Unit History of 803rd Engineer Aviation Battalion Final Report (1) [January-February 1946]

Unit HISTORY
803rd ENGINEER AVIATION BATTALION
APO 75

28 August 1946

NOTE: The following history is compiled from files and correspondence obtained from various sources from Westover Field, Mass., to the Phillipines. This is by no means a complete and concise report since there are several gaps created by the confusion of the first days of the WAR. However, considerable time and effort has been expended and it is felt that the following narrative attached annexes will portray a fair account of the 803rd E.A.B.

DAVID P TOLLIS
1st Lt., CE
Executive Officer

1. Activation and Training.

The 803rd Engineer Aviation Battalion was born of the 21st Engr Regiment (Aviation) at Westover Field, Mass 8 July 1941. (Annex #1 gives activities of the 21st Engineers and events leading to organization of Engineer Aviation Battalions.) Prior to this date plans had been made to organize the 803rd Engineer Company. However in May 1941 the decision was altered and the 803rd became a Battalion, (ANNEX #2), the first aviation Engineer unit to be activated as such for the specific and sole purpose of serving the Army Air Forces. It was commanded by FRANK E. FRIES, Capt., CE. The training problem was acute since there was no opportunity during this early period for these units to receive the intensively specialized training of the kind available to later organizations which came into being under the aegis of the First Air Force. There were two reasons for this. The country was not yet at WAR and civilian industry was not yet mobolized to assist in the training of Engineer specialist. Secondly, the command had as yet no tested objective to assist them. The documents in Annex # 1 attest to the problems confronted and excellent results obtained by Captain Fries. Included is a rather plaintive letter from Capt. Fries dated 6 August 1941 which elequently foreshadows the training liaison between industry and the Army Air Forces:

"Dear Sir:

With respect to the Seaman-Pulvi mixer, most of the Officers have been fortunate enough to see this machine in operation inasmuch as several of them were being used on the soil-cement apron at Windsor locks.....Mr Lorenzi of the American Bitmuls Company was here yesterday to conduct a school in asphalt construction for

Unit History of 803rd Engineer Aviation Battalion Final Report (1) [January-February 1941]

us and Mr Chappell of the Portland cement Association is heretoday. Conducting a school in soil-cement construction... The equipment is arriving from time to time. Today concrete mixers, and four carry-all scrapers arrived. We find plenty to do to keep us busy. We are attempting to get all possible mailing lists for all types Of Technical publications, and these have been arriving very satisfactory."

/s/ Frank E. Fries
FRANK E. FRIES
Captain, CE
803rd Engr. Bn.(Avn)(Sep)
Commanding

The struggles of the 803rd Engineer would lead to a vast set-up of Engineer schools, some within the Army, and others with cooperating Engineer equipment firms which not only would train personnel but would supply from their own rank, enlisted specialists. During August and September the Engineer section bent every effort to supply the 803rd with every type of material and publication to be used for indoctrination is their essential mission. Almost every letter begins with the words, "Transmitted herewith are the following publications," by a list of never fewer than 2 and in some cases as many as 10.

2. Overseas Alert and Activities.

On September 17th, 1941, this unit was alerted for shipment overseas. A detachment of it which had been transferred to St. John, Newfoundland, for work on Air bases, remainded and they were replaced by similar personnel from selectees. By the first of October the unit had reached California and arrived in the Phillipines in November. It was this unit that became one of the active fighting units in the campaigns of Bataan and Corregidor. Those who survived were made prisoners of War by the Japanese Government. The unit was the first battle tested Engineer Aviation Unit.

The history of the 803rd stands still as far as Army records can tell but their work done in the Phillipines did not; following is a letter from Venancio R. Baria, 2150 Herran St., Paco, Manila, P.I. (Mr. Baria was at this time a civilian employee of the Army Air Forces in Manila. At the outbreak of the War, however, he was employed as a construction foreman by the Contractor, Pacific Naval Air Bases, on Bataan. In the early part of January, 1942, Mr. Baria was sent to Bataan Air Field, which was situated approximately six kilometers inland from the southwestern tip of the peninsula. He supervised the digging of the drainage ditches both on the airdrome and on the adjacent airdrome at Cabcaben. The earthmoving on the later airdrome was done by a detachment of approximately 50 officers and men from Headquarters and Service Company of the 803rd Engineer Aviation Battalion.)

Unit History of 803rd Engineer Aviation Battalion (Sep) [January-February 1942]

"To construct the landing strip at Cabcaben the detachment of the 803rd Engine Engineers was forced to level the barrio. The surrounding country was mountainous and heavily wooded. The only equipment avialable to the Engineers, exclusive of trucks, consisted of three large bulldozers, one road scraper, and one small shovel. The small airdrome was put to use immediately upon completion. Using it as a base, six P-40 "Warhawks" were able to give continous tactical support to the American forces engaging the enemy to the north. Two nights before the airdrome was captured by the enemy, one of the places crashed on the strip. Two of the others never returned to the base, and those remaining were demolished before they could fall into the hands of the enemy."

"The airdrome was guarded by six light tanks of the U.S. Army unit stationed nearby. At night these tanks would line up along the center of the strip to prevent enemy planes from making a surprise landing. Other U.S. Army troops stationed in the area included a battalion of Anti-aircraft artillery and Air Corps service personnel."

"On the night of 8 April 1942 rumors of the surrender of the American forces on Bataan became widespread among soldiers and civilians at both the Bataan and Cabcaben Airdromes. No one, however, made any effort to escape from the advancing enemy. At 0900 hours, 9 April 1942, Japanese tanks were seen approaching along the highway that passed the two airdromes. As they approached, the American soldiers, including the 803rd Engineers, strolled down to the edge of the highway. The Japanese were apparently surprised. They were in good humor, happy and excited in their moment of Victory. They assembled the American Soldiers and Phillipine Scouts present into two seperate groups on the highway. They disregarded the Phillipine Civilian employees. The soldiers, however, were required to assume sitting position, legs crossed, and hands clasped above the head. They were forced to remain in this position approximately six hours, until 1600, when units of the Japanese infantry and horse-drawn artillery appeared. These troops were in no such good humor as their predecessors. They repeatedly struck and knocked down their American prisoners with rifle butt and fist as they marched the prisoners off to an unknown detention camp. At no time during the day were the prisoners given food or water."

This narrative by Mr. Baria is indicative of several others that could be related concerning the missions of the 803rd during the Bataan Campaign. The unit was committed to all phases of action including support to infantry. (See ANNEX #3 for committments, commendations and Field Orders)

(Unit History of 803rd E.A.B. CONT'D)

3. Reactivation

After the fall of Bataan and Corrigedor, history of the 803rd becomes dormant. At this writing, it is not possible to ascertain the status of the unit insofar as the War Department is concerned during the interim between the fall of Bataan and December 1945. Occassionally an Unofficial report is heard concerning the fate of the 803rd's gallant Officers' and men..... One Officer and two enlisted men died in the infamous death march; five died of malnutrition and disease at Cabanatuan, and a few who survived the torture of imprisonment in Japan, returned to their homes after Victory.

