

CLOSED (red ink)				
(13) Dispatched Camp, Sagano-Seki. The Nihon Mining Industry Company (Nihon Kogyo Kabushi Kigai-sha), Saganoseki Refinery.	Ingot lead	10	95	The company at camp co-operated and treated POWs carefully, considering the kinds of work, working hours and working personnel, etc., by the health condition of POWs. In a part of working place, all the POWs engaged in the same work. At on this occasion we increased personnel of or twenty per cent of the whole Japanese Colliers, and we let them labour. On account of it, we were blamed for treating POWs warmly. Since the lowering of the bodily strength has influence upon the work directly, we endeavoured to improve and maintain the bodily strength of POWs.
	Dissolved Precipitate	4	97%	
	Beam Washing.	2		
	Loading.	4
