HAROLD ANDERSON

3152 Emmons Avenue, Brooklyn 29, N.Y.

My mame is Harold Anderson. My permanent home address is 3152 Emmons Avenue, Brooklyn 29, New York. I was born 21 July 1925 in Brooklyn, New York. I am presently a Row Boat Livery man for the Bay End Dock Company. I attended Brooklyn Technical High School for four years. I am married. I left for overseas service the 1st of April 1945. While overseas I was a prisoner of war and was interned from 24 May 1945 until 15 August 1945 at Kempai Tai Headquarters, Tokyo, Japan. At the time of my capture I was a 2nd Lt. with the 39th Squadron, 6th Bombardment Group, 313th Wing, and was stationed on Tinian Island in the Mariannas. I was a Radio Navigator Bembardier on a B-29.

I know about the following incidents that occurred at Kempai Tai Headquarters during my internment there.

Sometime in October 1945 I completed two affidavits aboard the Hospital Ship "Rescue". To whom I gave these affidavits to, I do not remember, but I gave information on conditions and treatment received at Kempai Tai. In February 1946 I completed another affidavit about Kempai Tai at the Tilton General Hospital in Fort Dix, New Jersey. During my stay at Kempai Tai I was given the usual treatment by the Japanese, such as being slapped and kicked, but I received no permanent disabilities from this treatment.

The following list contains the names of all those prisoners of war who were in my cell at one time in Kempai Tai:

Michael Boyko Dale Johnson		Wallace Moritz		
Joseph Costello	Henry Jones	Ralph Sasser		
S/Sgt. Evans	Albert Lounsbury	Oliver Thomas		
Edward Gorrie	James Macomb	Marcus Worde		
Lloyd Hill	William Mitchel	Richard Mansfield		

At one time there were seventeen prisoners altogether in my cell, but I cannot recall all their names at this time.

2nd Lieutenant George Sheridan was in an adjoining cell. I remember that Sheridan was suffering from a fever and was never quite coherent. He received no medical aid at all, although numerous requests were made to the guards to get help for us.

S/Sgt. Frank Massey was suffering from diptheria and dysentery. He was completely paralyzed and had no control over any part of his body. Requests were made to the guards as usual, but to no avail. To my knowledge, no doctors or other medical personnel ever visited Massey in the cell, and Massey did not receive any medical treatment to my knowledge.

James Macomb when he came to Kempai Tai had a fractured left arm. The usual requests were made to the guards whose names and descriptions I do not know, but as usual got no help from them. There were no visits by medical personnel and Macomb received no medical treatment in his cell. The individual or individuals who were to blame for the lack of medical treatment for Macomb is the Japanese Officer in command of Kempai Tai, because he must have known of the conditions in the cells, and it must have been him who instituted the orders at the camp.

Jult 1

. 1 -

As regards Cpl. Albert Lounsbury, all I can remember is that he had a broken ankle when he entered Kempai Tai. He received no medical treatment for his ankle. We repeatedly requested that he be given aid but nothing was ever done for him.

At one time, at night I believe, 1st Lt. Robert Fink and someone else were taken from their cell by drunken guards and beaten in the hall outside the cells. What injuries they received and why they were beaten I do not know; and I do not know the names of the perpretators or can I describe them.

While at Kempai Tai Headquarters I was interrogated approximately eighteen times. Each time I was blindfolded, therefore, I cannot identify any of my interrogators. The interrogations took place about a five mimute walk from my cell and four or five times, about a fifteen minutes distance. I went to the interrogations several times with Cpl. Lounsbury, as he had a fractured ankle and couldn't take care of himself. When high ranking military personnel were present the interrogators behaved better. The high brass were very polite, and in fact on my birthday they gave me a good meal. During my interrogations I was asked questions of a general nature. The high ranking military personnel, however, were interested in what I knew about Radar. But they knew more about this subject than I did. The only information that I got as to what our fate would be, was that in case the Japanese mainland was invaded, we would all be executed.

During my stay at Kempai Tai Headquarters whenever I had direct contact with the Japanese I was blindfolded. Therefore, I cannot possibly identify by name or can I describe any of the Japanese Officers or personnel at this camp.

State of New York)) SS: County of Kings)

I, Harold Anderson, of lawful age, being duly sworn on oath, state that I have read the foregoing transcription of my interrogation and it is true to the best of my knowledge and belief.

Edward J. Corcoran Capt., T.C. Summary Court Officer Judge Advocate General's Department - Department of the Army United States of America

.

In the matter of atrocities committed against Robert Cleveland Armstrong and fellow prisoners of War at Kempei Tai Headquarters, Tokyo, Japan.	 Perpetuation of Testimony of Robert Cleveland Armstrong, formerly Staff Sergeant, United States Air Forces, ASN 18154205.
vokyo, vapan.	

My name is Robert Cleveland Armstrong, my home address is 1512 Eunice Drive, Corpus Christi, Texas. I was formerly a Staff Sergeant, ASN 18154205. I was assigned to the 468 Bomb Group, 792nd Squadron, 78th Wing, 20th Air Force. Before I was shot down on the 20th August 1944, I was stationed at Krahapour, India. On 18 August 1944, my plane, number 403, left India. We were enroute to Tensin, China. We arrived Tensin 1500 hours, 18 August 1944. We stayed there until the morning of 20 August 1944. At 0900 hours 20 August 1944, we left Tensin enroute to Yawata, Kyushu, Japan. We arrived at our target at approximately 1600, 20 August 1944. Immediately after we dropped our bombs we were hit by flak. After about fifteen seconds we left the plane. Naturally we had taken lead before our bombs were dropped. We were flying at 27,500 feet at the time of the run. I jumped from the plane and did not open my chute until I had gone down to approximately 5,000 feet. I landed in water near the target. It took me about fifteen or twenty minutes to hit the ground. When I landed, I took my shoes off, threw away everything except my flying uniform and dog tags. I floated in water for twenty or thirty minutes and was picked up by a Japanese shore patrol. I was tied upon being picked up; but was not beaten at this time.

The following is a list of personnel aboard this plane when we were hit: The pilot was 1st Lt. E. A. Pickett, co-pilot 1st Lt. William R. Hewitz, bombardier 2nd Lt. Edwin S. Roberts, navigator Henry A. Robison, Flight Officer Mark S. Kennard, radio man Charles Kazarian, left gunner Samuel Henry, right gunner Richard R. Bishop, radar man 2nd Lt. Robert Humphery, tail gunner Samuel A. Nickson and I. I was top gunner. To my knowledge none of the personnel aboard the plane landed near me. Although after I was aboard the patrol boat, they picked up 2nd Lt. Robert Humphery. To my knowledge the only survivors of this plane were 1st Lt. E. A. Pickett, 1st Lt. William R. Rewitz, 2nd Lt. Roberts, Flight Officer Mark S. Kennard, Staff Sergeant Charles Kazarian, Staff Sergeant Richard R. Bishop, 2nd Lt. Robert Humphery and myself. The other members of the crew, I have no knowledge as to what happened to them.

After getting aboard the patrol ship and picking up Lt. Humphery, we were taken ashore. I do not know the exact location, but it was at the docks at Yawata. When they took us off the ship they started beating us and throwing stones at us. These phople who committed this atrocity were civilians, I do not remember their descriptions. We stayed on the docks for fifteen minutes. Then they moved us to a military headquarters and put us in a cell. We were interrogated the next morning at this headquarters. We were beaten severely. I was questioned and beaten three times that morning. I do not remember any of these persons' descriptions. I stayed at this headquarters approximately two days. I did not see any of the other prisoners beaten at this time as they would separate us during these interrogations.

I left this place on the morning of 22 August 1944. I was transferred by train to the Tokyo Kempei Tai Headquarters. With me were eighteen other prisoners. Included in this group were 1st Lt. E. A. Pickett, 1st Lt. William R. Rewitz, Flight Officer Mark S. Kennard, Staff Sergeant Charles Kazarian, Staff Sergeant Richard R. Bishop and 2nd Lt. Robert Humphrey. I do not remember any of the others. I do not know the circumstances of Lt. Roberts' capture. I know from hearsay that after the explosion, his lef was partially blown off. Although, as I say, this is hearsay from Flight Officer Kennard.

