cases of Lesohr, Kohri, Komina, Arden, Makui, Tiagrik, Chuta, Chonmohle, Mandala, Laperia and the one unknown?

A. There was a trial in these cases.

133. Q. Do you mean the same trial as the one for Melein and Mejkane? A. Yes.

134. Q. Did Major Furuki ever go to investigate the natives after the investigation report was submitted?

A. Major Furuki conducted an investigation on the natives.

135. Q. You were asked whether martial law was proclaimed or not. You stated that a similar sort of formality was enacted. What were its conditions?

any

This question was objected to by the judge advocate on the ground that it was not clear.

The accused replied.

The Commission announced that the objection of the judge advocate was sustained, and directed that the question be reframed.

136. Q. In answer to the question whether martial law was proclaimed or not, you answered, as I understand it, the witness answered: "Martial law was not proclaimed, but similar system was put in force". By similar system being put in force, this is not clear. I am asking what that system was.

A. By this system, all people and materials in the atoll came under the command of Rear Admiral Masuda. He had all of the authority concerning administrative and judicial authority concerning these.

137. Q. From what source did he sequire these authorities?

A. I understand this authority was sequired by an order from the Commander in Chief of the Fourth Fleet in March, 1944.

136. Q. Do you know what Major Furuki's general reputation was on Jaluit?

A. Major Furuki's general reputation was one that he was compassionate, kind, he was loyal to his duties, he was respected, responsible and reliable.

Cross-examined by the judge advocates

139. Q. Last week you testified concerning certain things that Rear Admiral Masuda was alleged to have said or done. When you testified last week, did you know that Admiral Masuda was already dead?

This question was objected to by the accused on the ground that it was irrelevant,

The judge advocate replied.

The commission amounced that the objection of the accused was not sustained,

Jone P. Kenny # . USh

A. I know that he was dead,

140. Q. Then you knew that he could not contradict the things you said?
A. This native incident which is being tried occurred on Jaluit, and it was ordered, I understood, at that time from the documents and judgment papers.

The commission stated that the answer was not clear, and directed the witness to answer this question.

141. Q. Since you know that Admiral Masuda was not alive, you know that he could not contradict the things you said that he had told you or had done. Is that correct?

A. Even if Admiral Masuda was deceased or even if he was alive, I am absolutely convinced that he would not contradict what I have said.

The commission stated that the witness had been evasive in answering this question, and cautioned him to answer directly, under penalty of being held in contempt of court.

A. (Continued.) Even if Admiral Maguda was alive, I am absolutely.....

At this point the answer was interrupted by the commission and the witness was directed to answer "yes or no" or be held in contempt of court.

A. I don't know.

142. Q. How long have you known the accused, Major Puruki?

A. The first time I met Major Furuki was in January 1944. I have known him up to the present.

143. Q. Are you friendly toward him?
A. As he was my direct superior on Jaluit, we may have been comparably close.

144. Q. You consider him a friend of yours?
A. Previously, he was my superior officer. At present I consider him as the same as a friend.

145. Q. Now the following is a simple question. I want you to think about it and then I want you to answer yes or no. Do you understand?

A. I understand.

146. Q. Would you tell a lie to save your friends life?

This line of questioning was objected to by the accused on the ground that it was improper for the judge advocate to direct the witness to answer.

The judge advocate replied.

The commission announced that the objection of the accused was sustained.

The commission announced that should it be necessary for the witness to be directed to answer a question yes or no, that such permission be requested of the commission.

The coumission then, at 10:18 a.m., took a recess until 10:45 a.m., at which time it reconvened.

Present: All the members, the judge advocates, the three official native observers from the Marshall Islands, the reporter, the interpreters, the accused and his ocunsel.

No witnesses not otherwise connected with the trial were present.

Morikawa, Shigeru, the witness under examination when the recess was taken, entered and continued his testimony.

(Cross-examination continued.)

147. Q. Did you attend a conference in October 1945 at which Admiral Masuda, Major Furuki, First Lieutenant Kadota, Lieutenant Sakuda, yourself, Lieutenant Commander Shintome and Captain Inque were present, and at which the executions on Jaluit were discussed?

This question was objected to by the accused on the ground that it was beyond the scope of the direct examination.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. October of 1945 was right after the end of the war, and there were many conferences and I do not definitely know whether I attended this one.

148. Q. Did you attend any conferences with regard to executions, there on the island?
A. I have.

149. Q. At this conference, was it agreed between the officers that they would lie to the American officers concerning the executions held on Jaluit?

This question was objected to by the accused on the ground that it called for the opinion of the witness and a hearsay answer.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. I do not know that such a thing was agreed to.

150. C. You have been asked many questions while you were on the witness stand. Are you sure that you have been telling the truth in all the answers you gave?
A. Yes.

151. Q. Is every answer that you gave this commission just as true as every other answer?

A. There is no difference. They are the truth.

152. Q. Were all the answers that you gave based on the same kind of careful personal knowledge of things you yourself saw and you yourself heard?

A. I am testifying according to what I saw, what I heard, and what I was ordered.

169

GERTIFIED TO BE A TRUE COPY

153. Q. Now, you stated that you knew that Admiral Maguda went to see the natives, then, when you were asked how you knew he had gone to see the natives, you said that you went to his office and someone there told you that he had gone to see them. Is that correct?

A. This is correct. I heard this from an orderly who was nearby Admiral Maguda's office.

154. Q. But you did not actually see Admiral Masuda with the natives, did you?

A. I did not see the Admiral talk with the natives.

155. Q. Now, with regard to other things that you testified to. Have you relied similarly on the statements of other people?

A. In other testimony, I am convinced that I did not.

156. Q. You testified that one part of your testimony is just as reliable as any other part. Have you decided to change your mind with repart to that answer?

A. I did not change it. I testified to what I saw, what I heard, and what I was ordered. This comes under what I had heard.

157. Q. There were many things that you testified that you knew. When you said you knew these things were you relying on the type of evidence that you rely on when you stated that you knew that Admiral Masuda had gone to see the natives?

A. If I remember, there was no other testimony that I answered for this reason.

158. Q. Have you told the full truth in your testimony before this commission? A. Yes.

159. Q. Did you tell the full truth when you were asked questions concerning these incidents by American officers who were investigating these cases?

A. Yes.

160. Q. Saturday, you testified about something you believed Admiral Masuda had done in connection with the natives and you used the phrase "because he had no other duties". What do you mean by the phrase "because he had no other duties"?

A. I cannot grasp the meaning of this question.

The judge advocate withdrew the question.

161. Q. Saturday, you used the phrase "because he had no other duties" in connection with Admiral Masuda. Do you mean then, that Admiral Masuda had no other duties in connection with the natives?

A. I cannot remember where I used this in connection with Admiral Masuda and I would like this explained so I can answer.

162. Q. You were asked the question concerning the time when you stated:
"Admiral Masuda had gone to the Second Ammunition Dump or the Hase
Transmitting Station. This occurred two or three times. Matives were held
at these places at that time. He had no other duties other than this and
I understood it as he having gone to see the natives."

