Tokyo DNB despatch to German press dated August 16 stated that Japanese War Council in the Philippines condemned to death 4 persons accused of attempting last July to murder Jose Laurel, and that sentences have already been carried out.

Despatch does not identify any of the accused, but it may be significant that report was released shortly after Japanese authorities publicly associated Lt. Strong (Lt. Comm. Hugh Straughn?) with alleged attempt on Laurel's life.

Enclosure No. 2 to Despatch No. 9742
of November 1, 1944, from the American
Legation at Bern.

Translation

Outline of the case.

Joe Bill Chastain, 24 years old, American, P.O.W. (Sergeant of the landing party). Formerly belonged to K company, No. 3 battalion, No. 4 regiment of the American landing party. Mukden P.O.W.

Ferdinand F. Meringolo, 21 years old, American, (3rd class warrant officer of the navy) P.O.W. Formerly belonged to American submarine tender "Canopus". Mukden P.O.W.

Victor Palliotti, 23 years old, American, (Corporal of the landing party) P.O.W. Formerly belonged to B company, No. 1 battalion, No. 4 regiment of the American landing party. Mukden P.O.W.

1. Chastain stole 2 cleavers, owned by the company, at a kitchen of a certain company at Shuringai Daitoken, Mukden, while he was working there on duty of cooking in two times on unknown dates in March and May 1943, having his criminal intent continuously.

2. Meringolo stole a knife, owned by an unknown person which was being kept on a shelf in a group called "Internal Affairs", belonging to the afore mentioned P.O.W. camp on about June 19, of the same year.

The above-mentioned three men, carrying the weapons which they had prepared for the purpose of escaping, met at a low depressed ground at the side of an empty warehouse in the rear of a medical room of the camp at about 10 o'clock p.m. on the 21st of June 1943 and escaped, creeping through a stockade of barbed wire. While they were fleeing on foot in the North-West direction, aiming at the U.S.S.R. territory, they became hungry and the three prisoners hand in hand called at the residence of Sofu Tokugawara (31 years old), an assistant police sergeant, chief of police sub-station at a village called Liang Chia Tzu, without knowing that he was a police official, and asked him for food. However, the police official harbored suspicion and made various investigations. Then, they told him a lie indicating with all kind of gestures that they were German pilots and they, the three, were going towards Japanese forces, as their plane had dropped on their way to their home country from Japan and 3 of their comrades were killed on the spot, thus

trying

trying to patch up the occasion. They were further requested by the said assistant police sergeant to accompany him to the actual spot where the plane had crashed and unavoidably they complied with his request.

The 3 prisoners left the village on the same day a little after 4 o'clock p.m. together with the said assistant police sergeant and two Mongolians, Pa Tu tien (56 years old) and Kao Feng (56 years old), members of a "self-warning party" of the said village.

While they were on their way, Chastain encouraged both Meringolo and Palliotti to kill the assistant police sergeant and the 2 Mongolians. Both Meringolo and Palliotti agreed to it at once. Thus, they plotted together that Chastain would kill the assistant police sergeant, Meringolo Pa Tu tien and Palliotti Kao Feng shan.

When they came near a sand hill at about 2 kilometers in the south-eastern direction of the village at about 5 o'clock p.m. on the same day, Chastain suddenly thrust the cleaver which he had with him in the abdominal region of Sofu Tokugawara, the above-mentioned assistant police sergeant. He further hit several times the abdominal regions of the police official (who fought against his assailant) and wounded him fatally.

At the same time, Meringolo attacked Pa Tu tien and thrust the knife he carried with him in the back and breast of the man, causing him to faint on the spot.

As the result of this Sofu Tokugawara died on account of punctured wounds at the abdominal region at about 7:30 o'clock in the afternoon on the same day at Yang Chia Tzu, Pu Tun Ha Erh Ken Nu Tu Ke. However Pa Tu tien suffered only punctured wounds at his breast and back, which might take about 3 weeks to be cured.