Juce 12

TO-152

Flight Officer Kennard told me the following pertaining to this incident: He and Lt. Roberts were captured together. He didn't say where. Kennard told me that he and Lt. Roberts were tied hand and foot. After being tied they were moved about in the streets dangling from poles. It is my understanding that at the time of this incident, Lt. Roberts' leg, which one I do not know, was dangling, being held to the upper portion of his ankle by the main leader only. Kennard stated to me that he didn't remember how long this atrocity took place as he became unconscious. Kennard also told me that when he hit the ground a soldier cut his left arm with a sword, nearly cutting the arm off below the elbow. Kennard stated to me that Roberts became conscious and talked to him just before he died in this room. Kennard told me that Roberts did not receive medical attention before he died. This is all that I know pertaining to this incident. This did not happen at Kempei Tai Headquarters.

After we boarded the train, we rode from the morning of the 22 August 1944 until we arrived at Tokyo on the morning of 24 August 1944. We were taken to Kempei Tai Headquarters in Tokyo.

I was placed in a cell. My cell was known as number 1. In this cell with me was a Japanese. I do not remember anything about him as they took him out of the cell when it became daylight. At the time that I arrived at Kempei Tai Headquarters there were no other American Prisoners of War there. The eighteen which came with me were the only Americans. The whole period that I spent at Kempei Tai, all eighteen of us were kept segregated. At no time during my confinement at Kempei Tai were there any other Americans in the cell with me.

On the first day I was assigned to Kempei Tai Headquarters, I was taken from my cell sixteen times, interrogated and beaten by guards. These guards would beat me because an interrogator would tell them to do so. I cannot remember any names or descriptions of these persons. All I know is that I was severely beaten because I would not or could not answer their questions. This happened on 24 August 1944.

All the time that I was at Kempei Tai Headquarters, I was always taken to a room in the same building, I never left this building to be interrogated. No other prisoner was ever in my presence when I was being interrogated. Some of the interrogators would be in uniform, others would be dressed in civilian clothing. I believe that some who questioned me were soldiers as they would come by our cell blocks dressed in uniforms and later I would be brought before them and they would be in civilian clothes. Each time that I would be interrogated, I would be heaten sometime during the interrogation. Here are some of types of questions I was asked: What is your outfit? Where is your base? Who is your commanding officer? How long have you been in the Air Corps? How far will the B-29 fly? How many bombs will the B-29 carry? How many guns does the plane have? Where are you from? How ald are you? Where did you receive your training? How long have you been overseas? How many raids have you made? How can we contact your family to let them know that you are alive? Give the names of your crew members and what are their positions? What is the speed of the ship? How high will it fly? Do you bomb by bombsight or by radar through an overcase?

That the T and the total T man told I manid he shot if I didn't answer

Each time I was questioned I was told I would be shot If I didn't answer the questions. We were considered special prisoners of war. They told me that If I would answer the questions they would take me to a nice prison camp. They also told me during the interrogations that if I would answer their questions I would be shipped immediately home, through the Red Cross.

To my knowledge, my plane was the only one shot down in the raid in which I took place, out of the 58th Wing, 792nd Squadron on that particular said. I stayed at Kempei Tai Headquarters from 24 August 1944 to 3 November 1944 at which time I was transferred to Omura. I was beaten every day for the first fifteen days after I arrived at Kempei Tai Headquarters; after that they didn't bother me at this Headquarters during the balance of my confinement there.

Other than this, I can not give you any other information pertaining to atrocities committed at this Headquarters.

Special Agent, CIC, Fourth Army

State of Texas) Nueces County)

SS

Perpetuation of Testimony of Robert Cleveland Armstrong, formerly Staff Sergeant, United States Air Forces, ASN 18154205.

I do not know this interrogator's name, I believe him to be a civilian. On the 3rd or 4th day that I was at Kempei Tai Headquarters, which was the 27 or 28 August 1944, I was taken to this interrogator. He was in a room in the basement of Kempei Tai Headquarters. I was taken to him about 0830 or 0900 on this particular morning. He began asking me questions. On this occasion there was five of us in the room at that time, I was the only prisoner. There were two guards, who were privates, I do not remember their descriptions, a Japanese officer, a Lieutenant I believe, I do not remember his description, the above mentioned interrogator and myself. The Lieutenant was the senior man in rank on this occasion. When I walked into the room, the interrogator spoke first, he asked "How is your health?" He told me that he wanted to ask me a few questions and if I answered them correctly that I would be treated nicely, but if I didn't, that I would be shot. He began asking questions, I would answer, the interrogator would give my answer to the Lieutenant and he would write the answer down. The interrogator asked me questions from a list he had. Each question I would answer with "Kiss my ass". This went on for about three hours. Everytime he asked a question I would give him the same answer. At first the interrogator had some difficulty in explaining to the Japanese officer what I was implying. Finally he caught on. He then started beating on the desk, and jumping up and down. Finally he told the two guards to beat me. They would beat me for five or ten minutes and stop. Then they would ask me other questions and I would give them the same answer; they would start beating me again. Each time the officer would give the order to beat me. Once in awhile, this particular interrogator would give the order himself to beat me. None of these men present were doctors or medical men. They beat me with bamboo poles on the head, in the kidney, and on the shoulder. After I went back to the cell and they were through beating me, I tried to urinate, when I did I passed blood. I did not ask for medical treatment at this time as I knew that I would receive none.

About two weeks later, I was again brought before this same person. This time we were in a different room. It was in Kempei Tai Headquarters. There were two Japanese guards, I don't remember their names or descriptions, this same interrogator, and this time two other Japanese who did not have on any uniforms but I believe them to have been persons of high rank as they had on black robes. When I entered the room with the two guards and another Lieutenant, I do not remember his name or description, the Lieutenant bowed to these two men. The interrogator asked me how my health was and started asking me questions. His questions this time were completely pertaining to the ship. At this time, they had pictures of the B-29. They asked me questions about the ship. They had the complete blueprints of the ship also. They could not read the diagrams and blueprints and tried to force me to read them for them. The interrogation lasted about two or three hours. I do not remember the exact date in September this incident took place. I was forced to kneel on my knees and sit with my hands tied behind me, on my legs. These two persons in the black robes would give the interrogator the questions to ask me. The Lieutenant would beat me whenever I did not answer the questions. He beat me with his

sword in the scabbard. He finally quit when the two persons told him something in Japanese and didn't beat me anymore on this occasion. No one was present who appeared to me to be medical personnel. I did not bleed from this beating, I was bruised.

I was never questioned by this person again while I was at Kempei Tai Headquarters. I do not know of any incidents of other Prisoners of War being questioned by this person.

Subscribed and sworn to before me at Corpus Christi, Texas, this 28thiay of October 1947.

SS

Perpetuntion of Testimony of Robert Cleveland Armstrong, forwarly Staff Sergeant, United States Air Forces, ASN 18154205.

I do not know this interrogator's name, I believe him to have been a civilian. On or about the 31st August 1944, I was brought before this interrogator. In the room at this time were two guards, I do not remember their descriptions, and myself. I believe this interrogator to be the senior man present. I was taken before him about 0900, the room was on the second floor of Kempei Tai Headquarters. When I walked in he told me that he wanted to ask me a few questions. He showed me a picture of a B-29 which had been taken by a reconnaissance plane of the Japanese. The picture was too dim for the Japanese to recognize the turrets for what they were. He could also see the "blisters", he thought them to be placements for guns. He asked me where the guns went on the plane. I would not answer him or do what he asked. He wanted to know if we wore parachutes and oxygen maske. He wanted to know the size and caliber of each gun on the ship. After about an hour of extensive ques-tioning, and I didn't answer him or draw picture on the diagram as to the location of the turrets, he gave orders to the two guards to start beating me for about two hours. After they felt that I wouldn't do as they asked, they sent me back to my cell. I did not bleed from this beating, although I was bruised.

I never had any other personal contact with him, I do not know about any other atrocity that he may have committed.

My Commission spires 6/1/49

For the MAR CRIMES OFFICE CIVIL AFFAIRS DIVISION, MDSS United States of America

of Arthur R. Backington and other a Arthur H. Backington (formarly American prisoners of war at Kempei Tai Headquarters, Tokyo, Japan.