170

Some O. Kenny Xo. US h

A. What I mean by that is at that time the Base Transmitting Station and the Second Ammunition Dump had practically been destroyed. There was nothing in them but a few miscallaneous articles and what I mean is not that he had no other duties, but that he had no other duties in which to go to the bases and ammunition dumps.

The accused stated that the question and answer referred to had been objected to by the judge advocate and sustained by the commission on direct examination and therefore should not be the subject of cross-examination.

The judge advocate withdrew the question and moved that the answer be stricken.

The commission directed that the answer to the above question be stricken.

163. Q. You testified that Admiral Masuda was sick ever since July 1944 and that Major Furuki took over many of his duties. Is that correct?

164. Q. What duties did Admiral Masuda retain?

A. Admiral Masuda did all the duties of the Defense Garrison Commanding Officer, but as he was sick and could not do thom well, Major Furuki helped him in all of them.

165. Q. What was the nature of Admiral Masuda's illness?

A. I do not know the name of the illness, but it was an internal sinkness in which he had to lie down many times.

166. C. When Admiral Masuda ordered Major Puruki to exercise these duties, did he give him the right to exercise his judgment and authority in carrying out these delegated orders?

A. When he is given an independent duty, he is given the authority to execute it.

167. C. Was Major Furuki in charge of the defense section?

168. Q. Did Major Furuki have independent duties in connection with this defense section?

A. Major Furuki was under Admiral Masuda as head of the Definse Section, but he was given the authority to execute the duties of the defense section.

169. C. Be you know if Admiral Mesuda was pleased with the way Major Furnki carried out his duties?

A. The way he talked, it looked as if he was pleased.

170. Q. Did he put more and more duties and responsibilities on the shoulders of Najor Puruki?
A. The duties of Najor Puruki increased more and more.

171. Q. How many newy personnel were there on Jaluit in May, 1945, officers and enlisted nem?

This question was objected to by the ascused on the ground that it was immaterial.

Jone P. Kenny Tr. USA

The judge advocate replied,

The counds ion amounced that the objection was not sustained,

A. The total number of many personnel was about six hundred, of which as I recallect, about thirty were officers.

172. On What was the total army personnel, efficers and enlisted men, who were in Jaluit in Ney, 1945?

As The total number was about nine hundred, of which, if I recollect, twenty-five were efficers.

173. Q. Then there were more army personnel on Jaluit than there were navy

A. Yes. This six hundred was the total amount of men in the Sixty-second Naval Guard Unit and all the other military and Gumzokus other to the army were navy, so that it makes the total of navy personnel greater than that of the army. The total number of six hundred was of the Sixty-second Naval Guard Unit, and all other military and Gumzokus on the island were navy personnel.

The judge advocate moved to strike out that part of the answer commencing with the words "this six hundred" on the ground that it was irrelevant.

The accused made no reply.

The commission directed that the words be stricken out.

174. Q. As I understand your description of the relationship between the army and nevy at Jaluit, Puruki was junior in rank to Rear Admiral Masula, and therefore, Admiral Masula set the utlimate authority for the conduct of miltery matters in Jalui. Is that correct?

A. Yes.

The commission then, at 11:28 a. m., took a recess until 2:05 p. m., at which time it recommend.

Progent:

All the members, the judge advecates, the three official native observers from the Harshall Islands, the accused, his counsel and the interpreters.

Morikewa, Shigeru, the witness under emmination when the recess was taken, entered. He was warned that the oath previously taken was still binding and continued his testimony.

(Cross-examination continued.)

175. Q. Bid the Second Battalion cease to exist as an Army unit after you came to Jaluit or was it still part of the South Seas Detachment of the Army?

Jenes D. Kenny Ep. USh

A. It continued as the Second Battalion of the First South Seas Detachment.

176. Q. Did Major Furuki continue to have the duties of commanding his officers and men in their regular Army duties?
A. Yes.

177. Q. Now, I understand that on Jaluit for certain purposes there were new units set up consisting of both army and navy personnel. Is that correct?
A. Yes.

176. Q. One of these functional organizations set up was the Jaluit Defense Section. Is that correct? A. The Defense Section was organized a year after the Jaluit Defense

A. The Defense Section was organised a year after the Jaluit Defense Carrison was established as a functional part of its headquarters.

179. Q. Who were the officers who served under this Defense Section? A. The head of the section was Major Furuki and its members were Lieutement Sakuda, First Lieutement Teki, First Lieutement Kadota and myself.

180. Q. What were the duties of this Jaluit Defense Section?
A. The duties of the Defense Section was gathering intelligence concerning the main base of Emidj and the outlying islands and the condition of these islands against the kidnapping tactios.

181. Q. Was the control of the natives an important function of this Defense Section?

A. The most important work of the Defense Section was to control the natives so that they would not be kidnapped, the controlling and the use of their labor was not included in the Defense Section.

182. Q. As head of the Defense Section it was primarily the responsibility of Major Furuki to prevent the kidnepping of these natives. Is that correct? A. It is the responsibility of the head of the Defense Section.

183. Q. Was Hajor Puruki the senior ranking Army officer on Jaluit? A. Yes.

184. Q. With the exception of Admiral Masuda Add he not outrank every other officer in the Navy as well?
A. Yes.

185. Q. When were you made an intelligence officer with the Japanese Army?
A. I was not ordered as an intelligence officer by the Japanese Army, but
by the officer in charge of intelligence, Admiral Masuda, for the Defence
Gerrison in the first of September, 1944.

186. Q. Then you served from September of 1944 for the Army and Navy and other purposes under Admiral Masuda. Is that correct?

187. Q. In connection with your duties as intelligence officer, were you required to know anything about army and Navy law?

A. It was not necessary.

James P. Kenny Gr. USh

188. Q. You testified last week that you believed that Admiral Masuda had the authority to order a trial for the natives. Was this belief based on your knowledge of Army and Navy law?

A. This I judged from what I was taught of Court Martial Law in the Army Reserve Officers School.

189. Q. Do you know if Army and the Navy court martial law is the same?
A. I have never compared it, but I understand that it is almost the same.

190. Q. Do you understand that the Army and the Navy Criminal Codes are almost the same too?

A. I have looked through the Navy Griminal Code and the Army Griminal Code and the contents are just about the same.

191. C. On Jaluit if an Army person violated the law, would be be subject to the Army Oriminal Gode or the Navy Oriminal Code?

This question was objected to by the accused on the ground that it called for the opinion of the witness.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. I am not in a position to judge this and I do not know.

192. Q. If a member of the Army committed a crice, would it be necessary for him to be tried before a court martial before being punished with life imprisonment?

A. It is necessary.

193. Q. Does the Army court martial law provide for an appeal for the decision of a court martial?

A. As I remember there are some cases which can be and some which can not be.

194. Q. You testified that in March 1944 you saw an order of the commanding officer of the Fourth Fleet and it said: "The sculor commander of the island should take charge of all units and government offices on the island". Is that correct?

A. Yes.

195. Q. Do you remember anything else this order contained? A. I don't remember.

196. Q. Are you sure that this is all this order contained?

197. Q. When did you last see that order? A. Right after the disputch had arrived in Nerch 1944.

198. Q. Did you see the dispatch from the South Seas Governor to the Civil Officer in Charge of the Jaluit Branch of the South Seas Government?
A. I have seen it.