On 2 December 1945 the 874th Aviation Engineer Battalion (Airborne) was inactivated and redesignated as the 803rd Engineer Aviation Battalion. Reactivation ceremonies were held at the parade grounds, AFWESPAC, Phillipine University, Quezon City, Luzon, P.I. (See ANNEX #4) The ceremony was attended by such distinguished speakers as President Osmena, General Worsham and Colonel Fertig all of whom were eloquent in praising the accomplishments of the 803rd during the first phases of World War II. Also at the ceremonies there were formally presented by General Worsham four (4) Unit Citations won by the 803rd for their part in the defense of Bataan. Thus was climaxed the brief but outstandinglife of the original 803rd, shadowed only by the absence of its men who gloriously engraved its' name in the history of military engineers.

		30 Jan'47

2. Transfer of Key Personnel:
   a. Executive Officer, Capt. Koehl L. R., Transf. ZI 29 Jan 47.
   b. S-3 officer, Lt. Stoddard, F.R., tfd. Clark Field.
3. No new facilities established.

Eisenhower Presidential Library

4. Missions and / or operations:

a. The 803rd Engineer Aviation Battalion continued work on the Fort William McKinley Project this month, with the following work being done:

(1) Double surface treated approximately one half mile on Merrit Road.

(2) Single surface treated approximately three-quarters mile on Lawton Drive.

(3) Paved one-half mile mix-in-placement on McCrea Avenue.

(4) Highway 54-A from McKinley Housing Project to P.O.L. Dump is still being maintained by the 803rd, and have been in the process of raising the outer section of the road using material from a new pit opened by the 803rd.

(5) Surface treatment on overall job is 93% Completed.

(6) Patching on overall job is 99% completed.

b. Part of the roads which were surface treated had to be blade mixed and put back in place, due to the type of asphalt available when those streets were paved.

5. Description of:

a. Equipment - Excess depreciation of equipment has been reported this month due to scarcity of parts replacements. Dead-lined equipment in the process of being turned in due to verbal orders of our deactivation.

b. Housing, Food & Supply slightly below average.

c. Recreation - Projection machine stolen 24 Jan, therefore discontinuing movies. Four EM tdy to Camp John Hay Rest Camp for 12 days recreation.

d. Promotions - Marlin C. Howard promoted to 1st Lt. 3 Jan 47; Eleven EM promoted to next higher grade.

e. Réducation in grade -- Four Em reduced to grade of Pvt. by 369 Board due to low AGCT Scores.

6. Commendations:

a. Battalion Commander commended officers and EM for the efforts in keeping the tradition of the 803rd E.A.B. of "Hard Work" and a job well done. Letter attached hereto.

7. Non-Combat Casualty :

On 16 January 1947, 1st Lt. Berl O. Baker, Battalion S-4 officer was killed in crash of a C-45 aircraft while flying as co-pilot on routine training missions. Accident occured near Manila at town of Famy, Laguna Province. Ceremonial was held at U.S. Army Cemetary #2, Manila. Air Craft flew over in tribute as Service wereheld. Deceased returned to Z. I. for burial. Photos of Ceremony inclosed herewith.

SECTION I

INACTIVATION OF UNITS

1. Under the provisions of War Department Readjustment Regulation 1-1 and pursuant to authority contained in letter AG 322 (6 December 1946 AO-1-AFCOR (330c)-M, War Department, AGO, Subject: "Inactivation of the 803rd Engineer Aviation Battalion; Constitution, Activation and Reorganization of Certain Other AAF Units," dated 19 December 1946: 1st Indorsement, GHQ FAR EAST COMMAND, dated 6 January 1947 thereto and letters AG 322 TR COM-3 HQ FEAF, dated 27 January 1947, Subject: "Inactivation of Units," the following units will be inactivated on 15 February 1947 at stations indicated.

UNIT	STATION TO BE INACTIVATED	PRESENT ASSIGNMENT
803rd Engineer Aviation Battalion	Fort McKinley, Luzon, P. I.	8060 Base Services Detachment (BA)
865th Engineer Aviation Battalion	Clark Field, Luzon, P. I.	313th Bomb Wing (VH)
*810th Engineer Aviation Battalion	Nichols Field, Luzon, P. I.	PAMA
2176th Engineer Maintenance Company, Aviation	Fort McKinley, Luzon, P. I.	Direct Thirteenth Air Force

(* Denotes Negro Enlisted Personnel)

2. No personnel will be reduced in grade as a result of these actions. Personnel rendered surplus by these actions will be reassigned to fill newly activated units.

Unit History of 803rd Engineer Aviation Battalion Final Report (Inactivation) January-February 1947

Unit History of 803rd Engineer Aviation Battalion Final Report (1) [January - February 1947]

General Orders No. 7, Hq Thirteenth AF, APO 719, 7 Feb 47, contd.

3. Corps of Engineer equipment will be turned in to the Base Air Installation Accountable Officer. All other equipment will be turned in to the Base Accountable Supply Officer. Such equipment turned in will be reissued by the appropriate accountable officer to newly activated units or disposed of in accordance with current policies.

4. Records of units will be processed in accordance with the following directives and delivered to the Records Administrator of this headquarters by not later than 1 March 1947.

Cir #4, 13 Jan 47, GHQ Far East Command.
FEAF Regulation 80-10, 26 Nov 46.
Thirteenth AF Regulation 80-9, 18 Oct 46.
TM 12-259, July, 1945.
AR 35-6700, 19 Sep 46.
Section II, WD Circular 382, 1946.

Custodians of Sundry and Welfare funds will comply with: AR 210-50; CINCFE Regulation 75-10; CINCFE Circular Number 10, 1946, and Section IV, RR 1-6, 15 Feb 46.

SECTION II

ACTIVATION OF UNITS

5. Pursuant to the same War Department letter referred to in paragraph 1, above, and letters AG 322-TR Con-3 HQ FEAF, dated 27 January 1947, Subject: "Activation of Units" the following units are activated on 15 February 1947 at stations indicated and each will be organized in accordance with the T/O & E listed opposite the respective unit.

UNIT	T/O & E	AUTHORIZED STRENGTH	STATION AT WHICH ACTIVATED
Headquarters & Headquarters and Service Company 933rd Engineer Aviation Group	1 x Col 19; 5-412, 27 Jun 46 as modified by Incl #1	13 Off 62 EM 75 aggregate	Nichols Field, Luzon, P. I.

6. Concurrent with the activation of the units listed in paragraph 5, above, they are assigned to commands as follows:

UNIT	ASSIGNMENT
HQ & HQ & Service Company 932nd Engineer Aviation Group	Direct to the Thirteenth Air Force.
HQ & HQ & Service Company 933rd Engineer Aviation Group	Far East Air Materiel Command and further assigned Philippine Air Materiel Area and further attached Thirteenth Air Force.
2315 and 2316 Engineer Aviation Companies	Far East Air Materiel Command & further assigned to Philippine Air Materiel Area (P) and attached to the Thirteenth Air Force
1937th Engineer Aviation Utilities Company	Thirteenth Air Force and further assigned to the 8060 Base Service Det (BA)
1946th Engineer Aviation Utilities Company	Far East Air Materiel Command and further assigned to Philippine Air Materiel Area (P) and further attached to Thirteenth Air Force

General Orders No. 7, Hq Thirteenth AF, APO 719, 7 Feb 47, contd.

