These menu's were found in papers belonging to Les Hallett.

After the fall of Singapore, Les was captured and sent to Changi camp. He later worked on the THAI/BURMA RAILWAY. Much of his captivity was based at Nongpladuk Camp. In later life, he constructed stunningly accurate models of the Kwae Noi Bridges and the Wang Po Viaduct. These models are on display in the F.E.P.O.W. building at the National Memorial Arboretum, Staffs., England.