Jones P. Kenny L. OSh

199. Q. You stated that this dispatch from the South Seas Governor saids "I have you under my authority and I have come under the command of the Commander-in-Chief of the Pacific Floot. All government officials therefor shall come under the command of the commanding officer of that place". Do you remember anything else that this dispatch contained?

A. As I recollect there was nothing else.

200. Q. When did you last see this dispatch? A. I saw this when it arrived in March 1944.

201. Q. Did you see any other dispatches either to Admiral Hasuda, or to the Brunch Governor from either the Havy or any other government office which concerned this subject of Admiral Hasuda's authority - and which changed or medified it in any way?

A. No.

202. Q. Then with regard to the natives are you telling this commission that these dispatches gave Admirel Mesuda the same power over the natives that the Branch Governor formerly possessed?

A. As I understood it all the powers of the Branch Office of Jaluit were given to Admirel Hesuda.

203. Q. Since you have never seen any other document that changed or modified the power to Admirel Masuda but these dispatches, is it not tope that the power given to Admirel Masuda was limited to the same power as given the Branch Covterment?

8x

This question was objected to by the secused on the ground that it called for the opinion of the witness.

The judge advocate replied.

The consission was cleared. The consission was opened. All perties to the trial entered.

The commission amnounced that the objection was sustained.

20%. Q. After receipt of these dispetches you testified that Admirel Masuda held a mosting at which he stated that he had absolute power over the material and people on the island. Is that correct?

A. I am convinced that this is correct and it was relayed to us by Major Puruki.

205. Q. Then you did not personally attend this mosting, did you? A. I was not present at this conference.

206. Q. And what you testified that Admiral Hasuda said was not something you heard from Admiral Hasuda, but something you heard from Hajor Furnici. Is that correct?

A. - testified on what Admiral Hasuda ordered and what was relayed to us by Hajor Furnici.

James P. Kenny St. US N

207. Q. Did you hear Admiral Masuda say it or didn't you? A. I did not hear directly what Admiral Masuda said.

206. Q. This morning you were asked concerning your statement about Admiral Masuda going to the Transmitting Station and when you were confronted with the fact that this was based on hearsay and not on knowledge you stated this was the only incident you remember you testified of knowledge you received from someone else. Is that correct?

A. This is included. What I based my testimony on is what I saw, what I heard and what I was ordered. I said this was ordered by Admiral Masuda and relayed by Major Furuki.

209. Q. And this is the same kind of information on which you based the other statements you have made and which you have said are true. Is that correct?

A. All my other testimony is true from what I saw, what I directly heard and what I was ordered as I have just stated.

210. Q. You have just stated that Major Puruki told you that Admiral Masuda held this meeting at which he said that he, Admiral Masuda, had absolute authority over all people and material on the island as the senior commanding officer of the Navy. Did not Admiral Masuda already have this same power over the members of the Naval Forces?

A. Before this order was put out Admiral Masuda only had the authority merely as an ordinary commanding officer of the 62nd Naval Guard Unit.

211. Q. In what way were Admiral Mesuda's powers over the Nevy and Navy personnel increased by this order?

A. Before this Admiral Masuda could only command the 62nd Naval Guard Unit, and after this was put out he became in command of the 902nd Air Squadron, the 6th Maval Communication Corps, the 6th Construction Corps, the 118th Naval Construction Battalion, the 6th Meteorological Corps and the Southeast Maval Air Arsenal and others.

212. Q. With regard to the 62nd Naval Guard Unit did this order increase Admiral Masuda's power over them or was his power the same as before?

A. Previous to this order he was just an ordinary unit commanding officer, and after this he came to possess administrative and judicial authority.

213. Q. Prior to the issuence of this order was Admiral Masuda still a Rear Admiral?

A. Before this order was put out he was a Captain.

214. Q. Who premoted him to Rear Admiral?
A. I understood it was the Japanese Government.

215. Q. Did you see any dispatch promoting him?

This question was objected to by the accused on the ground that it was immaterial and irrelevant.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. I saw the dispatch promoting him.

Jone P. Kenny Lt. US N

216. Q. Did this dispatch specifically increase in any way the powers of Gaptain Masuda over his former powers?
A. No.

217. Q. Approximately what was the date of this dispatch? A. I do not remember the exact date, but as I remember it was in May of 1944.

218. Q. Who was the Atoll Commander before May 1944? A. Captain Masuda.

219. Q. Was the Atoll Commander the senior ranking Naval officer on Jaluit? A. No. On Jaluit if there was an Army officer senior to him it would be that officer.

220. Q. Were there any Navy officers senior to him?

221. Q. Then was he the senior naval officer on Jaluit?
A. Adwiral Masuda was the senior commanding officer on Jaluit.

222. Q. Was he in charge of the naval activities on Jaluit?

A. In March 1944 when he was given this authority he became not only the commander of the 62nd Maval Carrison, but also over all other naval units on Jaluit.

223. Q. I am saking him with regard to the naval forces and I will repeat my former question. In what way, if any, were Admiral Masuda's powers increased at that time?

87

This question was objected to by the accused on the ground that it was irrelevant and immaterial.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. There is no change in his power over the 62nd Naval Guard Unit by that order.

224. C. When you stated that Hajor Furuki said that Admiral Masuda had absolute authority over all people did you mean that he had absolute authority over the Army, the Navy and civilians?
A. Yes.

225. Q. As to members of the naval forces, was the power of Admiral Masuda absolute or was it subject to certain legal limitations?

A. I would like to have the words "naval forces" explained. Do you mean the 62nd Maval Garrison or all the other naval units other than the 62nd Maval Garrison or do you mean the 62nd Maval Garrison and the other naval units combined?

226. Q. The witness testified that Admiral Masuda had absolute authority over all people. By the words "all people" does he mean to include the army, navy, civilians and natives?
A. Yes.

Jones P. Kenny 4.05%

. 177

227. Q. As to the members of all the neval forces was the power of Admiral Hasuda absolute; was it absolute or was it subject to certain legal limitations?

This question was objected to by the accused on the ground that it called for the opinion of the witness.

The judge advecate replied.

The coundssion announced that the objection was not sustained.

A. Admiral Masuda did, but under the restriction of a commanding officer of a besieged area in administrative and judicial affairs because I understood that he was given the authority as a commanding officer of a besieged area by that dispatch.

238. Q. Then with regard to naval personnel the Admiral was required to obey appropriate naval law. Is that correct?

A. All the orders to naval personnel; by personnel do you mean all naval people?

229. Q. All neval people.

A. I understood that the Admiral should apply neval law to them.

230. Q. Are you familiar with naval law?
A. Of the many naval laws the only ones I have seen is the naval crimpal code.

231. Q. Be you know of any naval law which says that the powers of Admiral Masuda with regard to the natives should not be subject to certain legal limitations?

232. Q. Do you know of any provisions of the naval criminal code which would empower Admiral Masuda to order the execution of a member of the armed forces without a trial?

This question was objected to by the accused on the ground that it called for the opinion of the witness.

The judge advecate replied.

The coumission announced that the objection was not sustained.