7. The following units are entitled to the history, battle honors and any colors formerly belonging to the units listed opposite them which were inactivated on the dates shown:

UNIT	FORMER DESIGNATION	DATE INACTIVATED
HQ & HQ & Service Co, 932nd Engineer Aviation Group	Hq & Hq Company, 932 Engineer Construction Group, Avn.	30 June 1946
HQ & HQ & Service Company 933rd Engineer Aviation Group	HQ & HQ & Service Company, 933rd Engineer Aviation Regiment.	30 June 1946
1937th Engineer Aviation Utilities Company	1937th Engineer Aviation Utilities Company	31 July 1946

8. Personnel from inactivated units will be reassigned without loss in present grade to newly activated units, directed herein, as follows:

INACTIVATED UNIT	PERSONNEL TO BE ASSIGNED TO:
803rd Engineer Aviation Bn.	HQ & HQ & Serv Co, 932nd Engineer Aviation Group and 1937th Engr Avn Utilities Co.
810th Engineer Aviation Bn.	2315th and 2316th Engr Aviation Companies

9. Equipment for the 1937th and 1946th Engineer Aviation Utilities Companies is authorized in accordance with the appropriate columns indicated above of T/O & E 5-500. Equipment for all other units listed in paragraph 5, above, is authorized in accordance with the appropriate columns of T/O & E indicated. Each unit will be equipped to 100% of its authorized reduced strength insofar as practicable. Equipment in excess of that authorized for this reduced strength as well as equipment which presently cannot be properly maintained by the unit due to temporary shortage of personnel will be turned in to the appropriate accountable supply agency.

HEADQUARTERS, Fort William McKinley, APO 719, U. S. Army, 14 Feb 47

TO: Commanding Officer, 803rd Engineer Aviation Battalion, APO 719

1. I take great pleasure in forwarding this letter of commendation to you and members of your organization.

2. The mission of repairing the net work of roads assigned to the 803rd Engineer Aviation Battalion on Fort William McKinley was made doubly difficult by nonavailability of necessary equipment, inexperienced personnel, improper equipment and equipment in a poor state of repair.

3. The effort expended by you, your staff, other commissioned personnel, NCO's and enlisted personnel in the accomplishment of this mission is worthy of commendation.

Letter of Commendation.

Commanding Officer,
803d Engineer Aviation Battalion,
APO 75, U. S. Army.

Thru : Channels

1. Particular attention has been given to the overall improvement of the Roadway System on this Post and in the immediate vicinity of McKinley during the past few months. There was much reconstruction and maintenance to be done when this headquarters moved to Fort McKinley in May 1946. Hard usage during the war years, natural deterioration and war damage made travel dangerous and uncomfortable.

2. The 803d Engineer Aviation Battalion has followed up its outstanding combat record with a road maintenance and construction job well done. It has taken a great deal of ingenuity in providing adequate road building machinery and securing proper road materials. As a result, Fort McKinley has a serviceable network of roads and streets with a resulting savings to critically short motor vehicles and equipment.

3. It is desired to commend you for an excellent job and through you, your staff of able assistants, commissioned officers, non-commissioned officers, and enlisted personnel.

4. The 803d Battalion is seen to be inactivated following a comparatively short life prior to and after the fall of Corregidor. Your battalion has reflected credit to the service in general and to Aviation Engineers in particular through a record of outstanding accomplishments. The Commanding General together with every member of the Thirteenth Air Force desires to extend best wishes to each and every member of your organization.

BY COMMAND OF MAJOR GENERAL EUBANK:

GEORGE R. ACHESON,
Brigadier General, U.S.A.,
Chief of Staff.

HEADQUARTERS
803rd ENGINEER AVIATION BATTALION
APO 75

18 January 1947

SUBJECT: Commendation.

TO : Officers and Enlisted Men of the Battalion.

1. At Saturday's Inspection this date you were inspected by Major General Moore, Commanding General, PHILRYCOM (Formerly ANWESPAC), Major General Eubank, Commanding General, 13th Air Force, and Brigadier General Acheson, Chief of Staff, 13th Air Force, and other officers of high rank.

2. At the termination of the inspection Major General Moore Commended you with the phrase, "I have a warm spot in my heart for the 803rd." Note: (Major General Moore fought the Jap bastards and was captured with elements of the 803rd Engineers on Bataan and was a prisoner for about 2½ years.) Major General Eubank verbally commended you for your soldierliness and for your work.

3. In the service such compliments coming from officers of high rank are rare and it is not done promiscously and every one of you have the right to puff out your chest everywhere you go--you all now know your job and know it well, and when that occurs in a unit the men in it unconsciously adapt a cocky air about them that advertises to all other people that they do know their job and know how to soldier and can soldier. So keep it up soldiers, when on pass be in correct uniform at all times, and act like you would at home.

4. Let it be known now that your officers and Non-Coms all worked Hard to show you how to do these things and you as good soldiers aided them in learning what they taught. We all still have a lot to learn - so let's do it.

5. I want to thank you all for a good job.

WILLIAM S. BRITTON
Capt., CE
Commanding

MONTHLY HISTORICAL SUMMARY

803rd ENGINEER AVIATION BATTALION

PERIOD COVERED

1 December to 31 December

I
AUTHORITY

Reference to supporting documents on which summary is based are:

a. T/O & E 5-415, 5-416, 5-417, WAR DEPARTMENT, dated 15 May 1944, modified by 13th Air Force, General Order 72, dated 24 August, 1946.

b. Morning Report, WDAGO Form No. 1.

c. Personnel Roster Monthly. Authority: 13th Air Force

II
CONTENTS

Narrative accounts of various operations and activities of unit.

1. Engineer Aviation Battalion:
   a. Organization Strength:
      1 December 1946 OFF: 16 EM: 316
      31 December 1946 OFF: 15 EM: 283
   b. Personnel Augd to Organization in December:
      OFF: 0 EM: 0
      EM: 20 EM to Ft Wm McKinley, 1 December
      1 EM to Paranaque and U.S.A. 1 December
      1 EM dropped from rolls, 6 December
      1 EM to 10th General Hospital. 15 December
      3 EM to Paranaque and U.S.A. 9 December
      1 EM to Paranaque and U.S.A. 13 December
      6 Em to Ft McKinley, 15 December
2. Movements and transfer of Key Personnel: None.
3. No new facilities established.
4. Missions and/or operations:
   a. The 803rd Engineer Aviation Battalion continued work on the Fort William McKinley Project this Month, with following work being done:
      1. Double surfaced two miles on the following roads; one mile on North "ac Arthur Avenue, three quarters mile on Lawton Drive, one-eight mile on Merrit Road, and one-eight mile on Memorrial Drive. Single surface treated approximately one-half mile on Memorrial Drive. The surface treatments for the job are 85% complete.
      2. Continued Asphalt patching on overall job. 98% Complete.
      3. Rock crusher still in use and is crushing our rock being used.

MONTHLY HISTORICAL SUMMARY, (CONT'D)

4. Highway 54-A from McKinley Housing Project to P.O.L. dump is still being maintained by 803rd.

b. Excessive rain hindered operations to a great extent, causing delays and wet cover stone, in addition to raining on freshly oiled surfaces. This caused parts of the road to whip out and required additional patching.

c. The oil furnished is an SE-2 and is too low temperature for this climate; however we must use it and fight the bleeding with blotter courses.