------In the matter of the mistreatment . Perpetuation of Testimony of = 2nd Lt., A.H 0 626 605)

I. Arthur R. Beckington, being duly sworn, depose and say that the following facts are true and correct to the best of my knowledge and belief:

I was held prisoner at the Kempei Tai Headquarters for approximately four months from April 19 to August 15, 1945. I was a collmate of Lt. Hobert williams from about May 28 shortly after his crash on May 25 until about June 20 when the Japs took him from my cell. My other collectes during this time were Sgt. Arthur Gors, Sgt. F. Spacel, and Sgt. N. Sells. Williams' condition was well known to the Japs since we made continuous efforts to impress them with the seriousness of his condition and to attract the attention of higher authorities than the guards. They were sufficiently impressed to permit him to lie down which was an unusual concession. Williams complained of no appetite, but after the first few days he ate all the food provided with no trouble since there was so little of it. There was no sick menu. Williams was taken out of the cell several times for interrogation. His paralyzed ara and leg were wasting away but he was far from gone when removed from my cell. A Jap guard was thought to have said he was being taken to a "voluntear hospital".

I have identified the man known to myself and my cellmates as "Shorty". I cannot remember the names or never knew the names of any Japanese personnel at the Kempei Thi Headquarters. I cannot add anything more to my original three affidavits which were made when my memory of my war prisoner experiences were fresher.

I have been awarded a 10% disability by the Veterans Againistration for a deep forehead scar obtained in the crash of my P-51 which of course was not properly treated by the Japs.

ARTHUR R. BECKINGTON, being duly sworn, deposes and says:

I am a Lt., my serial number is U-826605, I am 23 years of age and my permanent address is 1939 North Church Street, Rockfort, Illinois. On the ARB 25th Of May 1945 while I was being held at Kempei Headquarters in Tokyo -1st Lt.Robert Williams, of the 78th Fighter Sqdn, 15th group based on Iwo Jima was placed in my cell with his left leg and arm paralyzed and suffering from flak wounds . He stated that he struck the tail of his plane when he jumped out which caused his arm and leg injury. Lt. William's was unable to stand and consequently he had to lie on the floor of the cell with only a blanket for bedding. This lying on the floor aggravated his condition and he suffered so much that sometimes he did'nt know where he was and would imagine himself back on Iwo Jima. He received no medical treatment at all for three weeks and he steadily grew worse. Finally the Japanese gave him a plasma transfusion with captured B-29 equipment and immediately returned him to the cell. It was very cold and Lt. Willdam's seemed to be having a chill and suffering from the effects of the bransfusion . We covered him with all the blankets we had and after a time shaking stopped. Other than the transfusion Lt. Williams was given no medical attention at all while at Kempei Headquarters. About a week after the transfusion he was taken away to a Hospital according to the Japanese guards statement.

This information covers all the pertinent details of this incident

which I am able to remember.

AFFIDAVIT

STATE OF CALIFORNIA : SS. City and County of San Francisco:

ARTHUR R. BECKINGTON, being duly sworn, deposes and says:

I am a Lt., my serial number is 0-826605, I am 23 years of age, and my permanent address is 1939 North Church Street, Rockfory, Illinois. I was an QRB Engineering student at Massachusetts Inst. of Technology for three years. I was shot down and taken prisoner by the Japanese on the 19th of April 1945. I was held by the Japanese at Kempei Headquarters in Tokyo from 19 April 1945 to 15th August 1945; at Ormori prison camp from 15th August 1945 to 29th August 1945.

On the 20th of April 1945 while I was being held at Kempei Headquarters in an American staff Sergeant named Peterson was captured and placed in my cell with one of his feet in a gangrenous condition. For some time he was given no medical treatment what so ever. His only bandages were some empty paper sacks which we found in the prison. I think they were old cement sacks. Finally, one of the Hapanese interrogators, whom we called "Shorty" came to the cell and painted Peterson's foot with what he said was mercurochrome. By this time two of Peterson's toes had dropped off. A Japanese doctor came and examined Peterson's foot in the latter part of April but he did nothing for Peterson's foot. On the 10th of May 1945 Peterson was taken away presumably to a prison camp. Peterson was a S/Sgt. and a top gunner on a B-29 from Saipan.

The individual who appeared to be in charge at Kempei Headquarters in Tokyo was a very small Japanese civilian whom we called "Shorty". I do not know his

name. He wore glasses and wore a mustache. This covers all the pertinent details that I can remember about this incident.

I, Martin L. Close, Jr., Agent SIC, certify that Arthur R. Beckington personnally appeared before me on the 5th day of October 1945 at San Francisco, California and made the foregoing statement concerning war crimes.

SS:

martin L Closer

For the WAR CRIMES OFFICE CIVIL AFFAIRS DIVISION, WDSS United States of America

In the matter of the mistreatment of Chester C. Babicz and other American prisoners of war at Kempei Tai, Headquarters, Tokyo, Japan. Perpetuation of Testimony of Chester C. Babicz (formerly M Sgt., ASN 16036027).

I Chester C. Babicz, being duly sworn, depose and say that the following facts are true and correct to the best of my knowledge and belief:

The general conditions of the Kempei Tai were very bad. We lived in a very crowded cell. The size 8" by 10" or near that. The cell was always dirty, buggy and crowded. We were not permitted to talk except in some conditions depending on the guard. We were under guard at all times, a new guard every couple of hours. Most of the guards kept us in tension all the time, either by making us do the Japanese set-down or stand up in the attention position. If we felt very bad we could not lay down during the daytime. They had a bright light on day and night, which was bad on the eyes. I have no permanent disability from the treatment received in the Kempei Tai. At present I am in good health.

List of men in cell:

M Sgt Chester Babicz Sgt Donald Bloodgood Sgt Walter Gordon Branstrom Sgt Oren Glenn Briscoe 1st Lt Loren E. Decker 2nd Lt. Scott M. Downing Cpl Stanley Forystek 1st Lt. Wesley Clark Halbert S Sgt Alvin Jelgerhuis 1st Lt. Robert P. Jones 1st Lt. John Charles Lamon Sgt Warren Olson S Sgt Edward F. O'Mara S Sgt Thomas William Peel S Sgt Clarence Reams S Sgt Donald E. Ryan 1st Lt. Arthur Moore Shelton 1st Lt. William Strelnik Capt. Melvin Unterman

In the case of 2nd Lt. Francis F. Jensen, ASN 0-663271. Lt. Francis F. Jensen came into the cell on the 26th day of May with the rest of the boys, I was in

mel# 32

TO-152

the cell next to his. He was in very bad condition badly burned and needed medical attention. He did not receive any medical attention while in the cell. All the cell mates made request for medical care to the guards there. A doctor did visit him, but did not get any care from him. He was taken out of the cell after a period of about two weeks. I don't know the exact date. I cannot identify the man responsible for the treatment.

In the case of Cpl Stanley Forystek, ASN 32989200 and Sgt Warren L. Olson ASN 19200063. Both of these boys were brought in the cell on May 26, 1945 around 6:00 FM. They were brought in on the same day. Both were very badly burned and looked like they had been beaten up. Sgt Olson was burned on the face, hands, arms and upper part of his body. He was very nervous and upset. Sgt Forystek was badly burned too, and was in a wild state. I believe he was out of his head. He could not be kept quiet. Neither of the boys were not taken out of the cell for interrogation. Forystek died the second day of May 27, 1945, in the cell, about 5:00 FM. He was removed from the cell right after he died. Olson was taken out of the cell after a period of about a week. He was put on a mat and carried out. Medical attention was requested of the guards, but did not receive any. The guards said that Olson was taken to a hospital. I cannot identify the guard.

In the case of 1st Lt. Robert P. Jones. I cannot give you information on this man. I cannot recall his case very well. I know he was a cell mate. Request for medical treatment was given for all the boys who needed it, so I imagine in this case too. Sorry but I cannot give you any more on this case.

Japanese Intelligence Interrogations: I was interrogated at the Kempd Tai. I was taken from the cell and walked about a block into some small room. I was blindfolded going and coming to the room. The interrogator was a man with a beard. We called him Whiskers. Wore glasses too. I was interrogated . by myself. No other prisoners were along.

I was not mistreated to get information. The questions asked were about the size of outfit that I was in and where. The number of missions flown, amount of flying time in training, etc., when I got in service, and whether the parents were living. It was a very brief interrogation. Was interrogated twice and asked the same questions. I was not told what was to happen to me.

I cannot identify any of the attached photographs sent me. The period I was a prisoner was too short for me to get a clear picture of these men I had contact with.