A. As I remember it, there is not,

(Gross-examination continued.)

233. Q. On direct examination you testified that the nativen were inducted into the Jaluit Defense Unit. By induction do you mean that they became members of the military forces of the Jaluit Defense Garrison?

A. They were not drafted into the service as regular military, but by the order of Admiral Massaca organised into a labor party of the Defense Garrison.

234. Q. Were all of the natives organized?
A. All natives including women and children.

235. Q. Ware children of two years of age also organised?

A. Peopet who were sick and children who are about two years old, but they are not included in the working party, but a certain period of after they get well they would do that work.

8x

8m

236. C. You stated that for five months after the natives were inducted they did not have any duties. Is that correct?
A. Ies.

237. C. During these five months did the natives receive any special training? A. I do not know of any special training being given.

238. Q. Is it usual to induct people into service and then to give them no duties for five months after they have been inducted?

This question was objected to by the secused on the ground that it was irrelevant and called for the opinion of the witness.

The judge advocate withdrew the question.

239. Q. In your experiences in the armed forces of Japan have you known of any previous inductions where personnel were inducted and did not have any duties for five months?

This question was objected to by the accused on the ground that it was irrelevant.

The judge advocate replied.

The commission announced that the objection was sustained.

240. Q. Were these natives permitted to decide whether or not they wanted to become members of the Jakuit Defense Garrison?

A. I think they had no opportunity.

Jone P. Kenny It. USh

 $24L_0$   $Q_0$  Were the natives paid for the work they did in these erganized work parties?  $A_0$  I do not know what sort of a contract there was between the unit and the natives.

242. Q. You were asked concerning whether the natives become members of the Defence Garrison voluntarily and you stated that so far as you know they did not have any choice. How, in response to a second question you were given you just used the word "contract." Do you know of any contract between the natives and the armed forces?

As I have stated before I do not know whether there was a contract between the natives and the unit or whether there was a contract in which payment was promised or not promised. I do not know.

243. Q. Be you know how much each adult native was required to de?

A. Hest of the natives were engaged in gathering cocenut toddy and the requirement was that when this could be gathered to gather five she a day.

(Interpreter's note: one she is 1.8 liters; therefore, each native was required to gather nine liters of occumut teddy per day.)

244. Q. You testified about a speech in which the natives were teld that if they worked hard and cooperated with the Japanese their lives and property would be secured, but if they did not they would be severely punished. Is that true?

A. Yes.

245. Q. On direct emanin-tion you stated that the natives were kidnaped by force and plotting. Is it true that you so testified?

A. Yes.

246. Q. During the battle of Oca you stated that eighty natives were kidnaped. Where were you at that time?
A. I was on Oca Island.

247. Q. From what part of the island were the natives kidnaped?

A. The natives of the southeastern part of Oca Island were kidnaped from the island next to Oca Island.

This question and answer were objected to by the accused on the ground that they were irrelevant and immaterial and it was neverthat they be stricken.

The judge advecate replied.

The commission announced that the objection was not sustained.

248. Q. Were the Japanese armed personnel between the natives and the American forces or were they behind the natives?

This question was objected to by the accused on the ground that it was double.

The judge advecate replied.

The commission amounted that the objection was not sustained,

A. The natives were placed in an air raid shelter and the Japanese were between the natives and the American forces,

James P. Kenny Lt. USh

249. Q. Were any of the Japanese personnel captured by the Americans in that raid?

A. There were no Japanese personnel kidnapped.

250. Q. Did the Japanese armed forces retreat and leave the natives in this shelter from which they were kidnapped?

A. On the 9th of May before the American forces came some natives sneaked in to Menge Island and there told the missionaries or a priest, a Christian priest, that the American forces were coming and there was among the natives of Menge Island one named Tole who came to Oca Island and told the natives the Americans were coming. The natives knew before hand that the Americans were coming so the eighty who were kidnapped had already noved to a deserted island next door. When the Japanese forces gathered them to place them in the air raid shelter the eighty had already cone to that island.

251. Q. Then these natives were not kidnapped by the Americans, but voluntarily went with the American forces. Is that correct?

This question was objected to by the accused on the ground that it was irrelevant and that it was double.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. They did not go on their own wishes.

252. Q. Did the American forces capture them?
A. They did not capture them and make them prisoners, but the Americans plotted so that they did do so.

253. Q. Did the natives some to this point voluntarily?

This question was objected to by the accused on the ground that it called for the opinion of the witness.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. Where do you mean by "this point"?

254. Q. The point you just referred to in your previous answer.

A. In my previous enswer I did not say that they were brought to this point by plotting.

255. Q. I repeat the questions "Did the natives come to this point voluntarily"?

A. By propaganda their will to go to the place where they were kidnapped was influenced.

The commission continued the witness to be more responsive to questions.

A. (Continued.) At a time when they were not allowed to loave their own island that they should go to another island with intent to escape was not all on their own, but noved by American propaganda to do this and therefore as I understand it, it was not completely of their own will that they went there.

James P. Kenny & SIN

256. Q. The word "kidnaped" in English means "to take by force." Do you still wish to leave your testimony that these natives were kidnaped by the American forces?

This question was objected to by the accused on the ground that it was irrelevant.

The judge advocate replied.

The commission amnounced that the objection was not sustained.

A. As I am not using the word "kidnaped," I am using the Japanese word "Ratchi" and whether it can be used this way or rot, I do not know.

297. Q. Do you wish to continued unchanged your previous testimony and the notives were kidneped and by the word "kidneped" I mean "taken to force"?

A. I do not care whether the word "kidneped" is used or not, but I am using the word "Ratchi." In Japanese the word "Ratchi" includes "carried away by force and by plotting." In Japanese the word "Ratchi" deems "taking by force or by plotting." If there is an English word that includes both of these meanings I would like to use it.

(Interpreter's note: "Natchi" means "Ridmap, take captive (prisoner), take hold, capture.)

The commission announced that it felt the witness was being evasive and directed that he be more responsive in his answers.

298 . Q. Do you wish to somtimme unchanged your previous testimony that the natives were kidneped and by the word "kidneped" I mean "taken by force"?

This question was objected to by the secured on the ground that it was double.

The judge edwocate replied.

The commission announced that the objection was not sustained.

A. I would like to leave my previous testinony unchanged.

The witness was duly warned.

The commission then, at 4:45 p.m., adjourned until temperow, Tuesday, March 25, 1947, at 9 a.m.

The record of proceedings of the fourteenth day of the trial was read, and objected to by the commission since the record on page 167 now reads: #195. Q. You were asked whether martial law was proclaimed or not. You stated that a similar sort of formality was emacted. What were its conditions?", whereas it should read: #195. Q. You were asked whether martial lift was proclaimed or not. You stated that a similar sort of system \*\* \*\*The state of the conditions of the conditions

The judge advocate was directed to correct the record so that page 167, question 135 will read "You were asked whether martial law was proclaimed or not. You stated that a similar sort of system was enacted. What were its conditions?" instead of "You were asked whether martial law was proclaimed or not. You stated that a similar sort of formality was enacted. What were its conditions?"