5. a. Promotions: 2nd Lt Williamson promoted to 1st Lt. Thirty-six (36) Enlisted Men promoted to next higher grade.

b. Reductions: None

c. Housing is inadequate, men living in tents; food and supply are fair.

d. Recreation:

1. Movies every night.

2. A & R Program compulsory three hours each week and additional volunteer programs including swimming, basketball, baseball, football, and boxing.

e. Morale: Excellent

f. No new Equipment.

g. Transportation: No recreational transportation allowed due to shortage.

h. Esprit de Corps: Good

2. Movements and transfer of key personnel: None
3. No new facilities established.
4. Missions and/or operations.
   a. On the 2 Oct 1946 twenty yards of ¼ inch aggregate was received and a crew from Company "A" was assigned to start patching roads on Ft Wm McKinley.
   At the same time a request was made for 100 P.O.W. to start a drainage program, opening up the existing, culverts and ditches and replacing any that could no longer be used. No P.O.W.'s were received and due to the Organization being so far under strength no more than ten men could be placed on the drainage. On the 5th Oct 1946, tearing up, regrading, and rolling was started on the streets too bad to patch. About one mile of roads were torn up during the month and on the 20 Oct work was started on the resurfacing. A small amount of aggregate was received and 3000 gals of asphalt, and to date a new surface has been laid on approximately one eighth mile of road.

Eisenhower Presidential Library

Unit History of 803rd Engineer Aviation Battalion, [illegible] (2)

HISTORICAL SUMMARY, (CONT'D)

On the 17th Oct, work was started on the resurfacing of the South Gate entrance to Ft McKinley. To date the entrance has been shaped according to specified plans and the concrete slab for the M.P. booth has been poured. To date no asphalt has been poured at this entrance.

Verbal orders were received on the 14th Oct to start maintenance on the section of road from the Ft McKinley housing project and the junction of Highway 54. This road has several places where the sub-grade had become too soft and material had to be hauled in to repair these places. For this purpose an adobe rock pit was opened and to date about 400 yards of this material has been used. At the present time this project has in use two Motor Graders, one D-8 tractor with dozer blade and sheep foot roller; also a towed grader is being used on the ditches to correct very bad drainage system.

On 25 Oct 1946 a requisition was approved for washed river gravel. The rock crusher was put into operations and to date work is progressing on crushing this gravel which is to be used on the resurfacing of the roads on Ft Wm McKinley.

5. a. Promotions: 32 EM promoted to the next higher grade (Temporary). One EM promoted from private to corporal, now acting 1st/Sgt Hq & Hq & Service Co.

b. Reductions: None

c. Housing, food, and Supply are fair.

d. Recreation:

(1) Movies each night except Sunday.

(2) A&R programs nightly and weekly.

e. Morale: Excellent

f. No new equipment

g. Transportation: Transportation for recreational purposes, etc., adequate.

h. Esprit de Corps: Good

6. Special problems: None

8. Inventions, expedients, and new ideas: None

9. Individual Achievements: None

10. Combat operations: None

11. Individual exploits: None

1. Engineer Aviation Battalion:

a. Organization strength:

1. September 1946 OFF: 16 EM: 364 30 September 1946 OFF: 33 EM: 416.

b. Personnel aggd to organization in September:

OFF: 17 Off: Det #1 Hq & Base Service Squadron 4th Air Dep. APO 714. 1 Off. Hq Philippine Area, APO 714. EM. 324 EM. Det #1 Hq and Base Service Squadron 4th Air Dep. APO 714. 1 EM Hq & Sq. 13th Air Force APO 719.

c. Personnel Loosed in September: OFF: 1 off. to Hq and Hq Sq. 13th Air Force APO 719. EM: 263 EM to Repl and Disp Com'd APO 900-2. 2 EM to 7th Air Force, APO 953.

2. Movements and transfer of key personnel:

a. Movement of Hq and Hq and Service Co, "B" Co., and "C" Co completed 14 September to new location adjacent to Fourth General Hospital.

b. Transfer of key personnel: 26 September, Capt. William S. Britton, CE. assumed command vice Capt. L. R. Koehl, AC.

3. Facilities established.

a. Hq and Hq and Service Company rebuilt tents, built new latrine in new area which was very unclean due to Filipino civilians having previously occupied the area. Rebuilt EM Mess Hall, constructed roof for theater, thoroughly policed area.

Ernest R. Koehl
Captain, AC
Executive Officer

Unit History of 803rd Engineer Aviation Battalion [illegible] Final Report (2)

HISTORICAL SUMMARY: SEPTEMBER (CONT'D)

4. Missions and /or operations:

a. On 16 September 13th Air Force Staff Engineer gave verbal orders that reconstruction of roads at Ft Wm McKinley would be undertaken as soon as possible. On 17 September Tar kettle, power graders, rollers, and dumps truck were made available by the Service Platoon Leader of Hq and Hq and Service Company. Patching of roads could not be started until the Ft McKinley Base Engineer could supply aggregate. On 20 September the 803rd was assigned to Ft McKinley for administrative purposes. On 26 September Command was transferred to Captain Willian S. Britton. On 27 September, roads were under construction after it was ordered by the Ft McKinley Commanding Officer that the roads could be rebuilt with scarefiers, graders, and rollers with a resulting gravel surface since gravel and asphalt were not available for patching and resurfacing.

5. a. Promotions: 26 EM promoted to next higher grade (Temporary)
   b. Reductions: None
   c. Housing, food, and supply are fair.
   d. Recreation:
      (1) Movies each night except Sunday.
      (2) A&R programs nightly and weekly.
   e. Morale: Excellent
   f. No new equipment.
   g. Transportation: Transportation for recreational purposes, etc., adequate.
   h. Esprit De Corps: Good.

6. Special Problems: None
7. Accomplishments: None
8. Inventions, expedients, and new ideas: None
9. Individual Achievements: None
10. Combat operations: On 29 September at 0445 a volley of fire from an unidentified source covered the Battalion area with some hits; about ten bullet holes were found that were impressions of .30 Caliber and .45 caliber projectiles. Sgt Willie C Anderson of Hq and Hq and Service Company was shot while sleeping. He died within a few minutes of an internal hemorrage.

It was learned after the outburst, which continued intermittently for about an hour, that Ft McKinley Military Police were counter attacking the attacking band. The band was believed to be after supplies.

No shots were fired from the 803rd Area since there was no Evidence of the attackers firing directly at our area or guards.

11. Individual Exploits: None.

...e new facilities established.

4. Mission and/or operations

a. The 803rd continued working on Nichols Field Project this month. During this period operations were seriously retarded due to wet weather. The battalion employed an average of 18 civilians during this month.

b. The following work was done on Work Orders thie period:

(1) NIC-161. Installed one culvert across Gen. Phillips Rd., completed ditching for two more. Began hauling blanket of five inch rock to road. 30% complete in hauling adobe to old Hangar area. 80% complete in hauling waste from Lubmer Yard Area.

(2) NIC-198. Surface all roads on Nichols Field plus Nichols Field-Ft.McKinley Rd. Graded roads, continued hauling rock blanket. Graded areas Between Airplanes Hangars and hauled rock blanket.

(3) NIC-1248. Operation of Gravel Yard. Continued operating gravel yard on Nichols Field Spur Line. Operated one eitht hour shift unloading rock from railroad cars and hauled to various jobs calling for rock.

(4) NIC-104. Operation of adobe pit. No adobe hauled due to wet weather.

c. Yardage Report.