PERPETUATION OF TESTIMONY OF

JOSEPH E. COSTELLO

Albany Post Road, Garrison, New York

My name is Joseph E. Costello. My permanent home address is Albany Post Road, Garrison, New York. I was born 24 December 1925 in Peekskill, New York. I am at present a student at Pace Institute in New York City. I attended Haldane Central High School in Cold Spring, New York for four years and Pace Institute in New York City for one and one-half years. I am single. I left the United States 1 April 1945 and returned 16 October 1945 from overseas service. I was a prisoner of war of the Japanese and was interned at Kempai Tai Headquarters, Tokyo, Japan from 25 May 1945 until 15 August 1945. While overseas I was a Corporal, ASN #12229903, assigned to the 39th Squadron, 6th Bombardment Group, 313th Wing, as a Tail Gunner on a B-29 and was based on Tinian Island in the Mariannas.

Corporal Albert Lounsbury had a broken ankle and was cut and bruised when he entered the cell at Kempai Tai. He received these injuries when he parachuted out of his plane over Tokyo I believe. All of his cellmates requested medical treatment be given Lounsbury. But the guards to whom these requests were directed told us that Prisoners of War would not receive any medical attention while at Kempai Tai. The names, ranks, or descriptions of these guards at Kempai Tai I do not know. To my knowledge there were no visits by doctors or other medical personnel to Lounsbury's cell during his stay there. One of the guards gave Lounsbury two boards to be used as splints. He used them for a day or two and then discarded them as they were no good. The individual to blame for the lack of medical treatment for Lounsbury would be the Senior Japanese Officer in charge of Kempai Tai as he is the one who made the rules and regulations for the camp.

At one time during my stay at Kempai Tai I was interrogated in the Main Building at Kempai by two Naval Officers. Their names, rank, and description I do not know, as I was blindfolded and was not permitted to look at them. They had me fill out a form containing fifty questions. These questions were all of a general nature and no specific line was followed. Besides the two Naval Officers, there were six or seven guards and an interpretor in the room with me. I answered the questions and was not mistreated.

There were a total of sixteen prisoners in my cell; their names are as follows:

H.	Anderson	L.	H111	Α.	Lounsbury
M.	Boyko	W.	Johnston	J.	Macomb
E.	Gorrie	H.	Jones	₩.	Mitchell
R.	Grant	A.	Keniston	₩.	Moritz
R.	Sasser	M.	Worde	0.	Thomas

2nd Lieutenant Theodore Fox was in an adjoining cell to me and as I remember he entered his cell in bad shape. He was delirious and incoherent and I was told that his condition was a result of a beating he got when interrogated before being brought to the cell. All of his cellmates asked the guards to get medical treatment for him but they took no heed. There were no visits by doctors or other medical personnel to his cell. To the best of my knowledge I believe Fox did die in the cell. Who removed his body I do not know. I believe his body was removed on about the 3rd of August 1945 at 2 or 3 in the morning. The individual responsible for his death would be the Commander of Kempai Tai Headquarters.

Fuel #1

- 1 -

70-152

Frank Massey was cut and bruised some when he entered the cell at Kempai. At a later date he came down with diptheria and was very ill. His cellmates requested medical aid as usual from the guards but to no avail. No doctors or medical personnel visited Massey in the cell and he received no medical treatment whatsoever. The Commander of the camp is undoubtedly responsible for Massey's mistreatment.

James Macomb when he entered the cell had a broken arm and was cut and bruised, as a result of his parachuting out over Tokyo. All of his cellmates requested medical aid for him but as usual got nothing. There were no visits by any medical personnel to Macomb. And he received no medical treatment at Kempai Tai.

I was interrogated six times while I was at Kempai Tai. All of my interrogations were held in camp as it was a three or four minute walk from my cell. I was always interrogated alone. When high ranking military personnel were present I was treated much better. They usually asked me questions of a general nature about Tinian and the B-29. The Japanese never gave me any information of real value as to what my fate would be.

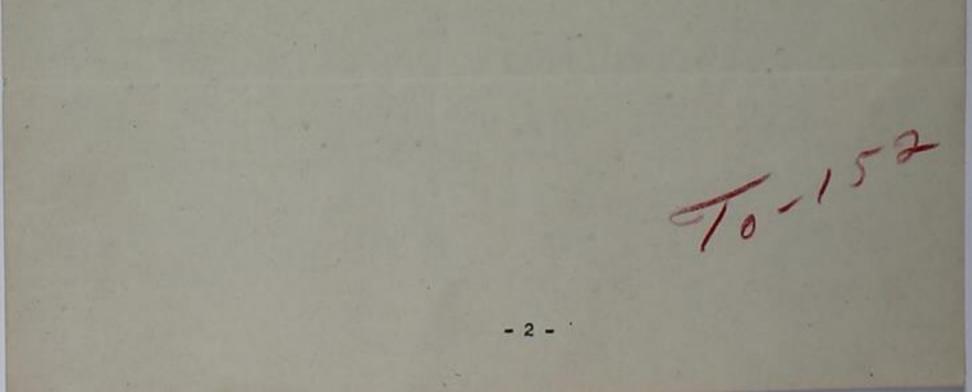

State of New York) SS: County of New York) SS:

I, Joseph E. Costello, of lawful age, being duly sworn on oath, state that I have read the foregoing transcription of my interrogation and it is true to the best of my knowledge and belief.

Subscribed and sworn to before me this 23 day of October

CONFIDENTIAL

- Q: Flease state your name, rank, serial number, age and permanent home address.
 A: Joseph Edward Costello, Corporal, Air Corps, serial number 12229903, I am 19 years of age and my home address is Albany Post Road, Garrison, New York.
 Q: On what dates were you inducted, sent overseas and returned from overseas? 25 JEC.
 A: I enlisted on 13 December 1943, was called to active service on 2 April 1944, was sent overseas on 1 April 1945 and was returned to the United States on 2 October 1945.
- Q: Were you ever a prisoner of war of any of the Axis powers?
- A: Yes, of Japan.
- Q: State the organization with which you were serving at the time of your capture and when, where and by whom you were taken into custody.
- A: I was serving with the 6th Bomb Group, 39th Squadron, 313th Wing. I was captured in Tokyo on 24 May 1945 by a group of Japanese civilians.
- Q: Where were you kept and what were your movements while you were in such custody? A: After my capture on 24 May 1945 by a group of civilians who turned me over to the military, I was placed in a civilian jail in this city for a few hours and then taken to Kempei Headquarters in Tokyo. I was held there in solitary confinement until 15 August 1945 and then I was moved by truck to Omori prisoner of war camp in Tokyo, where I remained until liberated.
- Q: Were you an eye-witness to any illegal conduct, either by way of omission or commission, on the part of Axis nationals or soldiers while you were imprisoned? A: Yes.
- Q: Describe in detail the conduct which you believe to be illegal, giving particulars as to the nature thereof, the name and identification of the victim and of the accused.
- A: On 24 May 1945 about 4:15 AM while flying on a B-29 on a mission over Tokyo,

the pilot ordered the crew to bail out. Six of us bailed out and landed in Tokyo. The pilot was able to save the ship and the remainder of the crew remained aboard and flew back to Iwo Jima. In jumping I was separated from the other crew members and landed in a small suburban area. A group of civilians, men, women and children, were waiting for me and as soon as I landed they started beating me with clubs, bamboo poles and their fists. They beat me Page Two (2) of <u>6</u> pages. J.^{F.C.}

CONFIDENTIAL

for ten minutes, when I passed out. The next thing I recall, I was blindfolded with my hands tied behind my back and I was being guided through a crowd - I believe I was being guided by soldiers who were keeping the crowd from me. I was taken to a jail which contained civilian Chinese or Japanese prisoners. I was stripped here and all my personal belongings, jewelry and rosary were taken. My clothes were returned to me, except my C-1 vest, and I was then taken into a room in this prison for interrogation and my blindfold was removed. After a few minutes of interrogation I was placed in a cell. I remained here two or three hours and then blindfolded and tied up again, placed on a truck and taken to some large public square. There were others with me but the only one I knew was Ralph G. Sasser, Corporal, a gunner, a fellow crew member who had also bailed out on this date. I was made to stand up straight in this public square and I was kept blindfolded with my hands tied behind me. This lasted about three hours. There was a large crowd and they were yelling at us. I was able to see some from under my blindfold and could see a large throng of civilians being kept a short distance from us by Japanese soldiers. "henever I was seen trying to peer from under my blindfold I was slapped across the face and this happened three times. "henever a slap was given to one of us a cheer would go up from the crowd. After this we were taken into a subway station or dungeon and made to sit cross-legged for about two hours. I received a number of kicks in the thigh while so seated and also received a hard blow with a rifle butt on my right knee. During this two hours I heard the names of the five other men who had bailed out from my ship so knew they were with me also. Then, still blindfolded, we were moved by truck to Kempei, a military headquarters, in Tokyo. Our blindfolds were removed here ALADAT (JES and four of my fellow crew members, Corporal Robert Lounsbury, Flight Officer