The judge advocate was directed to insert an interpreter's note on page 182 following question 25%, as follows: (Interpreter's note: Ratchi means to kidnep, take captive (prisoner), take held, capture), and on page 180 following question 243, as follows: (Interpreter's note: Ebg is equivalent to 3,18 pints).

## (Gross-ememination continued.)

259. Q. You testified concerning certain documents which you called judgment papers concerning the natives, and you testified that they were signed by Rear Admiral Hesuda, Hajor Furniti, Lieutenent Commander Shintone and Captain Inoue. How, with regard to Rear Admiral Hesuda's name, did this judgment shoot have his title "Commanding Officer of the Sixth-Second Gerrison" written in or was just his name placed on the document?

A. As I remember it, his official title was not written,

260. Q. Was there any title of any kind next to the name of Major Puruki? A. As T remember it, no.

261. Q. Do you know if there was a title next to the names of Ligutement Commander Shintone or Captain Inous?
A. I remember it was not written.

262. Q. You testified that you considered this document as evidence that a trial had been held. Is that correct?

A. I understand it is correct.

263. Q. Was it from this some document that you got your understanding that Hajer Furnki was a judge advocate in connection with this special procedure? A. Yes.

264. Q. Bid the words "judge advocate" appear anywhere in this document? A. There was no word "judge advocate" on the document.

265. Q. Was there may word "judge" on the document? A. No.

266. Q. Was there any word "court" on the document? A. I do not remember if there was the word "court" on it.

267. Q. Do you know if the word "trial" appeared on this judgment document? A. I do not remember if the word "trial" was there or not.

266. Q. In addition to the so called judgment document, on what other basis do you understand there was a special procedure in commercian with the matives?

A. When I went to the room of Admiral Hasada, the four people who had signed the document, Admiral Hasada, Hajer Furuki, Moutement Commander Shistome, and Captain Incue, were judging the case with this imvestigation report before them, and I understood that this judgment paper was a result of the judgment.

269, Q. Were any of the matives present at the time that you saw Admiral Masuda, Najir Puruki, Shintone and Inoue in Admiral Masuda's recent A. I did not see any notives.

84

270, Q. Did you hear Admiral Masuda and the other officers arguing while you were there?

James P. Kenny & . Wh

This question was objected to by the accused on the ground that it called for hearsey.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. I did not hear them arguing because I was thore a very short time. During that time I remember that Major Furniti was reading a part of the report.

84

271. Q. Bid you hear enything else that went on in that room? A. I did not hear anything other to this.

272. Q. And when you stated that they were judging the case, all you really know is that Najor Furuki was reading a part of your investigation report at that meeting. Is that correct?

A. I sew them when Najor Furuki was reading the record.

273. Q. And all you know concerning that meeting is that Major Furuki was reading your investigation report. Is that correct?
A. Yes.

274. Q. You testified that you saw the judgment papers with regard to Nelein, Wijkane, Obetto and Paul. You stated that the decisions with regard to all of them were on the same judgment paper. Is that correct?

A. It is correct.

275. Q. And you stated that with regard to Melein and Majkane, it was the death sentence and with regard to Obetto and Paul, they were to be punished with a period of imprisonment at hard labor. Is that correct?

A. Yes.

276. Q. Did this paper give a full statement of the participation of the natives in the crime for which they were judged?

A. I do not know if a full account of their crime was written or not, but the specification, whether they were main or accomplices, or the law applied was written in.

277. Q. With regard to Nelein and Nejkane, and Obetto and Paul, did the statement of the judgment paper concerning the facts of the crime agree with your report?

A. No.

276. Q. In what way, if any, did the statement of the participation of Obotto and Feul differ from your investigation report? A. The contents of the report and the judgment paper are altogether different. I remember what there was in the judgment paper, it did not contain anything about the crime.

The recused stated that there was an error in the translation of the previous question.

James & Kenny & NSh

The witness requested that the previous question be rereed.

The question was reread.

279. Q. What was the difference? A. Previously when I ensuered, I misunderstood the question. I thought it was, "Was there any difference between the report and the judgment papers." I do not remember what was in the specification, but judging from my common sense, I believe what we had investigated was used.

280. Q. So far as you remember, did the facts as reported in the judgment paper, agree with the fasts as you reported them in your own investigation report?

A. As I remember it, they agreed.

261. Q. With regard to Obetto and Paul, who were sentenced to a period of hard labor, did the judgment paper indicate that they should be punished because they helped Helein and Hejkane withtheir plot?

gr.

This question was objected to by the secured on the ground that it was immaterial.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. This point I do not remember elearly.

262. Q. In your investigation report, did you report that Obstte and Paul were assemplices of Melein and Mejkane? A. In the investigation report was placed just what the natives had related and nothingshother they were main accomplices or just accomplices, or what erimes they had committed was not written. I did not report that they were .accuplices.

263. Q. What did you report concerning Obetto and Paul?
A. Concerning Obetto I reported, I forget the name, but a native on
Hejilris (Elizabeth) Island was told the contents of Helein's letter. That he wrote a letter addressed to Melein, the contents of the letter which are as follows: "We will not run away to American shipe." I reported this fact, Concerning Faul, he received the letter from Welein and through Hejkane on Honge Esland. He read helf way through the letter and throw it away. He then warned Wejkane that on the islands further down from Mongo there were many Japanese soldiers and teld her to return to Pingelap quickly.

284. Q. Did you report anything else in connection with Obotto or in connection with Bolu (Paul)? As I recall it, I do not think I reported anything else.

285. Q. Did you question Obetto or Paul?
A. As I recollect, I did not directly interrogate Faul and Obetto.

206, Q. Do you know whether Kadota or Taki questioned Obetto or Faul? As I remember they did.

CERTIFIED TO BE A TRUE COPY James P. Kenny tr. VSh

267. Q. Bid you write the only report on this incident?
A. I did not write this report. Endota, who was the main investigator, wrote up the report. We checked it and signed and we submitted it with our three names.

288, Q. Wes there any other sport submitted that you know of concerning Melein and Mejhane?

A. I do not know of any other report being submitted.

269. Q. Do you know of anything else that was on this report concerning Obetto and Faul in addition to what you have teld us? A. Other to what I have said, as I recall, their personal history was written in.

290. Q. With regard to the incident, the elleged crime, was anything else written in?
A. As I remember, there was nothing else.

291. Q. Then the entire content of your report with reference to Obetto was a statement from a native woman in which you learned that Obetto had refused to join a plot. Is that correct?

This question was objected to by the accused on the ground that it was irrelevant and irreterial.

The judge advecate replied,

The ecomission announced that the objection was not sustained,

A. No. Not only from the woman, but also by a statement from Obetto.

292. Q. Were you present when this statement was obtained from Obetto?

This question was objected to by the accused on the ground that it was irrelevant and immeterials

The emmission ennounced that the objection was not sustained.

A. I do not remember exactly if I heard Obsto make the statement, but by the report of First Lieutenent Endota, it was stated expressly that he had stated this.

The commission them, at 10:22 a.m. took a recess until 10:44 a.m., at which time it reconvened.

## (Gross-excurination continued,)

293. Q. You stated that with regard to Obetto, the facts in your investigation report were based not only on the statement of the native woman, but also on statements by Obetto. In what way if any did Obetto's statements differ from the woman's statements?