(1) During this month 5960 cu. yds. of waste was hauled from lumber Yard Area.

(2) 11,370 cu. yds. of 5" rock was hauled to Area between Aircraft Hangars, Nichols Field-Ft.McKinley Roads, and Gen. Phillips Rd. 96 cu. yds. of 1" gravel was hauled and 189 cu. yds. of sand.

5. a. Promotions: 39 EM promoted to the next higher grade.(Temp)

b. Reductions: 5 EM reduced to grade of Pvt.

c. Housing, food and supply are fair:

d. Recreation:

(1) Movies every night.

(2) AAR programs nightly and weekly.

Summary for July (Cont'd)

e. Morale: Excellent

f. No new equipment.

g. Transportation: Recreational transportation has been discontinued.

h. Esprit de Corps: Good

6. Special problems: None

7. Accomplishments: None

8. Inventions, expedients, and new ideas: None

9. Individual achievements: None.

10. Combat Operations: None

11. Individual exploits: None.

4. Mission and/or operations.

a. The 803rd continued working on the Nichols Field Project this month.

b. During this month the following new Work Orders were received from the Resident Engineer, Nichols Field.

(1) NIC-198. Surface all roads on Nichols Field plus Ft. McKinley-Nichols Road.

(2 Nic-12/B. Operation of Gravel Yard on Nichols Field Spur Lines.

c. The following work was done on Work Orders during this period.

(1) NIC-161. Completed hauling Adobe for Gen. Phillips Rd. Ready to haul gravel blanket. Installed two culverts across Rd, now working on a third. Completed hauling waste from Old Hanger Area, have hauled approx. 20% of adobe needed to bring Area up to grade. Approx. 75% complete in hauling waste from Lumber Yard Area.

(2) NIC-173. Construction of Bridge on Nichols Field access Rd., not yet begun, awaiting right of way clearance.

(3) NIC-150. Repair existing Concrete Water Tank and connect waterlains. Final cement work completed, installation of pipes and connections near completion.

(4) NIC-35D. Construction of Aircraft Hardstand. Work Orders for Hardstand cancelled. Constructed taxiway leading to Hardstand, surfaced with asphalt.

Unit History of 803rd Engineer Aviation Battalion [1942-1946] Final Report (2)

Eisenhower Presidential Library

4. c.

(5) NIC-118. Construction of Service Station. Installed pump and fitting. Job completed.

(6) NIC-111. Construction of ice plant. Completed approx. 85% of installations.

(7) NIC-112. Construction of Cold Storage Plant. Completed 80% of installation. Completed roof on building.

(8) NIC-160. Construct tower for four (4) 10,000 gals. capacity Water Tank. Completed three tanks, one tank not completed due to lack of fitting.

(9) NIC-198. Surface all roads on Nichols Field Plus Ft. McKinley-Nichols Field Road. Graded Ft. McKinley-Nichols Field Rd, hauling rock blankey for surface.

(10) NIC-124B. Operation of Gravel Yard. Began operating gravel yard on Nichols Field Railroad spurline. Working two eight hour shifts unloading rocks from railroad cars.

(11) NIC-104. Operation of Adobe Pit. Operated one eitht hour shift of trucks when weather permitted.

d. Yardage Report for June.

(1) During this month 24,640 cu. yds of waste was hauled.

(2) 15,832 cu. yds of adobe hauled to Gen. Phillips Rd., Ft. McKinley-Nichols Road, and Old Hanger Area.

(3) 1,299 cu. yds of Mariquina gravel.

(4) 2,274 cu. yds. of rock was hauled from gravel yd. to surface Ft. McKinley-Nichols Field Rd.

(5) 558 cu. yds. gravel from Gravel Yard used to surface area "J" Hardstand (NIC-350)

e. During this period the Battalion employed approximately 180 civilians on the Nichols Project.

f. During last week of this period progress was retarded due to wet weather.

g. During this month the Battalion remained at approximately one-half (½) its normal strength.

Contents

Narrative accounts of various operations and activities of unit:

1. Engineer Aviation Battalion.

a. Organization strength:

1 March 1946	Off: 36	EM: 419
31 March 1946	Off: 23	EM: 371

b. Personnel asgd to organization in March.

Off:	1 Officer	(1964th Engr Avn Co)
EM :	2 EM	(60th Dep Rep Sq Air Dep Gp)
	2 EM	(22nd Repl Depot)

c. Personnel losses:

1 Officer	(Asgd 8th Air Force)
1 Officer	(Asgd Area "G")
1 Officer	(Asgd 869th EAB)
11 Officers	(Asgd 22nd Repl Depot)
22 EM	(Asgd 22nd Repl Depot)
13 EM	(Asgd 11th Airborne Division)

Submitted to AFWesPac 7 April

Unit History of 803rd Engineer Aviation Battalion, [illegible] Final Report (2)

Hist Sum for Mar (Cont'd).

c.

3 EM (Asgd 5th Repl Depot)
1 EM (Asgd 4th Gen Hosp)
1 EM (Emergency furlough to US)

2. Movement and transfer of key personnel.

a. Movements: None.

b. Transfer of key personnel:

1 major, 7 1st Lt, 3 2nd Lt, 1 F/Sgt, 1 M/Sgt, 1 T/Sgt, 2 S/Sgt, 4 Sgt and 12 Tec 5, trfd to 22nd Repl Depot for transportation to US for purpose of discharge.

3. Facilities established:

a. Co "C", abandoned its old area and has moved into new and better quarters.

b. At present Headquarters Company is engaged in building new quarters for its personnel. The new quarters are being set up in Company C's old area. This project is almost complete.

c. New photo building.

4. Missions and/or operations.

a. The 803rd continued work on the AFWESPAC HQ's Project until the 27th of March. The 3063rd DT Co. was attached to this organization until 27th March. The 576th DT Co. was attached to this organization on the 4th of March. The 576th was relieved 25 March. The battalion employed an average of 174 civilians during this month.

b. Work done during this month.

(1) Operated rock crusher. Crushed rocks for stock pile.

(2) Continued maintenance on all roads in Project Area. Roads were bladed and sprayed with oil. This adds up to approximately 7½ miles of roads.

(3) Worked 300 POW's during the month. POW's worked on jobs calling for hand labor.

Eisenhower Presidential Library

Unit History of 803rd Aviation Battalion, Final Report (2) [14415-14416]

Hist Sum for Mar (Cont'd).

(4) Hauled 844 loads of gravel, 596 loads of rock, 611 loads of dobo.

(5) Set up Asphalt Plant to be used in constructing asphalt roads in Project area.

(6) Completed 94% of excavation for a motor pool site which was used as a barrow pit.

(7) Completed site grading an area of 61,000 sq. yds. for barracks.

(8) Completed 80% of a Recreational area.

(9) Completed 85% of an area of approximately 5,000 sq. yds. to be used as a Hardstand.

(10) Completed construction of road 700' X 20'.

(11) Completed grading site of approximately 10,462 sq. yds. for a Navy type Rest House.

(12) Completed grading two areas for Hardstand. Each area consisted of approximately 5,000 sq. yds.