As soon as Kao Feng shan saw the above referred fight he ran away promptly and with the help of villagers, he at last arrested Chastain, Meringolo and Palliotti.

The above-mentioned facts are confirmed by:

The statements of the respective prisoners in the court-martial;

the documents of hearing of reasons of arrest by the army judicial police official from Hsieh Chi Ao Ssu Hai;

the protocol on examination of witnesses and proofs which was made by the above referred official;

the protocol of the above referred official on investigation of Kao Feng shan as a witness;

the detailed account presented by Haruo Yonemoto, chief of the section of P.O.W. labor of a certain company in Mandohoukuo;

a document on post-mortem examination for Sofu Tokugawara and a diagnosis for Pa Tu tien by Shiro Yamamoto, Army surgeon-lieutenant;

confiscated Manchukuo map, a magnet and a knife;

proof of previous attempts made by Chastain to escape.

According to the above, the three prisoners were executed on July 31, 1943.

TRANSLATORS NOTE: The Japanese word "Ijyo" as used in the original text means "the above" or "before going".

Ep (E.P.) WILSON, listed as an American Prisoner of War who was killed in the Thai Prisoner of War Hospital has no identification number and his name is preceded by the Japanese work "Heicho", the exact meaning of which is not clear but which may mean the head of a company or of a group of enlisted personnel.

It is noted that there are only fifteen Australians listed under the item of wounded at the Prisoner of War Camp, although the text of the telegram indicates there should be seventeen. The total of fifteen is arrived at as a result of assigning identification numbers to each of the individuals listed.

statistics. If there is additional information desired about these men please communicate directly with me at my Penna address. I am willing to write letters to nearest of kin if they will communicate with me requesting information.

There were 30 men who died during the last 13 days on board our prison ship called the Benjo Marn - far lack of a better name. About 5-7 additional men died during the 26 other days we were aboard, the decrease being due chiefly to improved conditions for the sick men. as a result of our (the medical officers) pleading for better conditions. ^{still POW} ^{US/362} ^{P.I. #1}

Two individuals known dead are ^{Clarence J. 0311442} ^{Lloyd H. Jr.} Mjr. Strand U.S.A. (MC) and Capt. Sabin U.S.A. Buried at sea. ^{Halverson a Ph.M. died} ^{10-12-44. P.I. #1} LT. Col. Gaskill (MC) U.S.A. was in C. of the detail. He must have complete records of those who died enroute Farmosa from Manila. Conditions were so abominable on the ship that I wonder any of us were able to live for these 39 days, in the heat and filth. If a complete report of conditions on that ship has not been recd by your dept. I would be glad to make as detailed a report as is possible at a later communication.

Robbery, murder, suicides, fanatical ravings of dope drugged officers and men, is not a pretty picture and it is not worth repeating unless your department really wants a lot of information on the sordid side of prisoners character. Perhaps that information is of value but I do not wish to report that sort of information about my fellow officers and men unless it is particularly requested and desirable that it be known. I feel that

~~The~~ crimes of officers and men while they were in prison will not be properly dealt with and I do not care to be involved in any Court Martial proceedings that might result from information I might produce.

I do not know what the policy of the Prisoner Marshal General is to be regarding irregular practices during Prisoner of War days. I am curious about it and would welcome information concerning this subject either in a personal interview or by letter.

I entered the United States Navy in 1938 - not knowing whether I would stay in the service or not. And had to make up my mind during the years that followed. My early years of service still left my decision in question. The Batuan - Carugidar campaign and the part our Navy played in that area, plus the fine standards that Navy officers and men have maintained even under the temptations of prison, with few exceptions, has convinced me that it was and is a worthy honorable service. I have done all in my power, in my small sphere of influence to maintain those high, honorable standards, even in prison under the Japanese. Any report that would bring dishonor to the service - either Army or Navy; I do not want to make. But if - by making an unflinching report the high standards can be maintained I am willing to make such a report.