William Mitchell, Sergeant Michael Boyko and Corporal Falph Sasser were placed in one cell. The next night we were moved to a larger cell and Second Lieutenant Harold Anderson, the remaining crew member who had bailed out, was put in this larger cell. From the 26th of May 1945 the six of us remained in this cell until 15 August 1945. We were removed from this cell during this period only for interrogation. Lounsbury had sustained a broken left ankle when we parachuted Page Three (3) of <u>6</u> pages. <u>J</u>.E^{C.}

to earth but the Japanese did not give him any medical care during this period. We asked repeatedly that this man be treated bu nothing was ever done for him. I do not know the location of this military headquarters and prison, other than that it was in Tokyo and had a moat behind it. There were 137 men, all Air Corps personnel, both officers and enlisted men, in this prison. In my cell there were as many as seventeen men at a time and never less than fifteen men. The cell was about eight feet by twelve feet and the ceiling was about sixteen feet high, with one small window at the top of the wall near the ceiling. The cell was full of fleas and lice. We were not allowed to speak day or night and couldn't sleep during the day. We were ordered to just sit and do nothing all day and then sleep at night. We slept on the floor and each man was given a blanket. There was a small hole in the floor in one corner for a latrine. We were never supposed to wash but we would use the water given to us to wash the floor (about three or four times during the entire period) and wash our face and hands with this. We were fed three times a day. We received a small rice ball at each meal and a small portion of a green vegetable at each meal and some water, ranging from a half to a full cup of water at each meal. There were two drinking cups only for the 137 men. The food was dipped out of a bucket and put into our hands. In the latter part of July we were given a small bowl to eat out of and were given a little soup at each meal, a small bowl of rice and our half or full cup of water for each meal. I was interrogated three times between 1 June and 15 August. Puring these interrogations I was slapped around but not severely beaten. All of the men in my cell were interrogated and slapped around - I did not see these but was told by the men themselves. Two fellow prisoners in another cell were severely beaten because they were caught talking. All of the interrogations

were conducted by Japanese Army personnel except on one occasion when a Japanese Naval officer questioned me. Two men died in this prison. One is unknown to me but I heard that he had been severely burned in the crash of his plane and he was not given any medical care whatsowver. He died the day after his arrival at this prison about 26 May 1945. The second was Theodore Fox, Second Lieutenant, a P-51 pilot who was brought to this prison between the 10th and 13th of August Page Four (4) of <u>6</u> pages.

CONFIDENTIAL

1945. He was delerious when he arrived and died the night of his arrival. I do not know the medical cause for his death. All of the guards here delighted in pushing the prisoners around and spitting at us and throwing water on us.
Q: Do you know the name of or can you describe any distinguishing characteristics.

- of the commanding officer of this organization or other officer or official responsible for the actions of the person guilty of such conduct?
- A: I do not know the identity of the commandant or any of the Japanese officials or visitors to this camp.
- Q: Do you have, or know the location of, any physical evidence, such as photographs, relating to this incident?
- A: No.
- Q: Do you know the name of or can you identify any other eye-witnesses to this incident?
- A: Second Lieutenant Wallace Moritz, Master Sergeant Oliver Thermon, Staff Sergeant Kenniston, Sergeant Richard Hill and my fellow crew members I have mentioned.
- Q: Does the testimony you have given herein cover all the pertinent details of this incident which you are able to remember?
- A: Yes.

AFFIDAVIT

Perpetuation of the Testimony of CHARLES KAZARIAN, former T/Sgt., ASN 19177287, United States Army Air Corps, presently residing at 610 West 108th Street, Los Angeles, California.

310 PX 29 (faid.)

In the matter of mistreatment and neglect suffered by affiant at the Japanese Kempei Tai POW Interrogation Camp, Tokyo, Japan, during the period from 24 August 1944 to on or about 24 October 1944.

STATE OF CALIFORNIA) SS COUNTY OF LOS ANGELES)

Incl 4'

I, CHARLES KAZARIAN, 610 West 108th Street, Los Angeles, California, being first duly sworn according to law, upon my oath depose and say that:

My full name is CHARLES KAZARIAN and I am a citizen of the United States by the right of birth. I am presently residing with my mother at the above-mentioned address and I am presently employed as a parking lot attendant. I served in the United States Army Air Force during the recent war with Japan and had the misfortune of being taken prisoner on 20 August 1944, subsequent to my plane - a B-29 - having been shot down on that date during a bombing mission over Northern Kyushu Island, Japan. I was then a member of the 468th Bomb Group, 792d Squadron, 58th Wing, based at Karugpur (phonetic), India. My rank was that of Technical Sergeant and my Army Serial Number was 19177287. After the order was given to abandon plane, I took to my parachute and landed somewhere on the northern section of Kyushu Island, the exact location of which is unknown to me. I was taken into custody by about four Japanese soldiers, whom I cannot identify, and held for two to three hours at a Japanese army camp a few kilometers from where I had hit the ground; then taken quite a long ride in a Japanese army staff car to what I believe was a Japanese observation post, which was located on or near

the northern coast of Kyushu; after approximately one hour, during which I was slapped around a bit by unknown Japanese soldiers, I was taken by staff car a short distance, where I was placed aboard a rather large ferry and transported for about a one hour trip to what I believe was the southern coast of the island of Honshu. I was then taken to a large Japanese army garrison, which seemed to be a permanent military installation, where I was blindfolded and subjected to a preliminary interrogation. I cannot furnish information which would establish the identity of my interrogators.

To-152 MM

It was at the above-mentioned Japanese army garrison where I saw my first fellow crewman since bailing out of the plane - Staff Sergeant Richard Reed Bishop, ASH-31110647, right waist gunner. The two of us remained at this army garrison five or six hours, or until about dawn the following morning, when we were taken for several hours ride in a Japanese army truck to a town where we met our co-pilot, First Lieutenant William R. Rewitz, ASN 0-751195. It was in this town that we were forced to stand in the back of a truck and our blindfolds were removed long enough for the Japanese to photograph us for propaganda purposes. We were jeered at by Japanese civilians who lined the streets and looked from windows of buildings. It must have been that same evening that we left for Tokyo, which journey developed into a twenty-five hour train ride. During the train ride we met fifteen or sixteen other American airmen who had been shot down the previous day or so, but all of them were unknown to me.

Upon arrival at the Kempei Tai POW Interrogation Camp, Tokyo, Japan, we were at first lined up in a sort of courtyard in the rear of a three or four story cement building, which I believe was the main Kempei Tai administration building. During this line-up I saw two more of my fellow crewmen — First Lieutenant Ernest A. Pickett, ASN 0-677559, our pilot, and Staff Sergeant Robert C. Armstrong, ASN-18154205, our central fire control gunner. A few minutes later I was placed in a cell inside a building which had formerly been a stable and which was located approximately thirty feet from the main building. I was confined in a cell adjacent to Lieutenant Pickett. A few minutes later I was removed from the cell and escorted into the main building to what seemed to me to be a conference room approximately thirtyfive feet long and twenty feet wide, containing rectangular-shaped tables

2

and chairs and with windows in the wall of one side of the room.

I was then interrogated for a good two hours by about eight Japanese army officers, whom I cannot identify. They were interested mostly in matters pertaining to my organization, base and flight route. I think that we were among the first B-29 crewmen captured and I was not mistreated during the questioning. I was then returned to the same cell, which I continued to occupy during my entire stay at Kempei Tai.

To-152

Almost every day during my stay at Kempei Tai I was taken from my cell and interrogated; I do not believe more than three days were missed. I was a radioman and my interrogators wanted to know all about our radio equipment. Sometimes I would be asked only one question and then be returned to my cell.