(13) Completed 90% of construction of two curves on road leading in to AFWESPAC area.

c. The 803rd EAB was relieved assignment on AFWESPAC Headquarters Project the 27th of March. Next assignment for the 803rd will be at Nichols Field, Manila, P.I. Active construction at Nichols Field will begin the 1st of April. The last three days in this month were spent in moving equipments from AFWESPAC Project to Nichols Field.

d. During this period the Battalion remained at approximately one-half of its normal strength; consequently, in order to operate more effectively, "B" Company was broken up and its personnel distributed among the other three companies.

5. a. Promotions: 1 1st Lt, 1 2nd Lt and 44 EM promoted to the next higher grade. (temporary).

b. Housing, food and supply are fair.

c. Recreation.

(1) Movies every night.

(2) A & R programs nightly and weekly.

Unit History of 803rd Engineer Aviation Battalion, [illegible] 1945 - 1945 [illegible]
Final Report (2)

Hist Sum for Mar (Cont'd).

d. Morale: Excellent.

e. Equipment:

(1) Partial reequiping has been made on engineer equipment.

f. Transportation: Transportation for recreational purposes, etc., is adequate.

g. Esprit de Corps: There has been a fair amount of esprit de corps.

6. Special problems: None.

7. Accomplishments: None.

8. Inventions, expedient, and new ideas: None.

9. Individual achievements: None.

10. Combat operations: None.

Unit History of 803rd Engineer Aviation Battalion, Final Report (2) [1945-1946]

Engineer

4 JAN 1946

SUBJECT: History of 803rd Engr Avn Bn

TO: Air Engineer, Hq Far East Air Forces, APO 925, c/o Postmaster, San Francisco, California

1. In response to your memorandum to this office of 14 December 1945 regarding the above subject, the following information is furnished.

a. Activation date of 803rd EAB - 20 June 1941
b. Training Station in U. S. - Westover Field
c. Departed home station - 26 Sept 1941
d. Officer Personnel
   (1) Bn Commander - Maj Frank E. Fries (Died in Japanese Prison)
   (2) Bn Executive Officer - Capt Clarence Bidgood
   (3) C.O., H & S Co - Capt Herbert Ingersoll (Killed on Japanese Prison Ship by attacking U. S. planes)
   (4) C.O., "A" Co - 1st Lt. Zbikowski (Killed in action on Bataan)
   (5) Plat. Leader, H & S Co - 2nd Lt Samuel Goldbleth (Killed in action)
   (6) Plat. Leader, "B" Co - 2nd Lt Everett Carney (Died in Japanese Prison)

2. Lt. Col. Robert W. Rogers, formerly assigned to the 803rd EAB and now assigned to this office has furnished the following informal account of the fortunes of the unit. The information contained herein has been garnered from personal letters and from similar unofficial sources:

"The 803rd Engr Bn (Avn) less Co. C departed from Westover Field, Massachusetts, through the SFPE, and after a short stop in Honolulu, proceeded to Manila. After debarkation and the assembly of equipment, the Bn was sent to the vicinity of Clark Field where it was assigned runway and other normal airdrome construction tasks. "C" Co. was activated using personnel of the Philippine Army, and there were attached several hundred Chinese coolies, organized in provisional companies. After the initial attack on the Philippines had destroyed all U. S. air power, the battalion performed normal combat and construction engineer duties until the shortage of troops on Bataan forced General Wainwright to use all available defensive measures. From that time on the 803rd Engr Bn (Avn) fought as infantry, its last principal assignment being the defense of part of the shoreline between Marveles and Subic Bay. Co. "A" was awarded the Presidential unit citation for its part in these actions. After the fall of Bataan this unit ceased to exist as an organization.

202914

Unit History of 803rd Engineer Aviation Battalion, Final Report (2)
[1941-1945]

Ltr to FEAF fm Hq AAF, Subj: 803 EAB

During its organization and training period at Westover Field, the 803rd Engr Bn (Avn) furnished a detail of 1 officer and about 22 EM (1st Lt W. F. Donovan) who proceeded on tdy to Ellesmere Land, northern Labrador and constructed a series of radio and weather stations. This detail returned to the U. S. after the departure of the Battalion, and the personnel were subsequently absorbed by the 809th Engr Avn Bn, which was activated at Westover Field, 15 Nov 1941.

3. A copy of your memorandum is being forwarded to Westover Field. It is possible that rosters of Battalion Personnel are still on file there. No such rosters are among the files of this office.

Narrative accounts of various operations and activities of unit:

1. Engineer Aviation Battalion.

a. Organization strength:
1 October 1945 : Off: 33 EM: 799
31 October 1945: Off: 24 EM: 635

b. Personnel augd to organization in October.

Off: 1 Lt Col; 1 Capt; 1 1st Lt.
EM: 1 Pvt.

c. Personnel losses:
(1) 12 Officers (ASRS 75 or over).
(2) 39 EM (35 yrs of age).
(3) 133 EM (ASRS 70 or over).
(4) Honorable discharge for reenlistment: 1 Tec 3; 1 Tec 4; 2 Tec 5; 3 Pfcs; 7 Pvts.

2. Movement and transfer of key personnel.

a. Movements: None.

b. Transfer of key personnel:
(1) Officers: 1 Maj; 5 Capts; 5 1st Lts, and 1 CWO, transferred to 22d Replacement Depot for transportation to US for purpose of Discharge.
(2) Enlisted Men: 4 1st Sgts; 1 T/Sgt, and 10 S/Sgts, transferred to 22d Replacement Depot for transportation to US for purpose of Discharge.

Unit History of 803rd Engineer Aviation Battalion, final Report (2) [1945-1946]

Hist Sum for Oct (Cont'd).

3. Facilities established:

a. Battalion supply building under construction.

b. Dispensary building acquired.

c. Post Exchange building constructed.

d. Theatre area improved by installation of permanent projection booth, benches and screen.

The above new facilities were established because original construction was inadequate. Upon arrival in this area AND prior to this month the battalion was unable to furnish adequate housing due to lack of time and necessary materials.

4. Missions and/or Operations.

a. Headquarters for AFWESPAC (CD 104 GENED).

(1) Construct roads and drainage in all areas.
(2) To perform heavy grading as required, this to include hauling aggregate.
(3) Construction of EM barracks, necessary latrines, showers, and orderly rooms. (Includes thirty-two (32) 20' x 108' buildings).
(4) Installation of electric facilities in two office buildings.
(5) Operation of DOBO pits to obtain material for fills.

5. a. Promotions: 221 EM promoted to the next higher grade.(temporary).

b. Housing, food and supply are good.

c. Recreation.
(1) A new large post exchange has been established.
(2) Every man is given one day off each week for recreational purposes.

d. Morale: Fair.

e. Equipment:
(1) The majority of engineer and ordnance equipment is old, with the exception of a few dump trucks, but is in fairly good condition.

f. Transportation: Transportation for recreational purposes, etc., is adequate.

g. Esprit de Corps: There has been a normal decline in esprit de corps because of so many personnel replacements to replace men who have been transferred from the organization for purpose of Discharge.

6. Special problems: Progress on AFWESPAC project has been slowed considerably by the weather, by the soil, and by changes in the plans of higher headquarter

Content

Narrative accounts of various operations and activities of unit.