A. As I recall it, there were no points that were different.

294. Q. Then, is it not true that both Paul and Obetto were punished even though they themselves were unwilling to participate in the escape plot by Nelein and Nejkane?

This question was objected to by the accused on the ground that it went beyond the scope of the direct examination and that it called for hearsay.

The judge advocate substituted the words "sentenced to be punished" in place of "punished".

This question was still objected to by the accused on the same grounds.

The judge edvocate replied.

The commission announced that the objection was not sustained.

A. It is a fact that they, Paul and Obetto, were not directly participating in the plot of Helein and Hejkane, but they violated the rules that were set down.....governing the detailed guarding of the outlying islands. This detail regulations were called the Hamual of Guarding, which was used as such to teach the men in performing their duties. In this was written, if you saw or not any new or talked to any unknown natives and also natives from other islands, you should report this immediately to the head of the detachment there. Paul and Obetto, having met Hejkane and enother native, did not report this.

The judge advocate moved to strike out that part of the answer beginning with and following the words "but they violated".

The accused made no reply.

The commission ennounced that the motion to strike was not sustained,

295. Q. You testified concerning the special procedure that was held with reference to Melein and Mejkane. Was the case special procedure held in Admiral Massage's office in the case of Obetto and Paul?

A. It was,

296. Q. In direct examination you were asked with regard to Melein and Mejkane and with regard to Mendale and Laperia, "Do you know if a trial was held for these matives", and you said, "I do", and you also stated that there was a trial. What did you mean when you stated that there was a trial of these matives?

The emmission ennounced that the objection was not sustained.

A. When I said there was a trial I meant what I sow in Admiral Mesuda's room in which four people, including Admiral Mesuda were conferring on the report and what I perceived of their actions there and the judgment papers put out.

297. Q. Heve you always considered this to be a trial? A. I do not get what you mean by "always".

296. Q. Have you since the event occurred considered that this was a trial? A. Yes.

299. Q. Are you sure that you have not recently decided that this constituted a trial?

A. It is not what I thought up recently.

300. Q. Them you have always considered that Welein and Mejkane, Leschr, Konin, Komin, Arden, Makui, Tiagrik, Chomnohle, Chute, Mendale and Laparia, Obetto and Paul received a trial before they were judged. Is that correct?

301. Q. In October 1945, did you at Kwajelein Atoll, Merchall Islands, testify before a United States Navel Officer and an interpreter who were investigating war crimes and atrocities?

This question was objected to by the secused on the ground that it was immaterial and irrelevant.

The judge advocate replied.

The counterion was elected.

The commission was opened. All parties to the trial entered, and the commission announced that the objection was not sustained.

The quertion was repeated.

A. Up to the twenty-fifth of October 1945 I was on Majuro Island. On the twenty-sixth I was noved to Emajalein, and for about, as I recollect, for about one month I was not interregated. It may be a mistake for Jeluit Island.

302. Q. Were you questioned by a United States Haval Officer and an interpreter investigating war crimes and atrocities during the year 1945?

This question was objected to by the accused on the ground that it was irrelevant and immaterials

The judge advocate repliede

The commission ennounced that the objection was not sustained,

A. I was interregated on Jaluit concerning this native case.

James & Kenny Ir. 18 h

303. Q. Did you tell the truth when you testified before that officer? A. Yes.

304. Q. Were you subsequently interrogated on Evajalein Atell, or to the best of your recallection, was your interrogation only on Jaluit?

305. Q. Yes, what? Were you subsequently questioned on Emajalein also? A. And also on Emajalein, which my have been the early part of 1946 or the later part of 1945, I was interrogated there.

84

906. Q. When you were interrogated, you were asked concerning the execution of the natives. Question: "Were they given a trial," Your ensuer: "No." How do you explain the feet that when you testified before the officer you stated there was no trial and that now when testifying before this commission you state that there was a trial.

90K

This question was objected to by the accused on the ground that it was leading.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. At that time when I replied I meant there was no regular trial. At present I am still thinking there was not a regular trial, but a trial by special precedure.

307. Q. You were asked whether or not you always understood the word "trial" to mean the special procedure in connection with these natives and you testified you have always understood the word "trial" to mean this special procedure in connection with these natives. Did you not so testify?

A. The statements that are being used in this question, was this a statement that I made before this commission?

306. Q. That is correct.

A. I understand. What I testified to when I said I always thought this was a trial was that it was not a regular trial, but a sort of a trial in that the only trial was a trial by special procedure.

The judge advecate requested the commission to direct the witness to answer this question directly.

The commission stated that it had warned this witness before on his evasive answers and directed him to answer the question or be held in contempt.

A. My testimony was not to that meaning.

309, Q. You were asked a question conserving whether there was a trial for these natives and you answered that you considered that what occurred in Admiral Masuch's room was a trial. You were then asked, "Have you always considered this to be a trial?" Answer: "I do not get what you mean by 'always'," Question: "Have you since the event occurred considered that this was a trial?" Answer: "You," Did you so testify before this commission?

Jene P. Kenny H. USh

This question was objected to by the accused on the ground that it was irrelevent.

The judge advocate replied.

The commission amnounced that the objection was not sustained.

A. That is how I answered. I mean that I understood this as a trial. What was held in Admirel Masuda's room came into the category of trial.

310. Q. Then, did you understand it to be a trial? A. I do not understand the word "it".

311. Q. Then, did you understand these events to constitute a trial, to be a trial? A. Yes. Not a regular trial, but I understood it as a trial by special procedure.

The witness was duly warned,

The commission then, at 11:50 a.m. took a recess until 2:07 p.m., at which time it reconvened.

All the members, the judge advocates, the three official native observers from the Marshall Islands, the secused, his counsel and the interpreters.

Robert R. Miller, yeomen first class, U. S. Nevy, and Joseph Kase, junior, yeoman second class, U. S. Nevy, reporters.

No witnesses not otherwise commected with the trial were present.

Morikawa, Shigeru, the witness under cross-examination when the recess was taken, entered. He was warned that the oath previously taken was still binding, and continued his testimony.

(Gress-emmination continued.)

312. Q. In October 1945 did you believe that the natives had been judged by the special procedure in Admiral Masuda's office? A. Yes. But not by a court as complete as this one.

8m

313. Q. In October 1945 did you believe that the natives had been judged by the special procedure in Admiral Maguala's office?

314. Q. In October 1945 did you understand that this procedure was a special trial? A. Yes.

315. Q. Does the word "trial" as you understand it in its broader meening include special trials as well as regular trials?

James 1 Kenny Et, USA

This quertion was objected to by the secured on the ground that it called for the opinion of the witness.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. At that time I understood that a trial by special procedure was included in this broad sense of the word "trial".

316. Q. When you were asked by the investigator, "Were the natives given a triel", you answered, "No.". Is that correct?

A. I replied that there was no regular trial.

317. Q. You replied "No" when you were asked if there was a trial. Are you now trying to change your statement made to that investigator?

This question was objected to by the secused on the ground that it was argumentative.

The judge advocate replied.

The commission announced that the objection was sustained.