Approximately the middle of October 1944 I was beaten by a Japanese officer who was interrogating me through a Japanese civilian interpreter. The officer was dissatisfied with the manner in which I was replying to his questions and he proceeded to beat me from fifty to one hundred blows about my head, shoulders and back with his cased saber. I sustained bruises on my head and body from this beating, although not serious. The officer's description is as follows: age, from twenty-five to thirty years; height, five feet, six inches to five feet, seven inches; weight, 140 to 150 pounds; build, medium to stocky; complexion, average Japanese; nice-looking for a Japanese, and one thing about him was that his hair was not close-cropped and was wavy. A description of the civilian interpreter is as follows: age, about fifty years; height, approximately five feet, one inch; weight, 110 to 120 pounds; build, slight; had graying hair and spoke English with a Japanese accent. I was slapped by him a few times during the questioning.

The beating I have just related was the climax to several days' questioning, during which my interrogators had been insisting that I agree that my plane had engaged in indiscriminate bombing over Japan. It was obvious to me that my captors were trying to fix the blame for such bombings on my pilot and bombadier regardless of whether they were guilty or not. They beat every member of my crew who was confined at Kempei Tai during this

3

period in an effort to force an admission. I did not see the beatings but I learned of them later. In addition to the fellow crewmen I have already mentioned in this statement, Second Lieutenant Robert Humphreys, Radar Operator, and Flight Officer M. S. Kennard, Engineer, were also confined at the camp at this time. During the interrogations I was told that we were going to be prosecuted before a high Japanese court for indiscriminate bombings, but this never happened.

I did not have occasion to see the other four members who made up the rest of our crew of eleven men after I bailed out of our ill-fated B-29.

To-152 Ex.

They were First Lieutemant Edwin Roberts, Bombadier; Lieutemant Henry Robbins, Mavigator; Staff Sergeant Samuel Henry, Left Gunner; and Staff Sergeant Samuel Nixon, Tail Gunner. Flight Officer Kennard told me later that Lieutemant Roberts had died on Kyushu on 20 Angust 1944, a few hours after our plane had been shot down. I did not see him leave the plane. I do not know what happened to Lieutemant Robbins. I did not see him leave the plane and I have not heard of him since I left the plane. Regarding Staff Sergeant Henry, Armstrong told me later that he did not want to leave the plane, but I do not know whether he did or not. I did not see Staff Sergeant Nixon leave the plane, but I have heard from his mother that his grave has been located in Japan, and she inquired of me as to the advisability of having his body returned to the United States.

The diet at the Kempei Tai POW Camp was so inadequate that my weight decreased from 160 pounds to approximately 120 pounds during the two months I spent there. The Japanese guards at this camp were mean to all of us, but circumstances were such that I cannot furnish information which would identify the perpetrators of specific incidents.

I have permanent scars on both of my arms as a result of rope cuts received while my arms were bound during the twenty-five hour train ride from Southern Honshu to Tokyo.

The foregoing testimony by me represents all the pertinent information regarding this matter that I am able to recall at this time.

Subscribed and sworn to before me this 3/ day of January

1948, at Los Angeles, California,

JOSEPH P. STAPOWICH Captain, TC Summary Court

Subscribed and sworn to before me this	<u>6th</u>

day of _____ April _____, 19 43, I having authority to

administer oaths.

INSTRUCTIONS

/s/ R.L. ROSE, ENS, D-V, (S), USNR

This form must be sworn to before an officer of the United States Navy or Marine Corps authorized to administer oaths, or before a notary public.

The full names and addresses of the beneficiaries must be stated carefully. If a married woman, her own given name should be stated; thus: "Mrs. Anna May Smith," not "Mrs. John Smith."

This slip should be made out and handled as follows:

Enlisted men, Navy: In duplicate: one copy to Bureau of Navigation, one copy secured inside service record.

New beneficiary slips on N. Nav. 521 shall be executed and forwarded as above in all cases of change of status of the grantor or in that of his or her beneficiaries.

In any event, payment will be made to the widow or children, if any, whether designated or not. 2-6111

IN REPLY REFER TO:

WAR DEPARTMENT THE ADJUTANT GENERAL'S OFFICE WASHINGTON 25, D. C.

STATEMENT OF DEATH

OF

GEORGE L. SHERIDAN

The records of the Department of the Army show that Second Lieutenant George L. Sheridan, 02063525, Air Corps, who gave his date of birth as 5 November 1918 died as the result of acute yellow atrophy of liver 29 October 1945, at Newton D. Baker General Hospital, Martinsburg, West Virginia.

This official statement furnished 6 April 1948, to the War Crimes Branch, Civil Affairs Divisions, Washington, D. C.

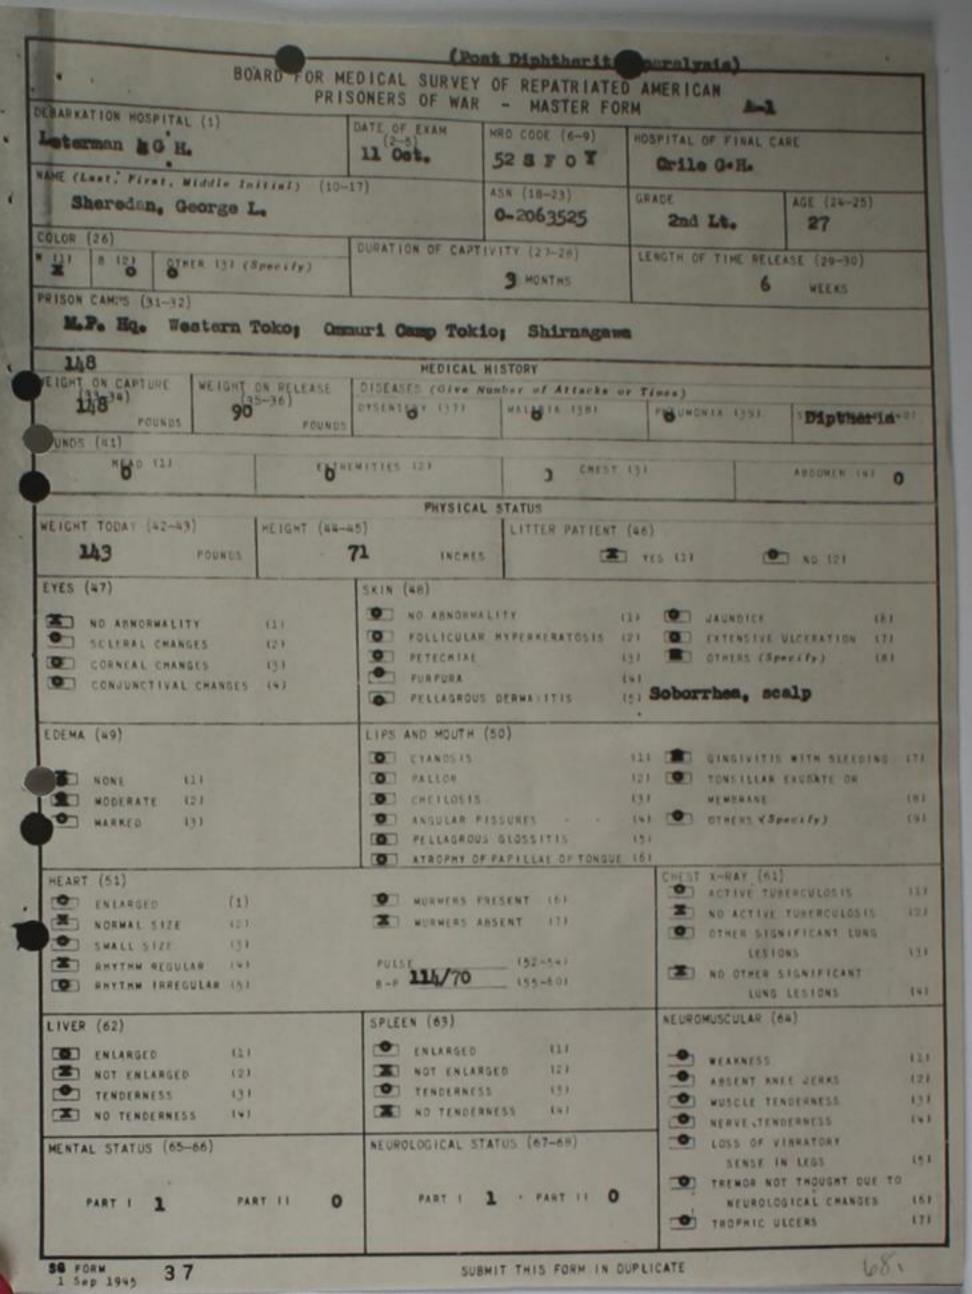

By authority of the Secretary of the Army:

EDWARD F. WITSELL Major General, The Adjutant General of the Army.