1. Engineer Aviation Battalion

a. The battalion had been set up to include Hq & Hq & Serv Co; A Company, (Truck Company); B Company, (Construction Company); C Company, (Equipment Company); and is now reorganized in accordance with T/O & E 5-415, 5-416 and 5-417.

b. Organization strength:

	Officers	Enlisted Men
1 September	24 33	628 799
30 September	33 24	798

c. Personnel assigned to organization in September:

Officers: 2 Capt; 5 1st Lts; 3 2d Lts.
Enlisted Men: 134 Privates; Infantry replacements.

d. Personnel losses:

(1) 5 Enlisted Men (38 years of age)
(2) 6 Enlisted Men (ASR Scores 85 or over).

Eisenhower Presidential Library

2. Movement and Transfer of Key Personnel.

a. Organization relieved assignment to AFWESPAC and assigned to Sixth Army effective 15 August 1945. Authority: Par 5, GO 185, Hq, Sixth Army, dated 2 Sept 45. Expect to move to San Fabian, Luzon, PI, staging area between 5 and 15 October.

b. Transfer of Key Personnel.

(1) Lt Col Harold C Brown, CE; Capt Lewis J Adams, CE; and Capt Oliver A Grenier, DC, transferred to hospitals and expected to return to the USA.

c. Sgt Harry McDonald, CE, Msg Ctr Chief, granted 30 days Emergency Furlough to the USA, and is not expected to return to organization do to age.

3. No new facilities.

4. Missions and/or operations.

a. Staging area for 2700 Female Personnel, including 107 buildings with necessary mess halls, showers, latrines, etc.
(1) Started project 3 August 1945.
(2) Completed approximately 75%.

b. Service Road Maintenance in Manila, PI: Continuous maintenance of 3-3/4 miles of streets.

c. Sawmill: Continuous operation. Sawed 225,000 board feet of lumber.

d. Access Road - 20' wide x 600' long, gravel surface. Approximately 50% completed.

e. Relieved of all projects 15 Sept 45 to prepare for movement.

5. a. Promotions.

(1) Officers: 1st Lts to Capts.

Joseph G Cmorik	Auth: SO 82	AFWESPAC	30 Aug 45
Eugene S Pluciennik	Auth: SO 244	Sixth Army	9 Sep 45

(2) Enlisted Men:
24 EM promoted to next higher grade (temporary).

b. Training of Infantry Replacements.

(1) Orientation lecture on Engineer Corps and its work.
(2) Truck Drivers (1 EM for each battalion truck).
(3) Surveying (10 replacements).

Unit History of 803rd Engineer Aviation Battalion [illegible] 1945 - 1946 Final Report (2)

c. Housing, food and supply are good.

d. Recreational

(1) An Enlisted Men's Club has been established in a nice portable building.
(2) One truck maintains a bus schedule to transport men to and from Manila.
(3) All men have at least 1 1/2 days per week off for recreation.

e. Morale: Good except those men who are eligible to return to the USA and have reason to feel that higher headquarters is too slow in getting them out.

f. Equipment.

(1) All engineer equipment, with the exception of a few pieces, is idle, and is being cleaned and serviced in preparation for movement.

(2) Ordnance equipment is being used mainly for transportation of personnel rather than for engineer tasks.

(3) The greater part of our equipment is fairly old. Some ordnance equipment, mainly 2 1/2 ton dump trucks, are new.

g. Transportation.

(1) For the first time in many months there are more than enough vehicles available for recreational purposes.

h. Esprit de Corps.

(1) There has been a normal decline in esprit de corps due to the fact that many of the older men have left the organization, and many of the new men have not been with it for a sufficient amount of time to develop any personal attachment.

6. Special problems: None.

7. Accomplishment.

a. The female staging area at Las Pinas, 75% of which was constructed by this Battalion, received a considerable amount of attention both from official and unofficial sources because of the elaborateness of the construction and because of the record time in which it was accomplished.

8. Inventions, expedients, or new ideas: None that is believed to be of interest to other units or later reference, although this battalion is continually making developments towards quality construction and to speed up operations.

9. Individual achievements: M Sgt Kern Pratt, Jr., commissioned 2d Lt, CE, AUS, per SO 24, Hq, AFPAC, 22 Aug 45, and appointed Asst S-3. M Sgt Pratt was recommended for promotion due to outstanding service, leadership, and efficiency

Asgd:	24	634

II Assigned and Attached

1. This organization is assigned to Sixth Army, APO 442 and attached to ENCOM. The unit was alerted for movement 23 August 45 and placed under Operational control of 5221 Engr Const Brig.

III Operations

1. Principal projects on which employed.
a. Construction Directive SM-95, Area B, GENED, Staging Area for 2700 Female Personnel. Area includes 107 buildings with necessary mess halls, showers, latrines, etc.

Unit History of 803rd Engineer Aviation Battalion, Final Report (2) [1945-1946]

Monthly Historical Summary (Cont'd)

(1) Started: 3 August 1945.
(2) Completed approximately 60%

b. Construction Directive NM-10 Area B, GENED, MSR Maintenance.
(1) Continuous operation and maintenance.

c. V8 AE Operation of Sawmill.
(1) Continued operation.

IV SPECIAL PROBLEMS

1. None.

V CIVILIAN LABOR

1. Up to 152 civilians were employed for work on projects and battalion details.

VI VISITORS FROM HIGHER HEADQUARTERS.

Major Need of ENCOM and Major Richardson of GENED made an inspection tour of the battalion area and projects.

The unit was inspected by Capt Bowan of the Inspector General's Department of ENCOM.

II
CONTENT

Narritive accounts of various operations and activities of unit.

1. Engineer Aviation Battalion.
   a. At the present time the battalion is set up to include Hq & Hq & Serv Co; A Co, Truck Company; B Co, Construction Company; C Co, Equipment Company.

2. Movement and Transfer of Key Personnel.
   a. There was no movement.
   b. Capt Thomas F Garey, CE, was asgnd and trfd to 856th Engr Avn Bn.
      1st Lt Clarence C Peters, CE, was asgnd and trfd to 1002d Engr Forestry Bn.

3. Facilities administered and Established.
   a. Water and electricity for camp area obtained from Public Utilities.
   b. Motor Pool and Equipment Pool established near Signal Depot job, Quezon City, in order to expedite the obtaining of vehicles and equipment.

4. Construction of Engineer Wharehouse, 110' x 405 and access road, 1800' x 24 with 5' shoulders, 60,000 sq ft of open hardstands. In erecting the warehouses great care was used in staking out the uprights. The bayswere assembled while on the ground and lifted in place with a Quickway. The end bracing plan was changed three times due to the availability of lumber. The cross bracing (2x8) was finally used.

5. Maintenance of Rizal Avenue from Route 54 to Azcarraga Street to date is about 30% completed. An effort is being made to secure more Asphalt Heaters to expedite the job.

Construction of AFWESPAC Camp Area for 1100 EM including tents, mess halls, latrines and showers, and parking lots is approximately 65% complete to date.

CONFIDENTIAL

Harry S. Truman Presidential Library

Monthly Hist Sum (Cont'd)

5. Due to one previous job, building an air strip and connecting taxiways with numberous hardstands and service aprons, the equipment is in fair condition. However, a great effort is being made to repair and service all. Spare parts are available, this has been a great problem heretofore.
The transportation is serious due to lack of tires and tubes. All possible action is being taken to overcome this difficulty and tires and tubes are expected in the near future.
Floors are being placed in all tents and the drainage of the camp area has been completed. The food is good. The Morale is good. This being the cause of working seven days a week and no time off for recreation. No training is in effect due to the entire organization committed to jobs. No officers promoted. There were approximately 2 Staff sergeants, 5 Sergeants, 4 Tec 4's and 5 Tec 5's promoted.