Very Sincerely
Robert B. Greenman

RELEASE

FOR RELEASE SUNDAY, JULY 20, 1947

IDENTIFY 204 AMERICAN SOLDIERS
BURIED BY JAPANESE AS UNKNOWNNS

Identification of an additional 204 American soldiers who died in the Philippine Islands while confined in a Japanese prisoner of war camp was announced today by the War Department. The men had previously been listed as unknownns.

The identified soldiers were among a group of approximately 1600 prisoners who were buried in the Camp O'Donnell Prisoner of War Cemetery on Luzon, Philippine Islands. In May 1947, the War Department announced that positive identification had been made of 353 other soldiers who were among those buried in the cemetery.

All remains have now been disinterred and reburied in the United States Armed Forces Cemetery Manila #2, within the city limits of Manila.

Establishment of the identities of the unknownns was effected in the Office of The Quartermaster General after more than a year's study of material related to burial of the men. Extensive field work in the Philippine Islands preceded the study. In each case the facts which led to certain identification were passed on by an Army Board of Review before the identity of the unknown was certified as having been established beyond any possible doubt. Major General T. B. Larkin, the Quartermaster General of the Army, has notified all next of kin concerned.

Evidence obtained from liberated prisoners of war, comparisons of dental charts which were authenticated by a Dental Corps officer, and records of Army officers who survived the period of imprisonment at Camp O'Donnell under the Japanese, proved of value in making certain identification.

The names of the 204 identified and the city and state of residence are as follows:

Mrs. Sofia Duena
Dumangas
Iloilo, P. I.

Dear Mrs. Duena:

Your husband, Dominador Duena, Native Fireman first class, United States Navy, has been carried on the official records of the Navy Department as missing in action.

It is with deep regret this Bureau informs you that your husband died on 27 June 1942 while being held a prisoner of war in O'Donnell Concentration Camp, Capas, Tarlac, Philippine Islands. This information concerning his death was obtained from a death certificate issued by the Commonwealth of the Philippines, Army Headquarters, APO 500.

The Bureau deeply regrets its inability to supply further information at this time. Should further details be received concerning the death of your husband, they will be forwarded to you by the Navy Department.

Pursuant to the provisions of Public Law 490, 77th Congress, as amended, entitlement to pay and allowances extends to the date the evidence of death was received in the Navy Department. The date in this instance is 31 October 1945. The various agencies of the government having jurisdiction over the settlement of death benefits in cases involving deceased naval personnel, are being informed. These agencies will forward the necessary forms to be used in order to file claims for any benefits to which you may be entitled.

The Navy Department extends sincere sympathy to you in your great sorrow and hopes that you may find comfort in the knowledge that your husband gave his life in the service of his country.

By direction of Chief of Naval Personnel.

Sincerely yours,

H. B. ATKINSON

12 October 1945

Mrs. N. H. McGibony
Greensboro, Georgia

Dear Mrs. McGibony:

Your son, Lieutenant (junior grade) William Noel McGibony, United States Navy, has been carried on the official records of the Navy Department as missing in action in the Philippine Islands.

It is with deep regret that this Bureau now informs you that your son died on 31 March 1944 while being held a prisoner of war at Tan Tosey, Amboina, Netherlands, East Indies. This information concerning his death was obtained from a member of the United States armed forces who has since been liberated from enemy held territory.

The Bureau deeply regrets its inability to supply further information at this time. Now that the Japanese have surrendered, additional information is becoming available daily. Should further details be received concerning your son, they will be forwarded to you by the Navy Department.

Pursuant to the provisions of Section 2 of Public Law 490, 77th Congress, as amended, entitlement to pay and allowances extends to the date the evidence of death was received in the Navy Department, which, in this instance, is fixed at 2 October 1945. The various agencies of the government having jurisdiction over the settlement of death benefits in cases involving deceased naval personnel are being informed. These agencies will forward directly to you the necessary forms to be used in order to file claim for any benefits to which you may be entitled.