Countersigned:

Adjutant General.

WD AGO FORM (Old WD MD Form ASF, 31 May 1925, which may be used until existing stocks are athenuted.) PROGRESS NOTES Name Shoridan, Goorge L Ward 112 Grade (Complications and changes in diagnosis, with date in each case, should be entered on this sheet) During the curly evening hours of the 27th the patient bucane excitable, rostless and disorientel. The jaundice has increased markedly, patient is more constose but not excitable. Respiration, pulse and temperature increasing. Venitus blackish-brown sterial which on inboratory studies proved to be blood. plassa, glucose, liver, large dones of 9 complex and thin the Parentaraly is of no a ail. He is hemorrhading within the stro-intestinal tract in spite of adequate deses of vitamin K. The outlood is grave. orge F. Ferakos, Captain, 10 29 Uctob - 1945 fatient is in a deep comm. Jupils dilated. Syeballs soft. forgerature elevated last night to 196. Julse rapid and of poor quality and volume. Blood pressure is dropping. Respiratory executions increasing radidly. Lungs are roist with rhonchi and rales throughout. Liver not palpable. Abdomon distended and contains acetic fluids. There is no evidence of peripheral adema. Urimary incontinence has stopped. No visible petechial homorrhage on skin or membranes. Blood-sugar this morning is 18mgm per 100cc of blood. Uren mitrogen is 3.7mgm per 100cc of blood. latient is in deep comm. Respirations are rapid. Tinger tips are definitely cyanotic. Temperature is increasing rapidly. Lungs are becoming ede atous and apparently patient is filling up and developing a terminal brencho-pneumonia. About 1625 the patients condition became progressively morse, the temperature rose to 105 and at 1630 hours patient was pronounced dead. Final Diagnosis: 1. strophy, acute, yellow of liver secondary to acute hapatitis. 2. Polyneuritis, caused by diphtheria, rocovering. 3. Poot drop, mild, secondary to 2. LOD: 1, 2 and 3 - Yes. S. P. P. George I. Terakos, Capt. MC

U. S. S. DUNNER HILL (CV17)

The fourth sweep took off at 1055. These planes strafed a convey of five ships ton miles northeast of O'Shima, and numerous smill craft along shore of Sagami Wan. Only one enemy plane was observed airborne, about ten miles northeast of O'Shima, and it was shot down. One VF piloted by 1st Lt. F. P. DROWN, USMC, failed to return. The pilot abandoned his plane about sixteen miles from Sune Saki lightheuse, but no information is available to the reason.

At 1440 a strike of 21 VF, 14 VT, and 13 VL was launched. Target for this flight was the Ota airframe plant. Weather over the target for this flight was good. Earlier flights had been severely hampered by heavy cloud cover over the primary target areas, and had been forced to strike secondary targets.

Fifteen to twenty enony fighters followed the flight from the coast to the target area. And out again. One "TONY" and one "TOJO" were shot down.

Three planes failed to return, one VF disappeared while evading four attacking "ZERES". One VT reported a hit in the engine, later reporting he was being jumped by four "TOJOS". One VE dropped out of formation with engine smoking, and pilot evidently abandened plane in energy territory.

The weather over the task force was completely overcast throughout the day with occasional rain squalle.

Although several borie contacts were reported during the day; and a few planes were shot down by the combat air patrols at a distance from the ships, no energy plane attacked the task force.

The last flight completed landing at 1923. At 1914 set course 090° T, zigzagging, speed 20 knots, retiring to the eastward. At 2345 changed course to 210° T.

17 February 1945 (-10)

SUNRISE: 0719

SUNSET: 1819

Positio	n: <u>0300</u>	1200	2000
Lat.	34° 24' N	34° 01' N	34° 46' N
	141° 16' E	141° 53' E	141° 48' E

Steaming on course 210° T, in area east of launching point for strikes against Tokyo area. At 0300 changed course to 190° T., and at 0100 changed course to 255° T.

Strikes during the day consisted of one fighter sweep and one strike group. Further operations had to be cancelled on account of bad flying conditions in the operating area, with heavy cloud cover, low ceiling, and squalls.

The sweep of 10 VF was launched at 0715. Thiery Jap fighters were engaged Northwest of Tokyo, eight were damaged.

(b) Rescue Operations.

151-E. Plane apparently hit by AA while strafing shipping in Sagami Wan, Honshu. Was seen in water without raft. Location transmitted to lifeguard submarine. No further contact.

PART VI

в.

F. While escorting photographic mission accompanying strike to Makajima Ota Aircraft-Factory, the flight was jumped by 4 Zekes and this plane was not seen again.

G. Leaving Target (Nakajina Aircraft Factory, Ota, Honshu) plane was seen smoking. Filot reported being hit in engine and lagged behind strike. About 20 minutes later, he reported, "Being jumped by 4 Tojos, will try to land in enemy territory". He was not seen thereafter.

H. On same mission as G above, plane dropped out of formation during retirement and appeared to be attempting a water landing in a lake north of Tokyo. No further details.

J. Plane on Fighter Sweep #1 was hit by AA. He was able to get back to the vicinity of the force, ditched successfully alongside a DD and was picked up.

M. Plane hit by MA while on strike mission to Nakajima Engine Factory (Tama). A good water landing was made in the picket screen of the Task Force and the pilot and crewman after gotting into their raft, were picked up promptly by a destroyer.

Q. Plane hit by AA while on Fighter Sweep to Airfields east of Tokyo. He made the coast on the retirement but ditched with a badly snoking engine about 50 miles bearing 150 from Inubo Saki Light, Honshu. The location was transmitted to the lifeguard submarine. The section leader circled and in attempting to break out his own raft to drop to the pilot in the water, contact was lost and was not regained. A subsquent search by 5 planes to the li. t of daylight was to no avail..

R. Plane hit by L. over Okinawa Ji.a. Pilot ditched plane but was unable to find the release mechanism on the rubber raft. However, a VF overhead with a Dumbo Tank dropped a raft to the pilot and he inflated it and drifted to a reef at the south end of Okinawa. A BB Kingfisher was dispatched and landed near the reef. The pilot paddled out to the plane and was rescued.

S. Plane hit by AA over Okinawa Jima. He returned to vicinity of force, bailed out and was picked up at once by a destroyer.

The following personnel casualties occurred during this period. Their injuries are justifiable to receive the Purple Heart A ard:

2-17-45: RICL, Uscar J., ARIGE, USN. Squadron VB-84. Radioman-gunner of an SB2C who was struck on the neck by fragments of enemy anti-aircraft gunfire while on a raid on enemy installations.

2-17-45: Volici, Frank (n) Jr.; 1st Lieut. USLER, Squadron VIF-451. Pilot of an F4U, received : laceration of the right leg and occipital region, when his plane was damaged by enemy gunfire which resulted in loss of control of the plane, forcing the pilot to make a crash landing aboard this vessel.

3-1-45: LOGUE, John Joseph 2nd Lieut, USLCR. Squadron VIF-451. Pilot of an F4U received a laceration of the nose when his plane was struck by enemy shell bursts and fragments struck his on the nose.

The follo ing is a summary of personnel missing in action during the period covered by this report.

2-15-45: BR. 1, Forrest Plympton Jr., 2nd Lieut. USMC. Soundron VIF-451. Pilot of an F4U Bu No. 62631 that failed to return from a raid on enemy installations. He was seen to take a water landing 15 miles from the target area.

2-16-45: Fallie, Allian Martin, 2nd Lieut, USLCR. Squadron VMF-221. Pilot of an F4U that failed to return from a raid on energy installations. He was seen to crash into a countain-side.

2-16-/.5: Pullier, Arthur (n), Ensign, (AI)L USMR. Squadron VI-64. TARVER, George Lee, Jr.; ARLGe. USN: Squadron VI-64. MRL, Jack David, AOLGe, V-6, USMR. Stuadron VI-64.

Pilot and crew members of a THE-1C that failed to return from a raid on energy installations. They were last seen making a crash landing on energy territory with four energy fighters in pursuit.

2-16-45: Dia Millers, Richard (n), Ensign; (AI)L; USHR. Squadron VT-84. FAULISSEN, Lalter Leenard Jr., ARD.c. 7-6, USHR. Squadron VT-84. ADDING, Edward Vincent, AODSe, V-6, USHR. Squadron VT-84.
Filot and crow members of a TEL-10 that failed to return from a raid on energy installations. They were last seen pulling a may from the formation to attempt a crash landing on energy territory and being persued by energy fighter planes.

