HEADQUARTERS 169TH INFANTRY
APO 43

13 April 1945

Subject: Investigation of MIA Personnel.

To: Commanding General, 43d Inf Div, APO 43.

1. The following information is submitted on three members of Company A, 169th Infantry, reported as MIA on 21 January 1945.

S Sgt Charles D Saur, 39415662
Pfc Norman Wickstrom 39209223
Pfc James C Bigger 33093003

The above listed men were part of a ten man patrol from Company A, sent out to contact the 3rd Battalion in the vicinity of Sison on 21 January 1945. The patrol did not complete its mission and never returned to its organization. It was later discovered that five members of the patrol were hospitalized for wounds received in action. An effort was made to contact these men but they had been evacuated off the island. A letter has been mailed to each member of the patrol who was hospitalized in an effort to obtain additional information concerning the patrol. A burial party later located two additional bodies of members of the patrol and pieces of one body which could not be identified. From evidence found in the area, it is apparent that the patrol was subjected to some sort of enemy artillery or mortar fire.

There is conclusive evidence of death of one of the three missing members of the patrol. However, the identity of the unidentified body cannot be determined.

In view of the lack of substantial evidence, and no trace of the bodies determined, there is not reasonable conclusive evidence of death in the case of the three missing personnel.

HEADQUARTERS FIRST BATTALION

169th Infantry
APO 43, c/o Postmaster
San Francisco, Calif.
2 April 1945

STATEMENT

Status of Enlisted Men Missing in Action

On 21 Jan 1945, I was in command of Company A, 169th Infantry on Mt Alava, Luzon. At about 1000 that date, I sent out a 10 man patrol with the mission of contacting the 3d Battalion, 169th Infantry in the vicinity of Sison. The members of the patrol were S/Sgt Saur, Charles D., 38415662; Pfc Bigger, James C. 33093003; Pfc Gerber, Jay C, 33515978; Pvt Hernandez, Guadalupe, 38167985; Pvt Myers, George R., 39134829; Pfc Frank, Maurice J; 39043876; Pfc Hopkins, Linzy C, 38478073; Pfc Wickstrom, Norman, 39209273; Pvt Ramirez, Lalo, 39718312; Pvt Johnson, Edwin J, 39915686. Came nightfall and the patrol had not returned, so I called the 3d Battalion by radio and was informed that the patrol had not contacted them. I called again the next day and received a negative report. At about 1200, 22 Jan 1945, I received a report from Capt Tribur, S-1 1st Bn, that Hopkins, Gerber, Hernandez, Johnson, and Frank had been evacuated through the 118th Medical Battalion, wounded in action, all by shell fragments. Those men were reported to be dazed and suffering from shock and unable to give any coherent story as to what had taken place. Due to the tactical situation I was unable to question them myself. They were all evacuated from Luzon and none have as yet returned. On 28 Jan 1945, a searching party was sent out under the command of T/Sgt Jones, Charlie C, 33092885, Company A, about $\frac{1}{2}$ mile west of Sison. This party located the bodies of Ramirez and Myers. The party also found pieces of a body which was not identified. They found a paybook belonging to Bigger in the immediate vicinity. No further search was made and Pfc Wickstrom, Pfc Bigger, and S/Sgt Saur are still listed as missing in action. Enemy troops were known to be operating in the area and in my opinion, at least two of the missing men could have been taken prisoner.

HEADQUARTERS 169TH INFANTRY

APO 43, c/o Postmaster
San Francisco, California
16 February 1945

Subject: MIA Personnel.

To: Commanding General, 43d Inf Div, APO 43.

1. The following list of personnel carried MIA by the unit and the circumstances leading to their disappearance is submitted herewith:

- a. Pfc James C Bigger 33093003 Co A
Pfc Norman Wickstrom 39209273 Co A
S/Sgt Charles D Saur 38415662 Co A

The above listed men were part of a patrol from Co "A" sent out in the vicinity of Mt ALAVA on 21 January 1945. The patrol, consisting of ten men, never returned. Evacuation orders later disclosed that five of the men were hospitalized for wounds received in action. An effort was made to locate these men at the hospital but they had been evacuated off the Island. On the 3d of February 1945 a burial detail found two bodies of members of the patrol, which they were able to identify. A third body, which was blown to bits and could not be identified, was also recovered. It is apparent that the patrol received a direct hit by an enemy artillery piece. There is a possibility that two members of the patrol could have been captured.

b. Pfc Clyde R Tobin 37523454 Co G was wounded in action on the morning of 19 January 1945 at the road junction near Sison. He was taken to the Battalion aid station for future evacuation. At the time the entire area was under constant artillery fire and the casualties heavy. The last time he was seen was at the Battalion aid station. All the casualties were evacuated and the Battalion withdrew a short time later. There is no record of him being admitted to a hospital and no trace was found of his body at the road junction.