318. Q. At the original investigation before the investigating officer were you asked in connection with these natives "Were they given a trial?"? A. As I recollect I was asked this question.

319. Q. Did you enswer this question with the word "No.". A. I replied that there was not a regular trial.

320. Q. Then did you answer this question using the word "No" in your answer?

A. I do not remember if I answered in Japanese "yes" or "no", but after the word I stated that it was not a regular trial.

321. Q. Do you remember distinctly that when you testified that you told this investigator that there was not aregular trial. Is that correct?
A. I do not know.

322. Q. Did you tell this investigator that there was a special trial? A. No.

323. Q. Why did you not tell him there was a special trial if he asked you if there was any trial?

This question was objected to by the secured on the ground that it was double.

The question was withdrawn,

324. Q. You stated that the investigations of Helein, Hejkane, Obetto and Paul were carried out by Lieutenant Madota, Taki and yourself. Is that correct?

A. Yes.

genes P. Kenny & USi

325. Q. Was Paul also known by the names of Bolu and Boru? Are they the same persons?

A. At the time of the incident we called him Boru.

326. C. When you have answered my questions regarding Paul you mean it was the same person as Belu and Boru. Is that correct?

A. I meant the same person.

327. C. Prior to the preparation of this investigation report in this case did you and the other investigators question any witnesses?

328. Q. When the witnesses spoke to you and told you their stories did you write down their stories at that time?
A. The witnesses that I interrogated, we always wrote it down on the spot.

329. Q. And did you later collect this information and put in all in your propert?

A. As I remember all the information was gathered together and places in the Sax

330. Q. Were your original notes that you took when you questioned the witnesses given to Admiral Masuria or was he only given the final report that the three of you signed?

This question was objected to by the accused on the ground that it was beyond the scope of direct examination.

The judge advocate replied,

A. Yes.

The commission announced that the objection was not sustained,

A. As I remember it we did not show Admiral Masu'a our notes.

331. Q. In questioning the witnesses did you swear the witness to tell the truth?

A. No caths were given and as I recollect no special warning was given them.

the realist have been der up a secondary in opening into garde since

332. Q. Did you ever threaten to punish the witnesses if they did not ensuer your questions?

A. As I remember it we did not tell them this.

333. Q. Did you ever threaten to punish the witnesses if they did not tell the truth to your questions?

334. Q. In addition to Melein and Mejkane incident, you have testified concerning the investigation of other natives. Did you know about these investigations of other natives because of your duties as intelligence officer?

A. At that time I was no longer an intelligence officer, but was a member of the Defense Section and I saw all the documents. I know of them by seeing those documents.

Jones P. Kenny 4. USX

335. Q. Did you also see the investigators reports as well as the judgment doguments about there natives? A. I did.

336. Q. Now, you have testified concerning certain of these other native incidents. Have you told the truth about these native incidents? A. I am telling the truth.

337. Q. Have you in your testimony before this commission told the truth? A. Yos.

338. Q. On Friday, March 21, 1947, before this commission you testified in connection with Mandala and Laperia as follows: "There was also the case of Mandala and Laperis who killed a guard and tried to escape". Were you telling the truth when you made this statement about Mandala and Laperia? A. I am telling the truth of what I saw in the report.

The witness made the following statement:

The original translation of that is a misinterpretation ofwhat I said, when I said it originally in Japanese I said "who tried to kill a guard and escape."

The interpreter stated that he remembered the incident on Friday, March 21, 1947, and he believed that he had misinterpreted the word "Koroshite", which is very easy to mistake in translation.

339. Q. What was the method of investigation used in the Melein and Mejkane case?

A. The method of investigation used was that all the rest of the natives were called from Pingelap, Menge, Oca and Jaluit to headquarters, all the metives were divided between the investigators and investigated. As sufficient witnesses were lacking Kadota and Iski, the investigators, went to Pingelap and Menge and the other islands and looked for witnesses and investigated the conditions on the spot.

340. Q. Was the same method of investigation used in the investigation of all the other native cases? A. As I did not investigate the other cases personally I do not know

exactly, but I recallest that they were along the same methods.

341. Q. You stated that a confession was obtained in the case of Obetto and Peul. Is that correct? A. I did not state confession documents, just a confession.

A. In the case of Melein as I did not investigate him I do not know, but in the report it was stated that a confession had been obtained,

343. Q. Do you know if a confession was obtained from Majkene? A. I do.

344. Q. Was a confession obtained? A. It was,

345. Q. Do you know with regard to the other natives whether confessions were obtained in all the other cases, in the cases of Mandala and Laperia, Tiegrik, Arden, Makui, Chuta, Chennohle, Leschr, Kohri and Kozina?

A. I do not know personally because I did not investigate them, but on the report it was stated that confessions had been obtained.

346. Q. When the natives were taken from their home islands to be brought to Baidj for questioning do you know if their hands were bound?

A. I do not know because I did not see them.

347. Q. When the natives were questioned by you were their hands bound?

342. Q. Were their feet also bound?

349. Q. Were they blindfolded?
A. No. They were not blindfolded.

350. Q. In connection with the case of Melein and Mejkene, did you question or were you present when Obetto was questioned?

A. I did not investigate Obetto so I resollect I was not there, but I may have been there once in the long period in which he was investigated.

351. Q. Did you question Eemack or were you present when Lemack was questioned?

A. As I recall I was not present during his interrogation, but just before he was to leave Emidj and return to Pingelap I met Mark and I talked to him on matters not connected with the investigation.

352. Q. Did you question or were you present when the following natives were investigated: Ichiro, Seburo, Juda, Levitikas, Jordan?

This question was objected to by the accused on the ground that it was immaterial.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. I have interrogated Sabure and when Ishire, Sabure and Mark were returning to their island I met them and talked to them on matters other to the investigation.

953. Q. Bid you question any of the other natives or were you present when any of the other natives were questioned?

A. As I recall I do not think I was present while these other natives were being interrogated.

354. Q. Bid you use force or violence in questioning the natives?

This question was objected to by the accused on the ground that it went beyond the scope of direct commination and that it was not specific.

Jame D. Kenny I. USA

The judge advocate replied.

The commission amnounced that the objection was not sustained.

A. No.

355. Q. Were you present at any time when physical violence was used against any of the natives questioned? An No.

The commission then, at 3:13 p.m. took a recess until 3:35 p.m., at which time it recomvened.

## Presents

All the members, the judge advocates, the three official native observers from the Herstell Islands, the reporter, the accused, his counsel and the interpreters.

He witnesses not otherwise connected with the trial were present.

Morikawa, Shigeruk, the witness under eross-exemination when the recess was taken, entered. He was warned that the oath previously taken was still binding, and continued his testimony.

(Cross-emanination continued.)

356. Q. You stated that you questioned Nejkane and Saburo. Did you question any other netives whose names I rend to you? A. As I recollect I do not think that I did.

357. Q. Them you do not remember questioning Lemnek, Ichiro, Boru, Levitikas, Juda or Jordan, Is that correct? A. Yes.

355. Q. By that enswer do you mean that you did not question any of these other netives?

A. I mean that I did not question these other people.

399. Q. I want you to look around this court room and see if there is anyone present whom you questioned with regard to this incident?