The Esprit de Corps is very satisfactory.

6. Most of the problems were encountered while building the access road and harstands. The almost daily rain washed away work done. In order to meet this problem immediately upon dumping dobo or gravel it was worked with grader and roller to seal it up so it would turn off water instead of soaking said up.

7. Completed access road and 60,000 sq ft of hardstands and 3 warehouses, 110' x 405'.

8. There were no inventions, expedients or new ideas devised.

9. Captain Charles Drysdale, S-3, exerted great effort in the construction jobs of this organization. He supplied plans and engineering advice.

10. There were no combat operations nor service functions performed.

11. There were no individual exploits.

12. There are no ather inclusions deemed worthwhile .

HISTORICAL SUMMARY
13 February 1945 to 31 March 1945.

I Personnel.

1. Organization was enroute aboard three liberty ships, Murrey M Blum, Lancaster and Cullen, during the period 13 February to 26 February.

2. On temporary bivouac at Angio, San Fabian, Luzon, P.I., from 26 February to 5 March making preparations for movement to permanent location.

3. Arrived at Porac, Pampanga, Luzon, P.I., during the period 6 March to 10 March. We were the first troops to arrive in this area after the Infantry left and the Filipino Guerrillas took over.

4. Due to disbandment of the 875th A/B Engr Aviation Battalion and subsequent transfer to this organization, an overage existed in Officers and Enlisted Men. A list of overages was submitted to Luzon Engineer District, with the result that all overage in Officers and the majority of grades five, six and seven of Enlisted Men were placed on Detached Service with that Headquarters.

5. Strength:

	Officers	Enlisted Men
13 February 1945	42	808
31 March 1945	31	789

6. Beginning on 30 March, Captain Edward J Johnson, Adjutant, was placed in charge of the organization of a Philippine Army Detachment under the Sixth Army.

II Assigned and Attached.

1. This organization, assigned FEAF and attached to USASOS, is further attached to USASOS Engineer Construction Command effective 16 March 1945.

III Operations.

1. Railroad at San Fabian.

a. One company laid ties, spiked and gauged rails from 29 February to 2 March 1945.

2. Rock Crusher.

a. Began operation on 12 March for Porac Airfield Construction.

b. Continuous operation throughout all construction.

"B" Co	January	17th and 18th
"C" Co	January	19th and 20th
Hq Co	January	22nd and 23rd

b. Each company will furnish its own pit detail, range guards, officers, and NCO's.

c. Lt Cmorik is designated range officer for this period. He is responsible for all range supplies and maintenance of the range. He is responsible for range safety and will see that the necessary guards are posted. He will report to Base S-3 prior to 14 January 45, to get range clearance (See S-3 on this)

d. A record "C" Course for men armed with the M-1 rifle will be fired.

e. Practice firing for M-1 rifles will consist of the following:

Range	Rounds	Position
200 yd	8	Prone (for zeroing in)
200 yd	4	Sitting
200 yd	4	Kneeling
200 yd	4	Standing
200 yd	9	Standing to prone (40 seconds)
200 yd	9	Standing to kneeling (45 seconds)

f. Carbine firing will be as follows:

Slow Fire

100 yd	4 rds	Prone
200 yd	4 rds	Sitting
200 yd	4 rds	Kneeling
200 yd	4 rds	Standing

Training Memorandum No. 2 (cont'd)

f. (continued)

Rapid Fire

100 yd 8 rds (2 mag.4 rds ea) standing (1 mag.4 rds) sitting (1 mag.4 rds) 35 sec.
100 yd 8 rds (2 mag.4 rds ea) standing (1 mag.4 rds) kneeling(1 mag.4 rds) 35 sec.
200 yd 8 rds (2 mag.4 rds ea) standing (1 mag.4 rds) sitting (1 mag.4 rds) 35 sec.
200 yd 8 rds (2 mag.4 rds ea) standing (1 mag.4 rds) kneeling(1 mag.4 rds) 35 sec.

2. In addition to range firing the following training will be conducted:

8 hours	Marching
4 hours	Mines and Booby traps
1 hour	Current Events
8 hours	Scouting and Patrolling
3 hours	Combat Demolitions
8 hours	Open to company commanders

3. Companies will submit schedules to S-3 prior to 1700 hours, 13 January 45.

874TH ENGINEER AVIATION BATTALION
APO 322-1

HCB

Sunday, January 7, 1945

DEDICATION OF THE HURLEY - STIELAU FIELD
January 7

Eisenhower Presidential Library

Sunday afternoon, January 7, at 1345 hours, the 874th Engineer Aviation Battalion held the dedication ceremonies of their new ball field at APO 322.

The dedication opened with the officers and "A" Company's baseball team lined along the right and left field foul lines at home plate and the spectators lined along the two dugouts. The color guard marched in from the left field entrance and halted at second base; Chaplain Pitts proceeded from the left field dugout to the pitcher mound. The Chaplain then presented the colors and Corporal T. F. L. Gamble played the Star-Spangled Banner, while the players and spectators stood at attention. Chaplain Pitts then proceeded to dedicate the field in honor of Sergeant William G. Hurley of this battalion who lost his life through an accident at a former base and Private Edward Stielau who had lost his life at the same base in the same manner. Chaplain Pitts then made the final dedication, and the field was to be known as the Hurley-Stielau Field. The color guards then marched off the field, in the same manner of entrance. The officers and members of "A" Company then proceeded to play the first baseball game on the field. Captain Jack J. Farmer of "C" Company was the official umpire behind the plate. Captain Winters of the Base Medical Staff umpired the bases. "A" Company proceeded to hand the officers a nice lacing to the tune of 7 to 1, behind the stellar pitching of Fikes with Coviello receiving. The batteries for the officers were, Heinricher, Manning and Blethen pitching, Cmorik and Griffith sharing the receiving burden.

HEADQUARTERS FIRST AIR FORCE
Office of the Commanding General
Mitchel Field, New York.

OCT 30 1941

220.31 (803rd Engrs.)

SUBJECT : Qualifications of Engineer Enlisted Personnel.

TO : Commanding Officer, Air Base, Westover Field, Chicopee Falls, Massachusetts.

1. With reference to letter from Commanding Officer, 803rd Engineer Battalion (Aviation), Subject "Re-assignment of Enlisted Men", Oct. 1, 1941, transmitted to your headquarters with our 3rd Indorsement, Oct. 23, 1941, 220.31 (10-1-41), copies of which are attached hereto, it is requested that information be furnished by return indorsement relative to the specialist qualifications of each enlisted man reported for transfer to the new Engineer Battalion. The data involved is needed by Headquarters Air Force Combat Command in their preparation of a requisition for enlisted personnel to activate the new Engineer Battalion (Aviation) at authorized strength; this requisition will exclude request for platoon and squad leaders, mechanics, carpenters, clerks, etc., who are available for transfer among personnel listed in the attached inclosure. It is understood that Lieut. Rogers, C.E., and Lieut. Boyer, C.E., formerly with 803rd Engineers, are now at your station and will be prepared to report the required information on Engineer enlisted personnel of 803rd Engineers.

By command of Major General DARGUE:

WILLIAM P. WINSLADE,
Captain, AGD.,
Asst. Adjutant General.