2-25-15: JAF MRSON, Curtiss Lee, Ensign, (AI)L, USAR. Squadron VI-3.. Pilot of an PLU that failed to return from a raid on enemy installations. Has seen to make a mater landing close off shore to enemy territory.

CONT TINL

U.S.S. RANDOLPH(CV-15)

-

Subject:

action Report for Period 10-28 February 1945 - First and Second Tokyo Carrier Raids; Iwo Jima Landing Air Support.

1115

Results of air operations for the day:

- (a) Enemy aircraft destroyed in air
- (b) Enemy aircraft damaged in air - 11
- (c) Enemy aircraft destroyed on ground 33
- (d) Enemy aircraft damaged on ground

(c) Three hangars on Mawatari airfield burned.

17 FEBRUARY 1945 (Sunrise: 0718; Sunset: 1819).

At 0654, launched VF sweep 1, with 18 VF and 2 VF photo planes. 8. Target: Mawatari, Hyakurigahara, Ishioka, Mito South, and Kanoike airfields

and photographed these fields. Weather conditions at the ship were very un-satisfactory with many heavy rain squalls, occasional sleet, low clouds and mist. 9. At 0715, launched sweep 2, VF. Heget: Nito South airfield. At 0901, launched strike 1, comprising 201 VF. Heget: Nito South airfield. Tachikawa Engine Plant. This attack in spite of anverse weather conditions, was well executed and very effective.

Weather steadily deteriorated during the day with many rain 10. squalls, sleet, low ceilings, and poor visibility. Weather conditions became so bad that afternoon missions had to be cancelled.

During the operations this day, the ship maneuvered in approx-11. imately the same area as on the preceding day. Results of this day's operations:

- 6
- (a) Enemy aircraft destroyed in air
 (b) Enemy aircraft damaged in air - 2
- (c) Enemy aircraft destroyed on ground 3; damaged 7.
- (d) Tachikawa Engine Plant heavily hit, one hangar at Mawatari burned.

Immediatley after recovery of the last plane, retirement on 12. southerly course at 20 knots was begun.

No hostile aircraft approached the group closer than about 20 13. miles. All attempts of Jap aircraft to scout or attack were frustrated by the combat air patrols.

18 FEBRUARY 1945 (Sunrise: 0712; Sunset: 1836).

During the night of 17/18 February, the force retired to the 14. southward, at 0335 changing course to 215°(t) to pass between Nishino Jima and Sofu Gan. At 1054, commenced launching strike comprising, 20 VF, 2 VF photo,

239

Subject: Action Report for period 10-28 February 1945 - First and Second Tokyo Carrier Raids; Iwo Jima Landing Air Support.

PART VII. PERSONNEL PERFORMANCE AND CASUALTIES.

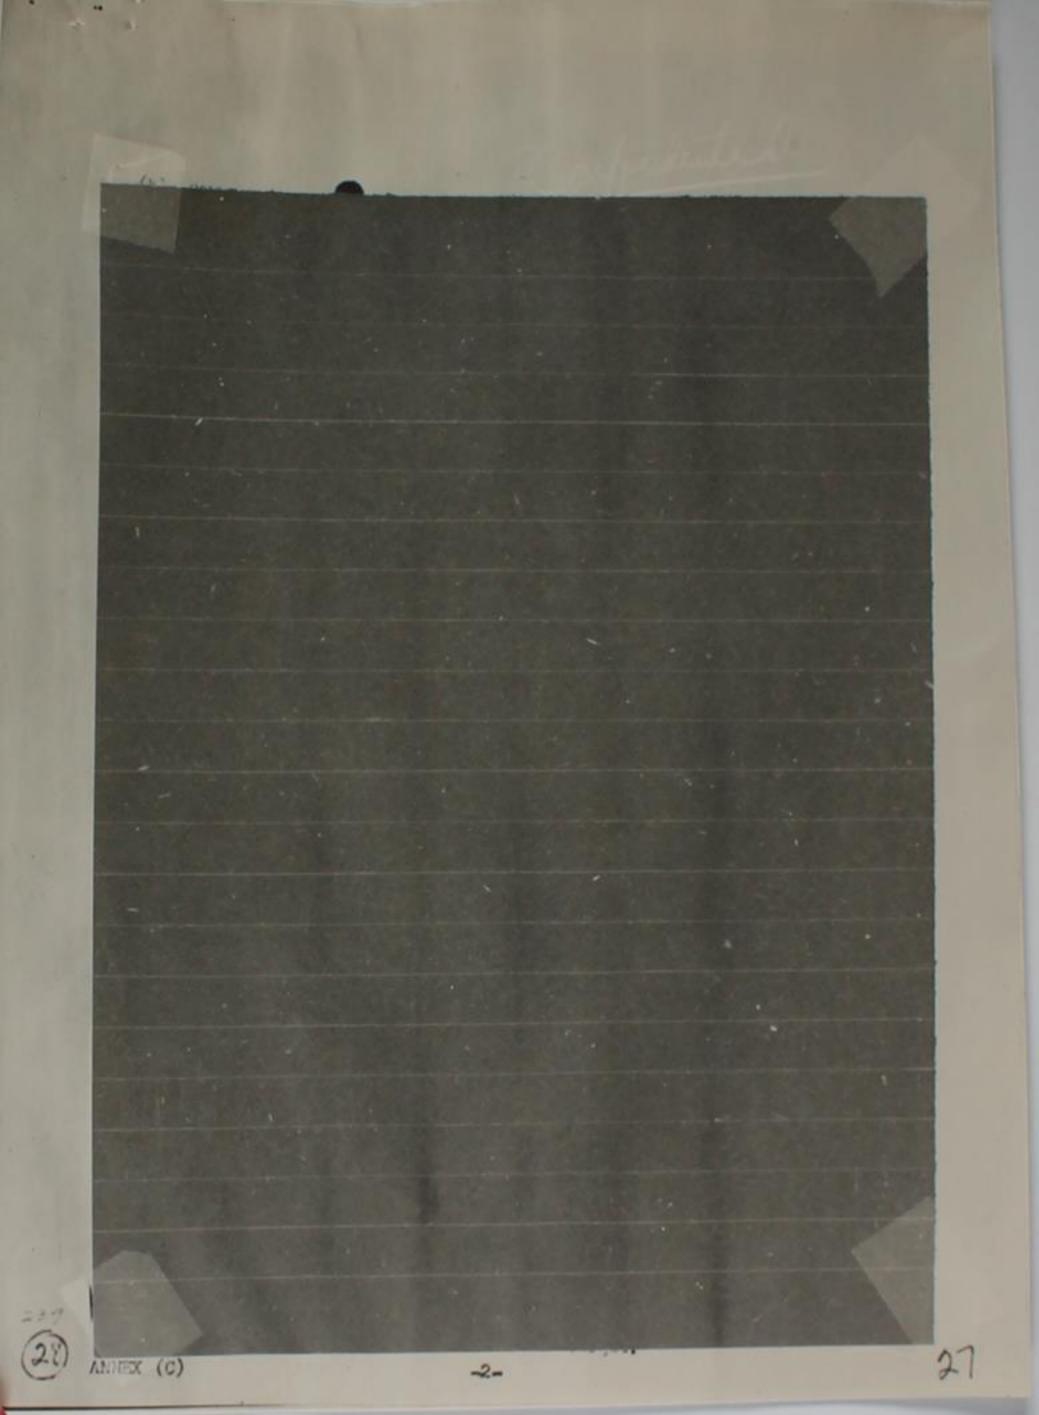

1. Personnel of the ship were not subjected to enemy fire. Condition One was assumed on strike days, but the majority of stations were at ease during these periods. One operational fire due to a barrier crash was quickly and effectively handled by flight deck personnel. During an attempted or feint night attack at 1846 on 21 February by enemy aircraft fire was opened quickly and although no target was destroyed, the performance of battery personnel was good. Performance of personnel on first war cruise was highly satisfactory.

2. A copy of the report on personnel casualties submitted to the Bureau of Medicine and Surgery is appended.

3. Further details regarding casualties may be found in Annex "C" as indicated by date and time of launch below:

NAME	DATE	TIME OF LAUNCH
Lieut. B.P. SEAMAN, Jr.,	16 Feb.	0830