SUBJECT: Report of Interment

TO : Quartermaster, 43d Infantry Division, APO 43

1. Discrepancies exist on the Report of Interment of Unknown X-1, grave 82, plot 2 in the USAF Cemetery San Fabian No 1. It is requested that a new report be submitted correcting the discrepancies listed below:

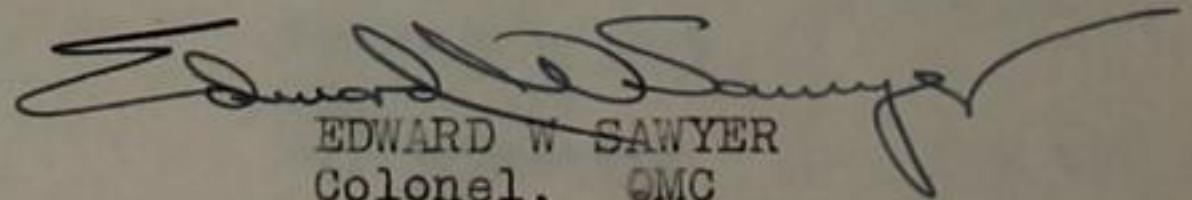

a. If identification tags were found on the body, deceased could not have been an unknown.

b. If the entries on the Report of Interment are correct and the deceased is an unknown, then what means of identification was buried with the body and attached to the marker.

c. The date of death must be established by condition of the body, and when troops were last in the area where the deceased was found.

d. A tooth chart of the deceased was not transmitted with the Report of Interment and Base Graves Registration Service does not have records indicating receipt from your headquarters. Was tooth chart taken or was the condition of body such that this could not be accomplished?

2. Request that the new Report of Interment be submitted as soon as practicable.

SUBJECT: Identification of Unknown Deceased

TO : Commanding General, Sixth Army, APO 442

1. Companies I and M of the 27th Infantry Regiment, 25th Infantry Division were committed to the task of securing the town of Villegas which is approximately two and one-half (2½) miles north of Pozorrubio, Luzon, Philippine Islands, on 27 January 1945. This move was attempted as outlined in Inclosure 1.

2. So far as is known no troops entered this area again until on or about 10 February 1945. On 13 February 1945 the Assistant Graves Registration Officer of the 43d Infantry Division (Lt Charles R Dean) with graves registration personnel attempted to remove eleven (11) deceased of Companies I and M. This group reached the approximate point where S/Sgt Sim (NRI) Herren, 6972796, had fallen, at which point the group was fired upon. Before leaving this point the group recovered a body found there which was interred on 13 February 1945 in grave 613 of the USAF Cemetery Santa Barbara No 1 as Unknown X-19. No further attempt was made by this group to recover the ten (10) remaining deceased.

3. On 28 February 1945 Captain Albert W Robbins, Chaplain of the 136th Infantry Regiment, 33d Infantry Division, removed the remaining five (5) bodies indicated in Inclosure No 1 (two of which were identified as Pfc Delbert G McGill, 38531110, and Pfc Billy R McKee, 35768456, plus three (3) others which were identified as former members of Companies I and M, 27th Infantry Regiment and which were also buried on 28 February. The remaining two (2) of the original group of eleven (11) deceased were recovered and identified on 5 March 1945 and buried the same date in USAF Cemetery Santa Barbara No 1. Those deceased indicated in Inclosure No 1, were killed in extremely close proximity to one another; therefore, the removal of one would in all probability bring about the removal of the others.

4. In view of paragraphs 2 and 3 above, it is reasonably certain that Unknown X-19 (grave 613, row 12) is S/Sgt Sim (NMI) Herren and that Unknowns X-27 (grave 955, row 19), X-28 (grave 960, row 19), and X-29 (grave 962, row 19) are S/Sgt Frank V Banaitis, Pfc Jessie J Worley and Pfc Thomas L Perkins, respectively. The identified deceased indicated in paragraph 3 above which were interred on 28 February 1945 were buried in the same row and on either side of Unknowns X-27, X-28 and X-29.

5. Request that a decision be reached as to whether these unknown deceased may be identified as the same deceased indicated in paragraph 4 above, and that this decision be forwarded to this headquarters and Headquarters Base M.

