Re: MEDICAL CLASSIFICATION

ish to point out the following facts.

- 1) All these men have been prisoners of war for three and a half years.
- 2) All have been working for practically three and a half years without rest.
- 3) All of them have been prisoners in Thailand for at least fifteen months. Where all have had malaria, malaria, most of them diarrhoea and some dysentery and some cholera. Some have had beri beri and palagra in Thailand.
- 4) On a "floating wreck" they had a very gruelling voyage of seventy days from Singapore to Japan after the first fourteen days there was practically no quinine some had continuous malaria for over twenty one days. Food on the voyage was very poor and beri beri was common.
- 5) On arrival in Japan after ten days rest the majority went to work in the Sumitomo Besshi Copper Mine, Being away from camp for twelve hours each day.
- 6) In Japan they have nearly all had beri beri in varying degrees.
- 7) They have all had insufficient food for the work they have been called upon to do and as a result have suffered from debility and malnutrition.
- 8) They suffered severely from the "coldest winter in Japan for 60 years" has improved remarkably and continues to do so Nevertheless, all need a thorough medical overhaul including exrays of chest, electrocardiogram and pathological examination of stools for intestinal parasites before being termed fit.

Therefore these marked:

- A** Are fit for ordinary camp duties and camp life, ordinary means of travelling and short marches.
- B** Are fit for camp life and light camp duties. On marches they would