This question and ensurer were objected to and a notion made to strike them from the record on the ground that they had no bearing on the issue.

The judge advocate replied.

The commission announced that the objection and motion to strike were not sustained,

360. Q. Is this the man whom you questioned?

James P. Kenny 4 USA - 196

(Judge advocate pointed to Nark Jude, official native observer from the Narshall Islands.)

A. As I remember I did not question Mark.

361. Q. Were you present when Mark was questioned? A. I may have been, I do not remember distinctly.

362. Q. Were you present when Obetto was questioned? A. I do not remember exactly if I was there or not.

363. Q. I will try to refresh your memory. Do you remember being present when Obetto was questioned by Lieutement Teki and Major Puruki?

A. I do not remember.

364. Q. Do you remember striking Obetto in the face with your hands at the time Ieki and Furuki were present?

This question was objected to by the accused on the ground that it was irrelevant.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. There was no such incident.

365. Q. Was there an incident in which emlisted men held Peru to the ground while you, Morikawa, poured water from a cup into his nose and mouth?

This question was objected to by the accused on the ground that it was irrelevant.

The judge advocate replied.

The commission announced that the objection was not sustained.

A. There was absolutely no such incident.

366. Q. You have testified that you questioned Saburo. Bid you put a pronged wire up his nose to get him to testify for you when you questioned him?

This question was objected to by the accused on the ground that it was irrelevant,

The judge advocate replied,

The consission announced that the objection was not sustained,

gr.

A. No.

367, Q. Were there any bruises or marks of violence on Nejkane's body when you questioned her?

James P. Kenny 4. USh

This question was objected to by the accused on the ground that it was irrelevant.

The judge advocate replied.

The counission announced that the objection was not sustained.

A. I did not recognise these.

368. Que Was her dress or her clothing term in any way?

A. I do not know, but as she was confined a long time it was very soiled and as she had to sit on a concrete floor it was worn.

369. Q. When you first questioned Mejkane did she confess as to her participation in this alleged crime?

A. The investigation previous to the time she confessed was conducted by First Lieutenent Kadota and about this I do not know.

370. Q. Do you know if she confessed to First Lieutenant Kadeta? A. I know this directly by the document.

371. . Then she did confess to First Lieutenant Madoa?

8m

372. Q. Were you present when this confession was made? A. As I recollect I was not there.

373. Q. Do you know when she first confessed? A. I do not remember exactly, but I remember it being around the middle of July, 1945.

374. Q. Is it not true that when Hajkane was questioned she stated that she was trying to get to her husband, she was trying to find her husband and that this was the reason she was moving from one island to another?

A. In the first statement she made to First Lieutenant Kadota I recellect that was what it was.

375. Q. Do you know what Majkane told First Lieutenant Miyashita?

This question was objected to by the accused on theground that it called  $\partial x$  for heareny.

The Juige advecate withdrew the question,

376. Q. Do you know if Nejkano confecced to First Loutement Hiyashita?

gr.

377. Q. When First Lieutement Kadota went to Pingelsp did Majkane confess to him there?

This question was objected to by the accused on the ground that it called for heareny,

The consistion emoused that the objection was not sustained,

A. It was not when Kedeta went to Pingelap, but when Majkane to Raidj.

378. Q. Then are you able to state from your knowledge that Nejkane did not originally confess to her perticipation in the crime, but she confessed after she came to Emidj and was questioned there?

A. I can say it.

379. Q. Did Melein ever confess to his participation in the crime?
A. When Melein confessed I was not there, but on the report it stated that he had confessed.

380. Q. De you know of any of the other natives involved Nelsin in their statements concerning this incident?

A. I do not know if Nelsin was involved in the statements of the other natives because I did not investigate him.

361. Q. Did you see the report and sign the report of the investigation concerning Melein as well as Nejkane, Obetto and Paul?

A. I signed it.

382. Q. De you remember if that contained anything that indicated that the other natives had stated anything that involved Melein in this crime?

A. The other natives know nothing about Melein's plot.

383. Q. How did you determine that Melein was a principal in this alleged erime?

A. This is not what we determined, so we do not know.

384. Q. What did you determine with reference to Melein?
A. We investigators did not determine anything, all we stated was what the matives said.

385. Q. The natives you testified said nothing about Meleda because they did not know about his participation. What did you say about Melein?

A. In the written report we submitted was written what Melein had stated.

386. Q. Then the only thing about Helein was his own statement to the Japanese officers who had investigated him. Is that correct? A. Yes.

367. Q. Bid your report state that Helein continued for a long time to deny any participation in this crime? A. As I remember that was stated in the report.

366. Q. When notives were bound by the hands were they also bound at their feet with a chain running over the front to their hands, which were tied behind them?

This question was objected to by the accused on the ground that it was irrelevant.

The judge advocate replied,

The considerion announced that the objection was not sustained.

As I remember it was not a chain, it was a rope and this was because Najor Furuki had ordered it and I remember Najor Furuki ordered the person who esserted them that they should be brought in from the outlying islands to the main island tied that way.

389. Q. Them you know that these natives were tied with their hands behind them with a chain running over their front to their feet?

A. As I did not see them I do not know how they were tied, but I heard that the person who was esserting them should have them tied well when brought over. Major Furnki told the esserts that brought them over to have them well tied.

This question and answer were objected to by the accused on the ground that they were hearsay and the accused moved that they be stricken from the record.

The judge advocate replied.

The commission announced that the objection was not sustained and that the motion to strike was not sustained.

390. Q. You stated that you were present when Juda was questioned. Was Juda tied in that way when you saw him?
A. When I talked with Mark he was not tied as such, because as I remember it he ate his meals before us.

391. Q. You have testified how Major Furuki directed the officers of his command to treat the natives with perental love. Wes the compassion and love, which Major Furuki directed you to emercise, emercised by you and your fellow investigators when you questioned these natives concerning these erimes?

This question was objected to by the accused on the ground that it called for an opinion.

The judge advecate replied.

The commission announced that the objection was not sustained.

A. The attitude we took was not contrary to Hajor Furnki's instructions, I would have to state why they had to be tied so well. This was because in April 1945 two natives escaped from the Second Assumition Dump and another case was when a notive was being brought from an outlying island, he jumped overboard from a noter beat and escaped and this was why Hajor Furnki erdered that they had to be well tied and that is why it was done. The above consurrance in which I refer to two natives is errogious, one happened in April and one happened in May.

392, Q. In regard to all the treatment of the natives while they were in this Second Assumition Dump. Did you carry out the instructions of Najor Furnki with regard to the laws and compassion for the native people?

A. The hendling of these prisoners was not my duty, Lieutenant Schude was in charge of the confinement.

James P. Kenny 4. 152

Suc

393. Q. What you observed and what you did when you were present in connection with those natives, was that in secondance with Major Fuguid's instructions with regard to love and compassion in the treatment of natives?

A. Yes. But for investigation when they were tied we could not untie them even if we wanted to because there was orders against it to prevent escaping by Major Fuguid.

The witness was duly warned.

The commission them, at 4433 p.m., adjourned until 9 a.m., tomorrow, Wednesday, March 26, 1947.