I, Pfc Robert O'Rourke, ASN 32852807, a member of Company I, 27th Infantry Regiment, being first duly sworn, do depose and say:

On the morning of 27 January 1945, Companies I and M proceeded north on the road to Villegas Village, Luzon, Philippine Islands. The platoon of which I was a member was operating as the point for the forward move. S/Sgt Sim (NMI) Herren, ASN 6972796, Co M, 27th Infantry, was placed in the point as a mortar observer and proceeded up the road directly to the rear of me. After about one and a half miles up the road we came upon a draw and I cut across the road to proceed over the creek bed. Upon reaching the opposite side of the creek bed, an explosion threw me to the ground and after recovering to a standing position I saw S/Sgt Herren lying dead not more than ten to fifteen feet away. The medical aid man of the unit took charge and made out a medical tag. There were one or two others injured as a result of the explosion of the land mine, so transportation was called to pick them up. The platoon leader told us to push on but before leaving I noticed the medical aid man digging a hole which I thought was to be used for the burial of the severed portions of S/Sgt Herren's body.

The three squads began pushing forward, one on either side of my squad. We had not advanced more than a hundred yards (about twenty minutes time), before the Japs opened fire. S/Sgt Frank V Banaitis, ASN 6154059, Co I, 27th Infantry was shot through the neck and Pfc Billy R McKee, ASN 35768456, Co I, 27th Infantry, stopped to administer medical aid. Upon doing this Pfc McKee, himself was shot. Both men died almost immediately. Pfc Jessie J Worley, ASN 39706108, Co I, 27th Infantry was about one hundred feet ahead of Pfc McKee and S/Sgt Banaitis when he was hit (the injury being a compound fracture of the arm). Pfc Worley momentarily went crazy with pain and began running around in circles and yelling. He finally slumped to the ground near Pfc McKee and S/Sgt Banaitis as blood was spurting from his injured arm. We were ordered to withdraw and upon doing so, Pfc Thomas L Perkins, ASN 39706617, Co I, 27th Infantry and Pfc Delbert G McGill, ASN 38531110, Co I, 27th Infantry were killed instantly at a point

not seventy-five feet from Pfc McKee and S/Sgt Banaitis.

On returning to the spot where S/Sgt Herren was killed, I saw no one and the possibility of his being buried was out of the question.

On 14 March 1945 I made a trip up to the above mentioned location and found the helmets and parts of the equipment which formerly belonged to Pfc Perkins, Pfc McGill, S/Sgt Banaitis, Pfc McKee and Pfc Worley, but the bodies had been removed, leaving a mark in the spot where they had fallen. These five (5) bodies were so close it would have been impossible to have removed one body without seeing the others.

A helmet and a spoon lying near where Pfc Worley lay bore the markings "SD 38352279" which are not Worley's serial number or initials, but I am certain that the body found with Pfc McKee and S/Sgt Banaitis was that of Worley. I cannot explain the markings on the helmet and spoon.

SUBJECT: Misconduct of Base "M" Graves Registration Personnel.

TO : Commanding General, APO 33.
Attn: G-4.

1. It has been brought to the attention of this office that the Graves Registration personnel operating the Base "M" Collecting Point at Urdanetta have been treating the deceased personnel of this Division with great disrespect. 33d Division Graves Registration personnel report that they have frequently observed the Urdanetta detachment handle deceased in a very unbecoming manner, and have further heard them refer to the dead in a manner to show complete disrespect for the dead.

2. On several occasions it has been reported that members of the Base "M" detachment were too intoxicated to perform their respective duties, and that Division personnel have had to complete the required records for them.

3. In view of the Army Commanders policy of handling Graves Registration matters with the greatest of delicacy, and in the belief that the misconduct mentioned in Par. 1 and 2 violates every principle of human decency this report is submitted.

Capt. Mc Murdie:

HQ. AC, Q.M. APO 301,

SAN FRANCISCO, CALIF. (INTER ISLAND)

Dear Sir:

The writer would like to have information as to the American Cemetery and the location of same, where "WARREN SWANSON" is buried. To the best of my knowledge Warren who was a Cousin of mine, was in a Medical Detachment, attached to the 169th. Inf., 43rd. Division, and was killed in action either on 16th or 19th January 1945, in invasion of Luzon. I have promised his Father that I would try and locate his sons grave and to secure what information possible as to the circumstances leading up to Warrens death. Also if possible, perhaps some of his buddies in his Detachment could write to MR. ALBERT SWANSON, FATHER, whose address is OSAGE CITY, KANSAS, U.S.A.

In case you are at this time unable to furnish me with this information, would you please advise whom I may write to or contact on this matter. Trusting that you will be able to assist me in this need, I remain,

Respectfully yours,
